

HOW TO USE THE PRODUCT DIRECTORY

Products are Kosher for Passover only when the conditions indicated below are met.

☆**P Required** - These products are certified by STAR-K for Passover only when bearing STAR-K P on the label.

☆**No P Required** - These products are certified by STAR-K for Passover when bearing the STAR-K symbol. No additional "P" or "Kosher for Passover" statement is necessary.

P Required - These products are certified for Passover by another *kashrus* agency when bearing their kosher symbol followed by a "P" or "Kosher for Passover" statement.

No P Required - These products are certified for Passover by another *kashrus* agency when bearing their kosher symbol. No additional "P" or "Kosher for Passover" statement is necessary.

Please also note the following:

- Packaged dairy products certified by STAR-K are *Cholov Yisroel* (CY).
- Products bearing STAR-K P on the label do not use any ingredients derived from *kitniyos* (including *kitniyos shenishtanu*).
- Agricultural products listed as being acceptable without certification do not require a *hechsher* when grown in *chutz la'aretz* (outside the land of Israel). However, these products must have a reliable certification when coming from Israel as there may be *shemita*, or *terumos* and *maasros* concerns.
- Various products that are not fit for canine consumption may *halachically* be used on Pesach, even if they contain *chometz*, although some are stringent in this regard. As indicated below, all brands of such products are approved for use on Pesach. For further discussion regarding this issue, see page 101.

NUTS

Raw, whether they are slivered, whole or chopped nuts (e.g., almonds, pine nuts, walnuts, etc.) without preservatives or other additives, such as BHT or BHA in corn oil, are approved for Passover. If label states that it is processed in a plant that processes kitniyos or chometz, then it requires a reliable KFP certification.

The following processed nuts require KFP certification: Dry roasted, toasted, blanched, and ground.

Whole and half pecans are similar to any raw nuts mentioned above; however, pecan pieces and midget pecans must bear a KFP symbol.

Many consider peanuts as kitniyos, which are not permissible on Pesach.

Paper Towel Rolls
Any brand may be used in the following manner: The first three sheets and the last sheet attached to the cardboard should not come into direct contact with food, since a corn starch based glue may be used. (If using rolls of half-sized sheets, this rule applies to the first four and the last two sheets.) The rest of the roll may be used with hot or cold foods.

Styrofoam Plates & Cups
The problems associated with styrofoam are not a Pesach issue. They may contain ingredients that are non-kosher; however, they are free of chometz. Those who use styrofoam year-round may use it on Pesach.

Tablecloths
All clear plastic, non-powdered may be used. Ensure that the plastics (even when using "pre-cut" tablecloths) are not attached to avoid halachic issues related to Shabbos & Yom Tov.

QUINOA

Quinoa is Kosher l'Pesach and is not related to the five types of chometz grains, millet or rice. However, because there is a possibility that quinoa grows in proximity to chometz grains and may be processed in facilities that compromise its Kosher for

Passover status, quinoa should be accepted only with a reliable Kosher for Passover approval. In addition, there have been infestation issues in many brands of quinoa. We recommend quinoa be checked prior to use.

The following is certified by the Star-K:
