NOTE:
The medication list in this guide applies to products distributed by U.S. companies only.

This book contains divrei Torah and should be placed in sheimos after use.

For updated Passover product information, visit www.star-k.org/passover.

For updated Passover medicine information, visit www.kehilasyaakov.org.
STAR-K is most grateful to Rabbi Dovid Heber for all his work in pulling together this Pesach Guide. We also wish to thank our entire rabbinic staff as well as Rabbi Eli Reidler for their assistance.

Additionally, this publication would not have been possible without the help and dedication of our STAR-K project team: Mrs. Yehudis Barer, Mrs. Rivky Benyowitz, Mrs. Rivka Leah Goldman, Mrs. Pesi Herskovitz, Ms. Adina Michelsohn, and Mrs. Margie Pensak; and our design team at AMF Creative: Mrs. Shira Pepper and Ms. Yocheved Soskil.

Kollel of Los Angeles is truly indebted to Mr. and Mrs. Chuna Zev (Leon) Garfield of PC Paramedic Inc. (323.449.2181 | Leon@Pcpar.org) for creating and maintaining the computer program for this project. Without their help, this project would not have been as successful.
Dear Friend,

Chasdei Hashem, the Kollel has been zoche to provide the tzibbur with the Passover Medicines and Cosmetics Guide for some 31 years. We daven to Hashem to be able to continue this practice for many years to come. This is done with the hope of increasing your Pesach convenience and limiting its cost. The Guide is the original research of Rav Gershon Bess שליט"א, rav of the Congregation Kehilas Yaakov and an alumnus of Kollel Los Angeles.

While several prominent rabbonim have questioned the need for this list, Rav Yosef Shalom Eliyashiv, זצוק"ל, Rav Shmuel Wosner, זצוק"ל, and other Gedolei Yisroel have urged, both for reasons in halacha and minhag, that the established practice be continued. (Refer to “Medicine List Guidelines” and “Personal Care Guidelines” inside.)

For any further questions, you may email Rav Bess at rgbess@hotmail.com. To place yourself on future mailing lists, please either send a fax to (323) 933-7493 or email office@kollella.com.

As a community kollel, our Kollel Shiurim Program continues to respond to a generation that "seeks to know." Hundreds of adults presently participate in twenty-five different shiurim and Torah study groups. Numerous adjustments were implemented to maintain and add shiurim throughout this challenging year.

This year the Kollel maintains an all-learning component of thirteen avrechim who are totally and diligently immersed in the depths of Torah study. Forty-eight years ago this summer, this unique entity was established as an exemplary expression of Community Kollel, תלמיד fi first and also ללמד. The overriding focus is upon shiteigen in leareen (growth in learning) on the part of the avrechim themselves. This is the קרן. All other activities are פירות.

As a dynamic institution, there is rarely a year, ב”ד, that we are not privileged to a significant new development. With much סלעת, this past Elul and Tishrei we were privileged to bring four new families to the Kollel and community with a most esteemed Rosh Chaburah, Rav Casriel Juravel שליט"א. These new avrechim add a fresh and young dynamic to an already most prominent group of avrechim.

Kollel Los Angeles does not insist that its avrechim enter עבודה הקדוש. However, of some eighty-five alumni, all but five or six are fully installed in positions of community leadership ראשי כולל, ראשי ישיבה, מחנכים, רבנים. We thank Rav Shlomowitz, מנהלים, and modern תורם רבנים, and others from many other American cities and neighborhoods that are increasingly establishing and seeking to establish kollelim.

Today's competitive world causes us to be ever more grateful to the רבשל"ע for every yungerman who is privileged to find a position suitable to his particular talents. We thank Hashem ייסר, that Rabbi Mordechai Nochum Shlomowitz was chosen as the ראש בית מדרש Mesivta of Greater Los Angeles - Calabasas this past year. He has thus far been זוכה to raise theבחורים to entire new plateaus as they mature and become צורוב מרבנים.

We extend to each and every one our best wishes for a chag kosher vesame’ach. Kollel Los Angeles
Dear Friend,

We are proud to present to you the brand new STAR-K Digital Pesach Guide. As you may be aware by now, this year’s printed edition of the STAR-K Pesach Guide, available in Jewish bookstores, was comprised mainly of Rav Bess’s Passover Medicines & Cosmetics lists, along with a host of quick reference lists, charts, and kashering and seder preparation guidelines.

The many articles that had previously appeared in our printed books this year are only available online at star-k.org/passover. We created this digital guide to house all that information for you in one easy place. Please refer to it often for relevant articles, helpful lists, zmanim, and updated charts prepared by STAR-K.

If you have any questions about this new format or are unable to access the information online, please email info@star-k.org, or call our office at 410-484-4110 and we will do what we can to accommodate you.

Information about purchasing the STAR-K Pesach Guide with Rav Bess’s Passover Medicines & Cosmetics can be found on our site at star-k.org/passover.

A lot of thought and planning went into creating this STAR-K Digital Pesach Guide, and it is our hope that we have succeeded in producing a resource for you, the kosher consumer, that is easy to use and will help you better prepare for Pesach with greater peace of mind.

With best wishes for a chag kosher vesame’ach,

Rabbi Moshe Heinemann  
Rabbinic Administrator

Avrom Pollak  
President

KOSHER FOR PASSOVER ITEMS THAT DO NOT REQUIRE KOSHER FOR PESACH OR KFP SYMBOL

NOTES:

• A complete list of STAR-K Kosher for Passover products is available at star-k.org/passover

• Agricultural products listed as being acceptable without certification do not require a hechsher when grown outside the land of Israel). Products from Israel must have a reliable certification, as there may be terumos, maasros, and Shemita concerns.

• Various products that are not fit for canine consumption may halachically be used on Pesach, even if they contain chometz, although some are stringent in this regard. As indicated below, all brands of such products are approved for use on Pesach.

A

AIR FRESHENER
Any may be used

ALCOHOL
Any isopropyl alcohol may be used for external use.

ALCOHOLIC BEVERAGES
Vinprom – Troyan (※/No P Required)
  Apple Brandy
  Apricot Brandy
  Pear Brandy
  Plum Brandy

ALUMINUM FOIL PRODUCTS
All disposable foil products may be used.

AMMONIA
Any may be used

B

BABY BOTTLE
Does not need a hechsher. Since it comes into contact with chometz (e.g., washed with dishes, boiled in chometz pot), new ones should be purchased.

BABY POWDER
Any not listing oat flour as an ingredient may be used.

BABY WIPES
Any without alcohol may be used (except on Shabbos and Yom Tov).

BAKING SODA
Any may be used

BALLOONS
Any without powder

BAND-AIDS
Any may be used

BLEACH
Any may be used

BLUSH/ROUGE
Powdered- Any may be used

BUTCHERS
See Meat

C

CANDLES (PARAFFIN)
Do not need a hechsher

CHARCOAL BRIQUETTES
Any Unflavored

CHEESECLOTH
Any may be used

CLEANSERS
See Detergents, Cleansers

COCOA
Any domestically produced 100% pure cocoa, with no additives, may be used. However, if label states that it is processed in a plant that processes kitniyos or chometz, then it requires a reliable KFP certification.

