

2021 PET FOOD LIST

The following is a list of pet foods approved for Passover 2021 when produced in the U.S. Products with identical names from foreign countries may have different formulations, thus compromising their Passover status. Since formulas are subject to change, make sure to check all labels. There should be no *chometz* listed. A product listing both meat and dairy ingredients may not be used any time during the year. (See “Feeding Your Pet: Barking Up the Right Tree” at www.star-k.org for more information)

CATS

Blue Freedom Grain Free Indoor (canned)—Chicken for Kittens, Chicken for Cats, Fish, Flaked Chicken in Tasty Gravy, Chicken for Mature Cats

Wellness Core Grain Free (canned): Beef & Venison & Lamb, Puppy, Turkey & Chicken Liver & Turkey Liver, Whitefish & Salmon & Herring

Wellness Core Grain Free Ninety Five Percent (canned): Beef with Carrots, Chicken with Broccoli, Turkey with Spinach

BIRDS**(Parrots, Parakeets, Cockatiels, Macaws)**

STAR-K would like to express appreciation to Dr. Aaron Weissberg, z"l for his contribution of the following guidelines.

- Millet and sorghum as main diet.
- Peanuts, sunflower seeds, and safflower seeds can be given.
- Larger birds such as parrots can eat pure alfalfa pellets (make sure it is pure alfalfa since it is common to add grains) or dry dog food (see above for list).
- Smaller birds can also have pure alfalfa pellets; crush before feeding.
- Can supplement with cottage cheese, rice cakes (birds like to eat these), small pieces of lean meat, matzah, berries, eggs, canned baby fruits. All large food should be shredded before serving. These items should be given sparingly.
- For minerals, can have oyster shells (calcium) or mineral block.
- The greater the variety, the better.

GECKO

Gecko: Repashy Crested Gecko Meal Replacement Powder

HAMSTERS, GUINEA PIGS, GERBILS & RABBITS

- Best to feed pure alfalfa pellets. Make sure it is pure alfalfa since it is common to add grains. Dried alfalfa may also be given.
- Can supplement with mixture of cut-up fruits and vegetables – carrots, broccoli, apples, melon, kale, parsley, oranges, celery, dry corn, sunflower seeds, cabbage. Can also give some matzah. If not accustomed to these items, give sparingly.
- Guinea pigs especially will benefit from kale, parsley and oranges.
- Hamsters especially will benefit from apples.
- Guinea pigs need Vitamin C added to diet.

ADDITIONAL PET FOOD INFORMATION

- ✦ Mixes sold in stores often contain *chometz*. It is advisable for pet owners to slowly wean their pets off their regular *chometz* pet food diet. This is accomplished by mixing regular and Pesach food between one and two weeks prior to Pesach before switching completely to Pesach food. The ratio of regular and Pesach food should be changed slowly to get the animal used to the new diet. Check with your veterinarian before changing diet.
- ✦ Pure Timothy Hay is not *chometz* and may be used.

FAQS REGARDING PETS ON PESACH

Rabbi Zvi Goldberg, STAR-K Kashrus Administrator

Q. Are “grain-free” pet foods acceptable?

A. There are many “grain-free” dog and cat foods on the market. While we still recommend checking the ingredient panel on those foods, they are a good place to start your search for an appropriate food.

Q. Is it necessary to buy a new food bowl for your pet for Pesach?

A. No. However, the bowl used year-round should be thoroughly cleaned before Pesach.

Q. If I am going away for Pesach, what should I do with my fish?

A. Vacation blocks often contain *chometz*. One can purchase a block without *chometz* or use an automatic fish feeder and fill it with non-*chometz* food.

Q. During a Pesach visit to the zoo, may one purchase the animal feed?

A. No. This feed is often *chometz* and should not be purchased or fed to the animals during Pesach.

Q. Must pet food with *chometz* be put away and sold before Pesach?

A. Yes.

Q. Can *kitniyos*, such as rice and beans, be fed to animals on Pesach?

A. Yes.

Q. What are some common *chometz* ingredients in pet food?

A. Wheat (cracked, flour, germ, gluten, ground, groats, middlings, starch), barley (cracked, flour), oats (flour, groats, hulled), pasta, rye, and brewer’s dried yeast. Any questionable ingredient should be reviewed by a competent rabbinic authority.

Q. What are some common ingredients which may be *kitniyos* but are permitted in pet food?

A. Beans, buckwheat, brewer’s rice, corn, grain sorghum (milo), millet, peanuts, peas, rice, sesame, soybeans, soy flour, and sunflower.

Q. Is pet food “with gravy” permitted?

A. Most often, gravy contains *chometz*. Read the ingredient panel carefully.

Q. Are the vitamins or minerals in pet food *chometz*?

A. They may be *chometz*, but are *batel* (nullified) due to the small amount added.