COCONUT OIL
Kirkland Signature – (※/No P Required)
  Organic Virgin Coconut Oil

COCONUT PRODUCTS
Oleena (※/No P Required) – Coconut Flour
COFFEE, PACKAGED

- Brooklyn Roasting Company – Reg & Decaf Unflav Ground
- Brooklyn Coffee House – Reg & Decaf Unflav Ground
- Chef’s Quality – Reg Unflav Ground
- Chock Full O’ Nuts – Reg Unflav Ground
- Cosmopolitan – Reg Unflav Ground
- Daniels Blend – Reg & Decaf Unflav Ground
- Ellis – Reg & Decaf Unflav Ground
- Essential Everyday – Reg Unflav Ground
- Excellent Coffee – 100% Columbian, Excellent Blend
- European Coffee Classics – Reg Unflav Ground
- Folgers – Reg & Decaf Unflav Instant, Reg & Decaf Unflav Ground
- Great Value – Reg Unflav Ground
- Hena – Reg & Decaf Unflav Ground
- Hill Bros – Reg Unflav Ground
- Kirkland Signature – Reg Unflav Ground
- Maxwell House – Reg Unflav Ground
- Nature’s Promise – Reg Unflav Ground
- Nescafe Taster’s Choice – Reg Unflavored Instant including House Blend & French Roast
- Parker House/Pinnacle – Reg & Decaf Unflav Ground
- Price Chopper – Reg Unflav Ground
- Shoprite – Reg Unflav Ground
- Trader Joe’s – Reg Unflav Ground
- Viaggio Espresso – Reg & Decaf Unflav Ground
- Wegmans – Reg Unflav Ground
- Weis – Reg Unflav Ground
- White House/Pinnacle – Reg & Decaf Unflav Ground

CONTACT LENS SOLUTION

Any may be used

CRAYOLA

All Crayola products are chometz-free with the EXCEPTION of Crayola Dough, Glitter Dots, and Easy Peel Crayon Pencils (which contain wheat and should be sold with the chometz). Silly Putty is fine.

DENTAL FLOSS/PRE-THREADED

Any unflavored (waxed or unwaxed) may be used.

DENTAL FLOSS/PICKS

Any unflavored (waxed or unwaxed) may be used. Note: Unflavored dental floss picks are more readily available online than in stores.

DEODORANTS/ANTIPERSPIRANTS

All that are applied in powder form may be used. This includes a solid stick powder.

DETERGENTS, CLEANSERS

The following may be used without any add’l Passover symbol:

- Ajax
- Amway when dist. in N. America (STAR-K KFP Certified/No Symbol Required)
- Bus. to Bus. Heavy Duty Degreaser
- Bus. to Bus. Multi-Surface Cleaner
- Pursue Disinfectant Cleaner
- Clorox
- Essential Everyday
- Fantastik
- Lysol
- Melaleuca (※/Chometz Free)
- Tough & Tender Concentrate
- Tub & Tile Bathroom Cleaner
- Mr. Clean
- Murphy’s
- Pine-Sol
- Seventh Generation
- Shaklee (※/No P Required)
- Basic H® Conc. Organic Clnr
- Get Clean Scour Off® Heavy Duty Paste
- Soft Scrub
- Trader Joe’s
- Up & Up
- Wegmans
- Windex
DETERGENTS, DISHWASHING
The following may be used without any add’l Passover symbol:
Ajax
Cascade
Dawn
Ivory
Joy
Palmolive – Reg, Ultra
Seventh Generation
Trader Joe’s
Up & Up
Wegmans

DETERGENTS, LAUNDRY – POWDER
Any with reliable kosher certification may be used on Passover.

DETERGENTS, LAUNDRY – LIQUID/PODS
The following may be used without any add’l Passover symbol:
Arm & Hammer
Cheer
Dreft
Dynamo
Era
Gain
Tide

EGGS
Should be purchased before Passover. Since chicken feed may contain chometz, it is customary not to eat eggs that were laid on Passover.

EYEDROPS
Any may be used.

FACE POWDER
Any may be used.

FLAX SEED
Approved for Passover when purchased in whole grain form with no additives. Purchase from manufacturers that do not process chometz grains. Consumers are required to carefully check grains BEFORE PESACH for extraneous matter.

FISH PRODUCTS
Warbucks (☆/No P Required)
Kosher Bowfin Caviar

FRUIT, DRIED
See also Raisins. (Note: All dates & figs require checking for insects. See Bug Checking Chart at star-k.org/passover for details.) The following are certified by STAR-K with no additional Passover symbol required:
Baraka (☆/No P Required)
Apricots
Delizia (☆/No P Required)
Apricots
Empire (☆/No P Required)
Apricots
Family Tree (☆/No P Required)
Dates
Galil (☆/No P Required)
Apricots, Whole
Figs, Whole
Gourmanoff (☆/No P Required)
Dates
Great Lakes (☆/No P Required)
Apricots, Whole
Happy Apricots (☆/No P Required)
Apricots, Whole
Organic Apricots, Whole
Mani’s (☆/No P Required)
Dates
Murka (☆/No P Required)
Apricots, Whole
Figs, Whole
Natural Food Source (☆/No P Required)
Apricots, Whole
Sed Oasis (☆/No P Required)
Dates
Smart Choice (☆/No P Required)
Apricots, Whole
Figs, Whole
Smart Harvest (☆/No P Required)
Apricots, Whole
Soleil (☆/No P Required)
Dates
Sunny Fruit (☆/No P Required)
Apricots, Whole
Figs, Whole
Sunrose (☆/No P Required)
Apricots, Whole
Figs, Whole
Sunsational Fruits (☆/No P Required)
Apricots, Whole
Figs, Whole
FRUIT, FRESH PRE-CUT
The following STAR-K companies make a variety of fresh fruit products which may be used for Passover without additional symbol required:
Lancaster Foods (☆/No P Required)
Nature’s Promise (☆/No P Required)

FRUIT, FROZEN
Frozen unsweetened additive-free (without syrup, citric acid, ascorbic acid, or vitamin C), whole, sliced or formed fruit may be used. The above applies to frozen fruits that do not have an issue with insect infestation, such as sliced peaches, melon balls and cranberries. No additional Passover symbol is required. However, frozen fruit that may be infested (e.g., strawberries) may only be used year-round, including Pesach, when bearing an approved Kashrus symbol.

GLOVES, RUBBER (LATEX)
All without inner powder coating may be used. If label is not marked, turn glove inside out and rub on dark clothing. Check for powder. If it contains powder, do not use near food. Hospital disposable gloves may contain oatmeal as stated on the label and, if so, should be sold and put away with the chometz.

GLUE
Elmer’s glue is chometz free and may be used on Pesach. Note: Elmer’s Finger Paints contain chometz.

HAND SANITIZER
Due to coronavirus concerns, this year any may be used. Should be purchased before Pesach.

HEMP SEED
Approved for Passover when purchased in whole grain form with no additives. Purchase from manufacturers that do not process chometz grains. Consumers are required to carefully check grains BEFORE PESACH for extraneous matter.

HYDROGEN PEROXIDE
Any may be used

ICE
All plain–water bagged ice may be used.

INSECT/RODENT TRAPS
Baits may contain chometz and should be put away with the chometz. All insecticide sprays may be used.

JUICES, FROZEN
Any 100% pure white grapefruit or orange frozen juices without sweeteners, additives, preservatives or enrichments (e.g., calcium) added may be used. All other frozen juice products require reliable KFP certification.

JUICES, LEMON
ReaLemon Lemon Juice (No P Required)

JUICES, LIME
ReaLime Lime Juice (No P Required)

MEAT, RAW (BEEF, LAMB, VEAL), PACKAGED
All packaged raw meat products should be used with Passover approval from a reliable certifying agency. Note: Ground beef is not always KFP; check with certifying agency
The following raw meats are certified by Star-K:
RETAIL: (☆/No P Required)
Grow and Behold Foods
Holy Wagyu
Kol Foods
Leafy Creek Farms
Marble and Grain
Prairie Street Prime

WHOLESALE: (☆/No P Required)
Black Hill Farms
Glatt Ranch
Grow and Behold Foods
Kosher Mehadrin
M&D Glatt
Marble And Grain

The following raw meats are approved by Star-K without additional Passover symbol:
Alle/Meal Mart
Solomon’s

MILK
In areas where Kosher for Passover milk is not available, milk should be purchased BEFORE Passover.
MINERAL OIL
Any may be used

NAIL POLISH
Any may be used

NAIL POLISH REMOVER
Any may be used

NUTS
Raw, whether they are slivered, whole or chopped nuts (e.g., almonds, pine nuts, walnuts, etc.) without preservatives or other additives, such as BHT or BHA in corn oil, are approved for Passover. If label states that it is processed in a plant that processes kitniyos or chometz, then it requires a reliable KFP certification.

The following processed nuts require KFP certification:
- Dry roasted, toasted, blanched, and ground.
- Whole and half pecans are similar to any raw nuts mentioned above; however, pecan pieces and midget pecans must bear a KFP symbol.
- Many consider peanuts as kitniyos, which are not permissible on Pesach.

Cascade (☆/No P Required) Hazelnuts
Lampman Pecans (☆/No P Required) Pecans, Shelled
Poindexter Nut (☆/No P Required) Walnuts
Smart Harvest (☆/No P Required) Hazelnuts

Paper Napkins - All
Paper Towel Rolls –
  Any brand may be used in the following manner: The first three sheets and the last sheet attached to the cardboard should not come into direct contact with food, since a corn starch based glue may be used. (If using rolls of half-sized sheets, this rule applies to the first four and the last two sheets.) The rest of the roll may be used with hot or cold foods.
Plastic Wraps - All
Plates, Plastic Coated Paper – For cold use only.
(Note that paper plates may not be used at all unless they have KFP certification.)
Plates, Plastic - All
Styrofoam Plates & Cups –
   The problems associated with styrofoam are not a Pesach issue. They may contain ingredients that are non–kosher; however, they are free of chometz. Those who use styrofoam year–round may use it on Pesach.
Tablecloths –
   All clear plastic, non–powdered may be used.
   Ensure that the plastics (even when using “pre–cut” tablecloths) are not attached to avoid halachic issues related to Shabbos & Yom Tov.

POLISH, FURNITURE
All may be used. The following product is certified for Passover by STAR–K without any additional Passover symbol:
Melaleuca (✓/Chometz Free)
   Rustic Touch, Orange Scent

POLISH, SHOE
Any may be used

POLISH, SILVER/METAL
The following brands may be used without any additional Passover symbol:
Goddard’s
Hagerty
Weiman
Wright’s

PULTRY, RAW PACKAGED
All packaged raw chicken products should be used with Passover approval from a reliable certifying agency.
The following are certified by STAR–K: (✓/No P Required)
   Isaac’s Pride
   Kol Foods
   Premier Poultry
   Quality Poultry
   Wise Organic Pastures

The following raw poultry products (excluding ground) are approved by STAR–K without additional Passover symbol:
   Birdsboro
   Empire
   KJ Poultry
   Marvid

RAISINS
The following raisins are approved for use on Pesach, provided that “oil” does not appear in the ingredient panel:
   Dole (No P Required)
   Essential Everyday (No P Required)
   Great Value (No P Required)
   Southern Grove (No P Required)
   Sun Valley (No P Required)
   Trader Joe’s (No P Required)
   Wegmans (No P Required)
   Weis (No P Required)
RUBBING ALCOHOL (AS ISOPROPYL ALCOHOL)
Any may be used for external use.

SALT
All brands of non–iodized salt that do not contain dextrose or polysorbates may be used. Even if it contains magnesium carbonate or sodium silicate it is fine to use on Pesach. The following are certified by STAR-K:

H-E-B (✓/No P Required)
Sea Salt (Coarse, Fine)
Natural Nectar (✓/No P Required)
Sea Salt (Coarse, Fine)
Natural Tides (✓/No P Required)
Sea Salt (Coarse, Fine)
Whole Foods (✓/No P Required)
Sea Salt

SCOURING PADS/SPONGES
Any without soap may be used.

SELTZER
Any unflavored seltzer that does not list any citrates as an ingredient may be used. All flavored seltzer requires KFP certification.

SUGAR, GRANULATED
All pure cane or beet sugar with no dextrose added may be used.

SUSHI NORI SHEETS
Sweet City (✓/No P Required)
Sushi Metsuyan (✓/No P Required)

TEA BAGS, REGULAR
The following brands of regular tea bags may be used without any additional Passover symbol.
America’s Choice
Key Food
Lipton
Newman’s Own Organics
Restaurant Pride
Royal Club
Stop & Shop
Swee-Touch-Nee
Tetley

TEA BAGS, DECAFFEINATED
The following brand of decaf unflavored tea bags may be used without any additional Passover symbol:
Lipton

TOOTHPICKS
Any unflavored may be used.

VEG./CARROTS, FRESH PEELED
Fresh peeled carrots that are whole, cut or shredded require KFP certification. The following are certified for Passover by STAR-K:
Lancaster Foods (✓/No P Required)

VEG./OTHER, FRESH PEELED
Healthier Way (✓/No P Required)
Butternut Squash, Diced
Butternut Squash, Veggies Noodles (Reg, Organic)

DETERGENTS, LAUNDRY - Liquid/Pods
The following may be used without any add’l Passover symbol:
Arm & Hammer
Cheer
Dreft
Dynamo
Era
Gain
Tide

EGGS
Should be purchased before Passover. Since chicken feed may contain chometz, it is customary not to eat eggs that were laid on Passover.

EYEDROPS
Any may be used.

FACE POWDER - ALL

FINGER PAINTS
Some brands including Elmer’s contain wheat or oats and should be sold and put away with the chometz.

MINERAL OIL – ALL

NAIL POLISH – ALL
NAIL POLISH REMOVER - ALL

NUTS
Raw, whether they are slivered, whole or chopped nuts (e.g., almonds, pine nuts, walnuts, etc.) without preservatives or other additives, such as BHT or BHA in corn oil, are approved for Passover.

If label states that it is processed in a plant that processes kitniyos or chometz, then it requires a reliable KFP certification.

The following processed nuts require KFP certification: Dry roasted, toasted, blanched, and ground.

Whole and half pecans are similar to any raw nuts mentioned above; however, pecan pieces and midget pecans must bear a KFP symbol.

Many consider peanuts as kitniyos, which are not permissible on Pesach.

The following are certified for Passover by STAR-K:
21st Century (☆P Required)
Assorted Nuts
Cascade (∗/No P Required)
Hazelnuts
Lampman Pecans (∗/No P Required)
Pecans, Shelled
Smart Harvest (∗/No P Required)
Hazelnuts
Stahmann’s (∗/No P Required)
Pecans (Half, Whole)

</table>
**ORANGE JUICE** - Requires KFP Certification. Frozen Orange Juice: see Juices, Frozen

**ORTHODONTIC RUBBER BANDS** Rinse well with cold water before Pesach.

**OVEN CLEANER**
The following may be used without any Passover symbol:
- Easy Off
- Shaklee (★/No P Required)
  - Get Clean Scour off Heavy-Duty Paste

**PAPER/PLASTIC DISPOSABLES**
- Aluminum Foil Products –
  - All disposable foil products may be used.
- Bags, Paper – For cold use only
- Bags, Plastic – ALL
- Coffee Filters, Paper – ALL
- Crockpot Liners – ALL
- Cupcake Holders, Foil – ALL
- Cupcake Holders/Baking Cups, Paper – Requires KFP certification
  - The following are certified by STAR-K:
    - Paperchef (★/No P Required)
      - If You Care (★P Required)
- Cups, Waxed Paper – For cold use only
- Cups, Plastic Coated Paper – For cold use only
- Cutlery, Plastic – ALL
- Paper Napkins – ALL
- Paper Towel Rolls –
  - Any brand may be used in the following manner: The first three sheets and the last sheet attached to the cardboard should not come into direct contact with food, since a corn starch based glue may be used. (If using rolls of half-sized sheets, this rule applies to the first four and the last two sheets.) The rest of the roll may be used with hot or cold foods.
  - Plastic Wraps – All
  - Plates, Paper – Requires KFP Certification.
  - Plates, Plastic Coated Paper – For cold use only
  - Plates, Plastic – All
  - Styrofoam Plates & Cups –
    - The problems associated with styrofoam are not a Pesach issue. They may contain ingredients that are non-kosher; however, they are free of chometz. Those who use styrofoam year-round may use it on Pesach.

**TABLECLOTHS**
- All clear plastic, non-powdered may be used. Ensure that the plastics (even when using “pre-cut” tablecloths) are not attached to avoid halachic issues related to Shabbos & Yom Tov.

**PARCHMENT PAPER/PANLINERS**
- 365 by Whole Foods (★/No P Required)
- Amber Paper (★/No P Required)
- Bunzl Primesource (★/No P Required)
- Brown Paper Goods (★/No P Required)

Passover Pizza Bagels (non-gebrokts)
Passover Onion Bagels (non-gebrokts)
Passover Pizza Squares (non-gebrokts)
Unger’s (★P Required)
Potato Kugel & Latke Batter

QUINOA
Quinoa is Kosher /Pesach and is not related to the five types of chometz grains, millet or rice. However, because there is a possibility that quinoa grows in proximity to chometz grains and may be processed in facilities that compromise its Kosher for Passover status, quinoa should be accepted only with a reliable Kosher for Passover approval. In addition, there have been infestation issues in many brands of quinoa. We recommend quinoa be checked prior to use. See instructions on page 67.

The following is certified by the STAR-K:
Natural Earth (★P Required)
See www.star-k.org/quinoa for more information.

RAISINS
The following raisins are approved for use on Pesach, provided that “oil” does not appear in the ingredient panel:
Dole (No ★ Required)
Essential Everyday (No ★ Required)
Great Value (No ★ Required)
Southern Grove (No ★ Required)
Sun Valley Raisins (No ★ Required)
Trader Joe’s (No ★ Required)
Wegmans (No ★ Required)
Weis (No ★ Required)

RICE MILK
Rice milk is kitniyos and may possibly contain chometz. Under normal circumstances, one may not consume it on Pesach. If someone is ill and requires this product, see page 39.
RUBBING ALCOHOL (as Isopropyl Alcohol)- Any may be used for external use.

SALADS – See Veg./Salads, Fresh Pkgd.

SALT
All brands of non-iodized salt that do not contain dextrose or polysorbates may be used. Even if it contains magnesium carbonate or sodium silicate it is fine to use on Pesach. The following are certified by STAR-K:
- H-E-B (★/No P Required)
- Natural Nectar (★/No P Required)
- Natural Tides (★/No P Required)
- Whole Foods (★/No P Required)

SAUCES/DIPS
Unger’s (★ P Required)
- BBQ Sauce
- Chicken Sauce
- Duck Sauce
- Rib Sauce
- Salsa Sauce
- Tomato Sauce

SCOURING PADS/SPONGES
Any without soap may be used.

SELTZER
Any unflavored seltzer that does not list any citrates as an ingredient may be used. All flavored seltzer requires KFP certification.

SILVER/METAL POLISH – See Polish

SODA
Coca Cola Classic P Required
("OU P" on bottle cap)
- Classic Coke
- Diet Coke

Pepsi P Required
("KP" on bottle cap)
- Pepsi Cola (regular) - 2 Liter
- Diet Pepsi – 2 Liter

SOY MILK
Soy Milk is made from kitniyos and may possibly contain chometz. Under normal circumstances, one may not consume it on Pesach. If someone is ill and requires this product, see page 39.

SPICES & SEASONINGS
Pure spices, spice blends and seasonings require reliable KFP certification.

SUGAR, GRANULATED
All pure cane or beet sugar with no dextrose added may be used.

SUGAR, BROWN/OTHER
Brown sugar, confectioners sugar, and vanilla sugar require KFP certification.

SUGAR, SUBSTITUTE
Bakol Natural Foods Xylitol (P Required)
Gegen Harmony Sweetener (P Required)
Lieber’s Sweetees (P Required)
Paskesz Sweetie (P Required)

SUSHI NORI SHEETS
Natural Earth (★ P Required)
Sweet City (★/No P Required)
Sushi Metsuyan (★/No P Required)

TEA BAGS, REGULAR
The following brands of regular tea bags may be used without any additional Passover symbol.
- America’s Choice
- Key Food
- Lipton
- Newman’s Own Organics
- Restaurant Pride
- Royal Club
- Stop & Shop
- Swee-Touch-Nee
- Tetley

TEA BAGS, DECAFFEINATED
The following brand of decaf unflavored tea bags may be used without any additional Passover symbol:
- Lipton

Note: All herbal, flavored or decaffeinated tea bags require KFP symbol, unless otherwise indicated.
TOMATOES, SUNDRIED - VEG./SALADS, FRESH PKGD

**TOMATOES, SUNDRIED**
Great Lakes (>*</P Required)
   Sundried Tomatoes

</table>
The following information has been provided to us by the OU. The product brands listed below are not certified Kosher for Passover. Nonetheless, the OU has identified that these products are halachically acceptable for infants, the elderly, and those who are ill.

**PLEASE NOTE THE FOLLOWING POINTS:**
- Many of the products contain kitniyos, some as the primary ingredient.
- Some of the products may contain minor ingredients that are possibly, though unlikely, produced from chometz-based raw materials. All such ingredients are used at a less than 1:60 ratio.
- Liquid versions of these products are preferable to their powdered counterparts.
- Products that contain flavors should be provided only when no unflavored alternative exists.
- Products should be purchased before Passover and segregated from Kosher for Passover foods.
- A few – not all – of the Ensure, Glucerna, Pediasure and Jevity products contain oat fiber; the OU has determined that the fiber is not chometz, and the products are permitted to be consumed on Passover.

MILK SUBSTITUTES

1. Only in shelf stable non-refrigerated containers
2. Ideally purchased before Pesach
3. May be used only under the following conditions:
   - person is ill or has dietary restrictions
   - separate utensils are used

Almond Breeze Original
Rice Dream Classic Original
Soy Dream Original Enriched

BABY FOOD OPTIONS

The following is certified for Pesach:
First Choice Baby Food (only when bearing an OU-P) - Applesauce, Carrots, Pear, Sweet Potato

Non-KFP baby food and baby cereal sold year-round may not be used on Passover. This includes rice cereal and jars of fruits and vegetables, because they may be produced on chometz equipment.

The following are additional kitniyos options for your baby. Please note that kitniyos foods are permissible for a baby, if necessary (see page 128). These foods must not be prepared or cooked on Kosher for Passover utensils. Keep segregated and serve with disposables.

Recipe for Homemade Baby Rice Cereal:

- Purchase rice - Use STAR-S certified Kitniyot/no P required rice as listed on page 33.
- Boil 1 cup checked rice (as above) in 2 cups water & cook for 20 minutes, in separate pot used only for kitniyos.
- For thicker consistency, strain or blend the cooked rice (with separate utensils used only for kitniyos).
- Add one scoop (1 tablespoon) Kosher for Passover vanilla sugar. Mash by hand.
### 2022 Quick-Pick Personal Care List

A Sample of Chometz-Free Personal Care Products Listed by Category.

For USA only under the brand names indicated, products may contain kitniyos.

Note: Rav Bess's "2022 Personal Care & Cosmetic List" is included in the complete STAR-K Pesach Guide available at bookstores.

At the time of printing, some major companies still had not responded. New information will be added to this list when received. Please check back at star-k.org/passover or the STAR-K App for updates.

AMWAY | MELALEUCA | SHAKLEE
2022 PET FOOD LIST

The following is a list of pet foods approved for Passover 2022 when produced in the U.S. Products with identical names from foreign countries may have different formulations, thus compromising their Passover status. Since formulas are subject to change, make sure to check all labels. There should be no chometz listed. A product listing both meat and dairy ingredients may not be used any time during the year. (See “Feeding Your Pet: Barking Up the Right Tree” at star-k.org/passover for more information)

CATS

Blue Freedom Grain Free Indoor (canned)—Chicken for Kittens, Chicken for Cats, Fish, Flaked Chicken in Tasty Gravy, Chicken for Mature Cats

Evanger’s: When bearing cRe Passover approval

Friskies (canned): Paté Chicken and Tuna Dinner, Paté Classic Seafood Entrée, Paté Turkey and Giblets, Paté Country Style Dinner, Paté Mariners Catch, Paté Salmon Dinner, Paté Poultry Platter, Paté Mixed Grill, Paté Liver and Chicken Dinner

Kirkland (Costco) (dry): Healthy Weight Indoor Adult, Maintenance Chicken & Rice, Natures Domain Salmon Meal & Sweet Potato

Merrick Grain Free Limited Ingredient Diet (canned): Real Chicken, Real Duck, Real Salmon, Real Turkey, Real Tuna

Merrick Purrfect Bistro Grain-Free (dry): Adult (Weight Control, Real Chicken and Sweet Potato), Healthy Kitten

Prescription Diet: a/d, d/d, venison & green pea, r/d, s/d, t/d, z/d

Wellness Core Grain-Free (dry): Adult, Indoor, Kitten, Original

Wellness Core Grain-Free Classic Paté (canned): Indoor, Kitten, Whitefish & Salmon & Herring

FISH

Fish food and vacation blocks often contain chometz. The following are acceptable: Pro Balance Vacation Feeder (3 days), Pro Balance Betta Vacation Feeder (7 Days), Zoo Med Laboratories Giant Plankton Banquet Block Feeder.

Note: Tetra Tropical Slow Release Feeders which were acceptable in the past have started including oatmeal in new formulations and should NOT be used.

Goldfish and tropical fish can be given the following items, provided they do not contain fillers: Tubular worms, frozen brine shrimp, and freeze dried worms.
DOGS

Blue Freedom Grain Free (canned): Chicken Recipe (Small Breed, Puppies), Grillers (Hearty Lamb, Hearty Chicken, Hearty Turkey)
Evangers: When bearing CRC Passover approval
Kirkland (Costco) Nature's Domain (dry): Salmon Meal and Sweet Potato, Turkey Meal and Sweet Potato, Organic Chicken & Pea, Puppy Chicken & Pea
Prescription Diet: a/d, d/d, h/d, s/d, u/d, r/d
Purina Pro Plan Grain-Free (canned): Adult Beef & Pea Entrée, Adult Chicken & Carrot Entrée, Adult Turkey, Duck & Quail Entree, Adult Beef & Venison Entrée
Wellness Core Grain Free (dry): Ocean, Original, Reduced Fat, Small Breed Original, Senior
Wellness Core Grain Free (canned): Beef & Venison & Lamb, Puppy, Turkey & Chicken Liver & Turkey Liver, Whitefish & Salmon & Herring
Wellness Core Grain Free Ninety Five Percent (canned): Beef with Carrots, Chicken with Broccoli, Turkey with Spinach

BIRDS
(Parrots, Parakeets, Cockatiels, Macaws)

STAR-K greatly appreciates the input of Dr. Aaron Weissberg z”l in developing the following guidelines:
Millet and sorghum as main diet.
- Peanuts, sunflower seeds, and safflower seeds can be given.
- Larger birds such as parrots can eat pure alfalfa pellets (make sure it is pure alfalfa since it is common to add grains) or dry dog food (see above for list).
- Smaller birds can also have pure alfalfa pellets; crush before feeding.
- Can supplement with cottage cheese, rice cakes (birds like to eat these), small pieces of lean meat, matzah, berries, eggs, canned baby fruits. All large food should be shredded before serving. These items should be given sparingly.
- For minerals, can have oyster shells (calcium) or mineral block.
- The greater the variety, the better.

REPTILES

Crested Gecko: Repashy Crested Gecko Meal Replacement Powder
Adult Bearded Dragons: Fluker’s Buffet Blend
TURTLES
Fluker’s Turtle Diet for Aquatic Turtles

HAMSTERS, GUINEA PIGS, GERBILS & RABBITS

- Best to feed pure alfalfa pellets. Make sure it is pure alfalfa since it is common to add grains. Dried alfalfa may also be given.
- Can supplement with mixture of cut-up fruits and vegetables – carrots, broccoli, apples, melon, kale, parsley, oranges, celery, dry corn, sunflower seeds, cabbage. Can also give some matzah. If not accustomed to these items, give sparingly.
- Guinea pigs especially will benefit from kale, parsley and oranges.
- Hamsters especially will benefit from apples.
- Pure Timothy hay is not chometz and may be used.
- Guinea pigs need Vitamin C added to diet.

ADVICE REGARDING WEANING PETS BEFORE PESACH

Mixes sold in stores often contain chometz. It is advisable for pet owners to slowly wean their pets off their regular chometz pet food diet. This is accomplished by mixing regular and Pesach food between one and two weeks prior to Pesach before switching completely to Pesach food. The ratio of regular and Pesach food should be changed slowly to get the animal used to the new diet. Check with your veterinarian before changing diet.

PET STORES IN BALTIMORE METROPOLITAN AREA WHERE CHOMETZ PET FOOD MAY BE PURCHASED AFTER PESACH

Petco
Petsmart
FAQS REGARDING PETS ON PESACH

Rabbi Zvi Goldberg, STAR-K Kashrus Administrator

Q. Are “grain-free” pet foods acceptable?
A. There are many “grain-free” dog and cat foods on the market. While we still recommend checking the ingredient panel on those foods, they are a good place to start your search for an appropriate food.

Q. Is it necessary to buy a new food bowl for your pet for Pesach?
A. No. However, the bowl used year-round should be thoroughly cleaned before Pesach.

Q. If I am going away for Pesach, what should I do with my fish?
A. Vacation blocks often contain chometz. One can purchase a block without chometz or use an automatic fish feeder and fill it with non-chometz food.

Q. During a Pesach visit to the zoo, may one purchase the animal feed?
A. No. This feed is often chometz and should not be purchased or fed to the animals during Pesach.

Q. Must pet food with chometz be put away and sold before Pesach?
A. Yes.

Q. Can kitniyos, such as rice and beans, be fed to animals on Pesach?
A. Yes.

Q. What are some common chometz ingredients in pet food?
A. Wheat (cracked, flour, germ, gluten, ground, groats, middlings, starch), barley (cracked, flour), oats (flour, groats, hulled), pasta, rye, and brewer’s dried yeast. Any questionable ingredient should be reviewed by a competent rabbinic authority.

Q. What are some common ingredients which may be kitniyos but are permitted in pet food?
A. 2, buckwheat, brewer’s rice, corn, grain sorghum (milo), millet, peanuts, peas, rice, sesame, soybeans, soy flour, and sunflower.

Q. Is pet food “with gravy” permitted?
A. Most often, gravy contains chometz. Read the ingredient panel carefully.

Q. Are the vitamins or minerals in pet food chometz?
A. They may be chometz, but are batel (nullified) due to the small amount added.
The following is a checklist reviewing items commonly found in the kitchen and how to prepare them for Pesach.

### HOW TO CLEAN/KASHER KITCHEN ITEMS FOR PESACH CHECKLIST

See also “Preparing/Kasher ing the Pesach Kitchen” on page 72

<table>
<thead>
<tr>
<th>UTENSIL</th>
<th>PREPARATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baby Bottle</td>
<td>Since it comes into contact with chometz (e.g., washed with dishes, boiled in chometz pot), new ones should be purchased.</td>
</tr>
<tr>
<td>Baby Formula</td>
<td>See page 39.</td>
</tr>
<tr>
<td>Baby High Chair</td>
<td>Clean thoroughly. Preferable to cover the tray with contact paper.</td>
</tr>
<tr>
<td>Blech</td>
<td>Should be replaced.</td>
</tr>
<tr>
<td>Blender/Food Processor</td>
<td>New or Pesachdig receptacle required (plus any part of unit that makes direct contact with food). Thoroughly clean appliance. The blade should be treated like any knife and should be kashered through hagola.</td>
</tr>
<tr>
<td>Can Opener</td>
<td>Difficult to clean properly. Should be put away with chometz dishes.</td>
</tr>
<tr>
<td>Candlesticks/Tray</td>
<td>Clean thoroughly. Should not be put under hot water in a Kosher l’Pesach sink.</td>
</tr>
<tr>
<td>Coffeemakers</td>
<td>Metal coffeemakers that have brewed only unflavored pure coffee. Clean thoroughly. Replace with new or Pesachdig glass carafe and new filters.</td>
</tr>
<tr>
<td></td>
<td>Metal coffeemakers that have brewed flavored coffee should be cleaned thoroughly. Do not use for 24 hours. Pour one cup of water into chamber. Water should be heated in unit and allowed to drip over the exposed metal base. Replace with new plastic filter holder, new filters, and a new or Pesachdig glass carafe. Plastic coffeemakers should not be kashered.</td>
</tr>
<tr>
<td>Colanders</td>
<td>Metal – Libun kal. Plastic – Do not use.</td>
</tr>
<tr>
<td>Dentures, Bite Plates, Braces</td>
<td>Clean thoroughly after one has finished eating chometz.</td>
</tr>
<tr>
<td>Dishwashers</td>
<td>Cannot be kashered</td>
</tr>
<tr>
<td>Electric Burner Drip Pans</td>
<td>Clean thoroughly</td>
</tr>
<tr>
<td>UTENSIL</td>
<td>PREPARATION</td>
</tr>
<tr>
<td>--------------------</td>
<td>------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Ice Cream Scooper</td>
<td>Hagola</td>
</tr>
<tr>
<td>Ice Cube Trays</td>
<td>See Refrigerator, Freezer</td>
</tr>
<tr>
<td>Instant Hot Devices</td>
<td>Instant hot devices and individual hot/cold water filters that are connected to the sink with a separate spigot should be kashered along with the sink. Instant hot devices should be turned on during kasherling of the instant hot spigot.</td>
</tr>
<tr>
<td>Keurig</td>
<td>A Keurig used year-round for only coffee (reg., decaf, and/or flavored – even without a hechsher) can be kashered for Pesach in the following manner: Clean the Keurig machine well and then replace the cup holder (many but not all, Keurig machines have a replaceable K-cup holder). After the clean-out, do not use the machine for 24 hours. After this time has elapsed, run a cycle of hot water to kasher the upper metal pin. If the machine processed a non-kosher product (e.g., chicken soup), it cannot be kashered for year-round use. If it processed real chometz products (e.g., oatmeal), it cannot be kashered for Pesach.</td>
</tr>
<tr>
<td>Light Box</td>
<td>Clean thoroughly</td>
</tr>
<tr>
<td>Metal Wine Goblets</td>
<td>Hagola</td>
</tr>
<tr>
<td>Metal Wine Trays</td>
<td>Hagola</td>
</tr>
<tr>
<td>Mixer</td>
<td>Do not use, even with new blades and bowls.</td>
</tr>
<tr>
<td>Pump Pot</td>
<td>If in contact with chometz (e.g., sponge) do not use; otherwise, it does not need kasherling.</td>
</tr>
<tr>
<td>Refrigerator, Freezer</td>
<td>Thoroughly clean. Lining shelves is not necessary. Ice cube trays (that are filled with water in the sink) should be put away with chometz dishes. Ice cube bins which catch the ice made in the freezer should be thoroughly cleaned and used as usual.</td>
</tr>
<tr>
<td>Rings, Finger</td>
<td>Iruy roschin</td>
</tr>
<tr>
<td>Rings, Napkin</td>
<td>Hagola</td>
</tr>
<tr>
<td>Sensi-Temp Burner</td>
<td>To kasher a Sensi-Temp burner for Pesach, remove the burner from the range top by lifting it up halfway to vertical and pulling it out. Clean it well and wait 24 hours. Once that time has elapsed, pour boiling water over the sensor, which is located in the middle of the burner. Insert the burner back into its socket by reversing the extraction steps. Turn the burner on to its maximum setting until it glows (about 2 minutes).</td>
</tr>
<tr>
<td>Smoothie Machine</td>
<td>See Blender</td>
</tr>
<tr>
<td>UTENSIL</td>
<td>PREPARATION</td>
</tr>
<tr>
<td>-------------------------</td>
<td>---------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Tables</td>
<td>A table upon which chometz is eaten during the year may be used on Pesach if it is covered with a waterproof covering (e.g., sheet of plastic). It is preferable to put either cardboard or a few layers of paper on the table under the plastic covering. Tablepads may be overturned and used.</td>
</tr>
<tr>
<td>Towels, Tablecloths, etc.</td>
<td>Those used during the year with chometz may be used during Pesach if they have been laundered with soap and hot water, even if the stains do not come out. The same applies to potholders, bibs, and aprons. Synthetic material, such as Rayon and Terylene that can only withstand a warm water cycle may be used during Pesach after they have gone through a washing with detergent, and only if there are no visible stains after they have been cleaned. Transparent tablecloths may be coated with a powder and should be rinsed off before use. Regarding other tablecloths, see Pesach Product Directory.</td>
</tr>
<tr>
<td>Vases</td>
<td>Those used on the table during the year may be used during Pesach if they are washed, both inside and out.</td>
</tr>
</tbody>
</table>
| Washing cup (used in kitchen) | Metal – *Hagola*  
Plastic – Put away with chometz dishes. |
| Water Pitchers          | Should be put away with chometz dishes.                                                                                                     |
| Water Filters, Metal    | A metal water filter that has been on consistently since the previous Pesach may be left on during the *kashering* of the spigot. If it was first attached sometime after Pesach, it should be removed and the spigot and filter should be *kasheret* separately. The filter may then be reattached and used during Pesach. |
| Water Filters, Plastic  | A plastic water filter that is connected to the faucet should be removed and thoroughly cleaned, including the outside and the coupling. The spigot should be *kasheret* with the filter removed. The filter may then be reattached and used during Pesach. |
| Water Coolers           | Cold water coolers should be cleaned thoroughly. The hot spigot on a water cooler should not be used if it came into contact with chometz during the year. |
**KASHERING SAFETY TIPS**

**Hagola: Dipping in Boiling Water**

*Hagola* is used for items such as silverware, pots, silver kiddush cups.
- Never stick your hands into a pot of boiling water.
- Never leave a pot of boiling water unattended.
- Never allow children near a pot of boiling water.
- Use extreme caution and proper safety gear if using a hot rock to kasher. For alternative methods, contact your rav or STAR-K.

**Iruy: Pouring Boiling Water**

*Iruy* is used for counters and sinks.
- One should not boil water in foil pans or other containers that are not specifically made for boiling water.
- Easiest and safest to use a tea kettle to pour water on each part of the surface.
- Be cautious about where the poured water will go once poured.
- Wear safe apparel, including waterproof apron and shoes.
- Use gloves that are heat-resistant and waterproof.

**Oven Kasher**

- Use gloves when handling oven cleaners or other caustic chemicals.
- Ensure area is properly ventilated.
- Keep chemicals out of reach of children.
- Don’t leave oven unattended during kashering, due to high temperatures.
- Never allow children to play near an oven that has been turned on.
- Do not use a blow torch unless you’re trained to do so.
- There is potential risk of fire during the self-clean process, especially if there is a build-up of grease on the bottom of the oven.
- If placing foil over the oven backsplash, do not cover the oven vent.
TEVILAS KEILIM GUIDELINES AND CHART

For more information, see “The Mitzvah of Tevilas Keilim” at star-k.org/passover.

- Utensil to be immersed must be completely clean and free of dirt, dust, rust, stickers, labels or glue. (Practical Tip: WD-40 is very effective in removing adhesive.)

- One wets his hands in the mikvah water, holds the vessel in the wet hand and says, “Baruch...asher kideshanu b’mitzvosav v’tzivanu al tevilas keili” (keilim for multiple utensils) and immerses the vessel(s).

- If one forgot to recite the bracha, the immersion is valid.

- The water of the mikvah must touch the entire vessel, both inside and out.

- The entire vessel must be under water at one time, but it does not have to be submerged for any prolonged period of time.

- If a vessel will be ruined if placed in a mikvah, a rabbinic authority should be consulted.

- It is advisable that after toveling an electric appliance that requires tevila, the appliance be thoroughly dried out for at least 48 hours before use (earlier use increases the chances of ruining the appliance).

- If a basket or net is used to hold small utensils, the basket should be immersed in the water, the utensils placed in the basket, and the basket swirled under the water so that the water will touch all areas of the utensils.

- The cover can be immersed separately if it is removable.

- A pocket knife should be immersed in its open position so that the water will touch all areas of the blade.

- Thermos bottle liners do not need to be removed before immersion.

- A narrow necked bottle should be immersed with the neck facing upwards, so that the inner surface of the bottle will fill completely with mikvah water.

- Care must be taken that no air is trapped in the submerged vessels.

- Anyone may tovel keilim, including a small child or non-Jew; however, a Jewish adult must be present to verify that the tevila took place. A bracha may be recited only if a Jew performs the immersion. Therefore, if many utensils are to be immersed with the help of a child or non-Jew, the owner should first immerse a few vessels with a bracha and then let the child or non-Jew take over.

- Utensils require tevila with a bracha when they come into direct contact with food during preparation or mealtime and are made from metal (e.g., aluminum, brass, copper, gold, iron, lead, silver, silverplated, and tin) or glass (including Pyrex, Duralex, and Corelle).

GUIDE TO SELLING CHOMETZ GAMUR/REAL CHOMETZ BEFORE PESACH

Rabbi Dovid Heber, STAR-K Kashrus Administrator

Although l’Halacha, any chometz may be sold before Pesach, there are pious individuals who do not sell “real” chometz, but rather give it away, burn it, or eat it before Pesach. How does one define chometz gamur, “real” chometz? A food for which there is an issur of bal yeira’eh u’bal yematzeh d’Oraysa (there is a Torah prohibition of ownership on Pesach) is “real” chometz. This includes all items that are chometz gamur, real chometz (bread, cake, cookies, pretzels, pasta, etc.). It should be noted that people who do not sell real chometz may purchase real chometz after Pesach from a Jewish owned store that sold their chometz.

Ta’aroves chometz, food consisting of chometz ingredients, where the chiyuv biur (obligation to burn) is only m’drabanan (rabbinic), or at least according to some opinions only m’drabanan, is not chometz gamur. In addition, safek chometz medications (i.e., one is unable to determine whether it is chometz) and non-edible items, as well as products processed on chometz equipment, are not considered to be chometz gamur. These products are sold before Pesach even by individuals who are stringent not to sell chometz gamur. Many individuals who do not sell chometz gamur will sell alcoholic beverages before Pesach. Each family should follow their own custom.

The following chart offers guidelines as to which products are considered ‘real’ chometz. ‘Chometz Gamur’ means it is ‘real’ chometz. Pious individuals customarily do not sell these products before Pesach. Rather, they either consume it, burn it, or give it away as a gift to a non-Jew before Pesach. ‘Not Chometz Gamur’ indicates the product is not ‘real’ chometz. Even pious individuals will generally sell such products to a non-Jew before Pesach. (Where indicated, some products may remain in one’s possession during Pesach, and a sale is not required.)

</table>
1. Some individuals sell this chometz, others do not. One should follow his family custom.

2a. Kedei achilas pras is the amount of time it takes to eat the volume of buttered bread equaling three to four eggs (approximately 2-4 minutes). For example, if one eats a bowl of Froot Loops cereal, he will eat a kezayis of chometz within 2-4 minutes. However, if one eats Cap ’N Crunch cereal he will not eat a kezayis of chometz fast enough since the amount of chometz in Cap ’N Crunch cereal is relatively minimal.

2b. Consumer boxes of Corn Flakes contain less than a kezayis of malt flavor. The same is true with other cereals that contain barley or malt extract. Industrial-sized boxes of Corn Flakes (e.g., for food service) likely contain more than a kezayis of malt flavor and would therefore be considered chometz gamur.

3. These products are not chometz. One may even retain possession on Pesach. Sale is not necessary (mutar behana’a b’Pesach). The product may not be eaten on Pesach.

4. These products are not chometz. One may even retain possession on Pesach. Sale is not necessary (mutar behana’a b’Pesach).

5. One may retain possession of these products on Pesach. Sale is not necessary. They may not be eaten on Pesach.

6. This applies to flour that is not an ingredient in a product (e.g., flour sold in bags). However, as an ingredient in a product it is usually chometz gamur.

7. This includes bourbon, rye, liquor, gin, scotch & whiskey (unless they are certified for Pesach or are known to be from non-chometz sources).

1. *Kitniyos Shenishtanu* even with KFP symbol.
2. Should be avoided on Pesach.
3. Unless bearing a reliable Passover certification.
4. Only acceptable when the certifying agency has documented that all chometz issues have been resolved. *Mishnah Berura* 453:13.
5. Those people who eat rice on Pesach should confirm their rice is *Kosher l’Pesach* and free of problematic additives. For more information, see www.star-s.org.
6. The bulbs, root, and greens of these items are not *kitniyos*; it is only the seeds that we avoid.
7. This ingredient can be sourced from chometz, *kitniyos*, or *Kosher l’Pesach* sources. It may not be used on Pesach unless it has approved certification. Even with a valid certificate, it may be *kitniyos shenishtanu*.
buying chometz after pesach chart

halachos regarding chometz she’avar olov haPesach

rabbi dovid heber, star-k kashrus administrator

the following chart offers guidelines for products that are chometz she’avar olov haPesach. “prohibited” next to a product indicates the product is subject to the halachos of chometz she’avar olov haPesach - the prohibition of consuming or deriving benefit from chometz that was owned by a Jew during Pesach. Therefore, after Pesach, one may not purchase such products from a Jewish owned store whose owner did not properly sell his chometz before Pesach. “Allowed” next to a product indicates the product is not subject to the halachos of chometz she’avar olov haPesach. These products may be purchased at any store after Pesach.

POST-PESACH BALTIMORE GIANT & SAFEWAY STORE INFORMATION

Due to issues regarding possible Jewish owned distributors, in general, it is commendable not to purchase *chometz* from Giant and Safeway stores until Sunday, May 22, 2022. However, A&L Foods, the distributor of kosher foods (to Giant and Safeway in Baltimore) sells their *chometz* through STAR-K and therefore the indicated items may be purchased immediately after Pesach.

- **Giant** - Consumers may purchase *chometz* immediately after Pesach from the following designated Kosher Food Sections: Dry, Frozen, & Refrigerated. Also, consumers may purchase fresh baked breads immediately after Pesach. It is commendable not to purchase chometz from other sections until May 22.

- **Safeway** - Consumers may purchase *chometz* immediately after Pesach from the following designated Kosher Food Sections: Dry, Frozen, & Refrigerated. Also, consumers may purchase fresh baked breads immediately after Pesach. It is commendable not to purchase chometz from other sections until May 22.

Furthermore, all fresh-baked breads and buns with reliable kosher certification are supplied by local vendors and are acceptable even at the stores below. Some examples are H&S, Arnold, Pepperidge Farm, and in-house store brands of sandwich bread, rye bread, and hot dog and hamburger buns.

We do not have information regarding these stores in other parts of the country.

These items should be purchased from companies that employ proper quality control and storage practices. Make sure they are properly sealed and stored in a cool, dry area. Improper storage can lead to infestation issues. No additional checking is required.

- Nuts
- Raisins

#### Rinse Well

1. Wash the produce under a direct stream of water. *
2. No further checking is necessary.

* For Celery Stalks: Wash while rubbing with your hand or a vegetable brush.

| Celery Stalks | Endive, Belgian | Grapes | Mushrooms, Button | Mushrooms, Portobello |

#### Visual Check & Thrip Cloth

Remove triangular side leaves and use the thrip cloth method on the tops.

**NOTE:** Many people find peeling asparagus completely like a carrot yields a tasty kosher result, with no further checking required.

| Asparagus |
**Thrip Cloth Method**

1. Wash produce well. *(Note: Use warm water for broccoli and cauliflower.)*
2. Prepare a basin with water and a non-bleach, non-toxic dishwashing detergent solution. The water should feel slippery.
3. Agitate the produce in the solution for 15 seconds. *(Note: For broccoli and cauliflower, soak for 30 seconds BEFORE agitating very vigorously in the water.)*
4. Remove the produce from the basin and shake off excess water over the basin.
5. Pour water through the thrip cloth.
6. Check the thrip cloth over a lightbox for any insects.
7. If insects are found, repeat steps 1-6. This can be done up to three times.
8. If insects are still found on the third try, the produce should not be used.

---

**Peel Properly**

Mites are being found in the crown and outer rind, as well as inside the blossom cups and crevices, if the pineapple is not peeled properly. The pineapple should be peeled until only yellow fruit is visible. The fruit and cutting board should be rinsed after peeling since the insects often crawl onto the cutting board. The crown and rind should not be used on decorative platters since the insects can migrate to other fruit.

---

**List of Vegetables**

- Basil
- Bok Choy
- Broccoli
- Cabbage, Green
- Cabbage, Red
- Cauliflower
- Chives
- Cilantro
- Collard Greens
- Dill
- Endive
- Escarole
- Kale
- Kohlrabi Leaves
- Lettuce
- Mint Leaves
- Mustard Leaves
- Oregano
- Parsley
- Rosemary
- Sage
- Spinach
- Watercress
Visual Check

Look for holes, webbing or insects inside the fruit. See our website for pictures and more detailed instructions. For Leeks and Scallions: Check inside tube and between leaves, as well as outside the tube for leaf-miner trails.

Remove Peel & Rinse

Mites can be found between the layers of the peel.

Soap Wash Only

Blueberries
Strawberries

1. Prepare a basin of detergent solution, using at least two tablespoons of detergent per gallon of water.
2. Agitate the berries in the solution for 10-15 seconds.
3. Let the berries soak for at least one minute in the solution.
4. Rinse off each berry.
5. Repeat steps 1-4 a second time.
6. For strawberries, cut off the tops with a little of the flesh. No further checking is required.
7. For blueberries, inspect samples for presence of scale insects that may be embedded on the outer layer of the berry. We do not recommend using organic, pick-your-own or wild-grown blueberries.

Note: Quinoa requires KFP certification due to concerns of being processed on chometz equipment.

Quinoa

1. Place quinoa in a strainer that won’t allow the quinoa to fall through (approx. 15-25 mesh)
2. Shake over white paper or lightbox for approx. 30 seconds
3. Inspect paper for insects (specifically booklice).

Not Recommended

Checking is not practical.

Artichokes
Blackberries
Brussel Sprouts
Edible Flowers
Goji Berries
Raspberries

Footnotes to “Common Pesach Foods and Their Brachos” Chart

1. A bracha acharona is recited when drinking at least a revi‘is (3.8 fl. oz.) within a 30 second span. If one drank more than 1.0 fl. oz. (kezayis according to some opinions) and less than 3.8 fl. oz. (and cannot drink more) even within a 30 second span, a bracha acharona is not recited. However, if one also requires an Al Hamichya or Al Ha‘eitz at this time, one can also include Al Hagefen. See Mishnah Berurah [M.B.] 208:82.

2. This depends on the percentage of grape juice. If there is a majority (rov) of grape juice (51%), recite Hagafen/Al Hagefen. However, if the mixture is rov water (or rov of another beverage, such as apple juice) the bracha depends on various factors. See Rama 202:1, M.B. & Biur Halacha. Consult a rav.

3. Nikkar means it is still noticeable. Typically, shredded coconut or grated potatoes are considered nikkar and the original bracha is retained. However, if finely ground or processed the original form is no longer nikkar and the bracha is changed to Shehakol. See M.B. 208:37-38.

4. Matzah brei is typically made from matzah that was broken into pieces less than a kezayis. The fact that they are reformed into a kezayis is irrelevant. The halacha is as follows: If the pieces of matzah were boiled in water (or submerged into a kli rishon), or the matzah is no longer nikkar (e.g., fried in oil with eggs), one recites Mezonos/Al Hamichya. If, however, the matzah meal was not boiled but only pan fried with no oil or butter, and the matzah is still nikkar, one recites Hamotzi/Birchas Hamazon. See Shulchan Aruch Orach Chaim [S.A. O.C.] 168:10 & M.B.

5. Egg matzah and matzah ashira may not be eaten on Pesach according to Ashkenazic practice, except by the sick or elderly who cannot eat regular matzah and require egg matzah. Consult your rav. Please note: Even the sick and elderly cannot fulfill the obligation to eat matzah at the Seder with these types of matzos. As noted in the chart, in general, the bracha rishona is Mezonos and the bracha acharona is Al Hamichya. However, if one is kovea seuda on it (e.g., as part of a full meal) recite Hamotzi and Birchas Hamazon. See Rama O.C. 562:4.

6. The bracha acharona on wine and grape juice produced in Israel ends with the words “v’al pri gafna” (instead of “v’al pri hagafen”). See Birkei Yosef O.C. 208:58.

7. We assume the pieces of matzah are still nikkar as matzah, or at least one piece of matzah remained a kezayis. See S.A. O.C. 168:10 & M.B.

8. We assume that the matzah rolls are made from matzah meal that was put into a kli rishon of water, or the ‘rolls’ do not have the texture of bread (i.e., no tzuras hapas). See S.A. O.C. 168:10 & M.B.

9. Quinoa may need to be checked for possible insect infestation. See star-k.org.

10. If matzah meal cake is eaten for dessert at the end of a meal that began with matzah/Hamotzi, no bracha is recited on the cake.

11. If potato starch cake (or any other Shehakol‘cake,’ e.g., made from almond flour) is eaten for dessert at the end of a meal that began with matzah/Hamotzi, a Shehakol is recited.
The Torah forbids discarding holy objects by throwing them into the trash. Some objects always have kedusha and must be placed in sheimos. Other objects gain kedusha once they are used for a mitzvah and need to be treated with special care. See the chart below to determine whether the object you have needs to be put into sheimos or not.

The following should be burned or wrapped in plastic and thrown in the trash:

- "S’chach"
- "Esrogim, Lulavim, Hadasim, and Aravos"
- Jewish Newspapers, Magazines, Novels, and Biographies which contain secular information.

The following can be thrown directly in the trash:

- "Yarmulke"
- Hebrew language books, newspapers, etc. that are completely secular

* The Sheimos or Divrei Torah may be cut away from the paper and buried if so desired.
**STAR-K CERTIFIED APPLIANCE COMPANIES**

For details regarding specific models and guidelines on how they may be used on Shabbos and Yom Tov, please visit our website, www.star-k.org, or call our office at 410.484.4110.

</tbody>
</table>
As the Yom Tov of Pesach nears, and the diligent balabusta begins to tackle the challenge of preparing the kitchen for Pesach, undoubtedly the light at the end of the tunnel is beginning to shine. Although moving into a separate Pesach home sounds very inviting, such luxuries are often not affordable and definitely not in the Pesach spirit. Among the basic mitzvos of the chag is the mitzvah of tashbisu se’or mibateichem, ridding one’s home and possessions of chometz. However, if we are to use kitchen equipment, utensils, or articles that can be found in our kitchen year-round, it may be insufficient to just clean them thoroughly. One is forbidden to use these items unless they have been especially prepared for Pesach. This preparation process is known as kashering.

The Torah instructs us that the proper kashering method used to rid a vessel of chometz is dependent upon the original method of food preparation through which chometz was absorbed into the vessel.

When possible, it is preferable for a person knowledgeable in the laws of kashering to be present during the kashering process. Khashering must be finished before the latest time to burn the chometz (see page 7). If kashering was not done before this time, consult your rav. For Khashering Safety Tips from Hatzalah, go to star-k.org/passover.

**Kashering Methods**

Kashering methods can be broadly grouped into one of the following categories:

<table>
<thead>
<tr>
<th>Method</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Libun Gamur</td>
<td>Heating metal to a glow</td>
</tr>
<tr>
<td>Libun Kal</td>
<td>Heating metal above the temperature that will burn paper</td>
</tr>
<tr>
<td>Hagola</td>
<td>Purging through immersion in hot water</td>
</tr>
<tr>
<td>Iruy Roschin</td>
<td>Purging through a hot water pour</td>
</tr>
<tr>
<td>Miluy V’Iruy</td>
<td>Soaking</td>
</tr>
</tbody>
</table>

It is important to note that where *libun kal* helps, certainly *libun gamur* is good; where *hagola* helps, surely *libun kal* is good; and where *iruy* helps, certainly *hagola* and *libun* help.
We will now discuss how to properly kasher or prepare kitchen appliances and cookware for Pesach using one of the above-described kashering methods.

**Kashering the Oven**

No part of the stove can be considered kashered for Pesach unless it is completely clean and free from any baked-on food or grease. This includes the oven, cooktop, and broiler.

**Conventional Oven**

In a conventional oven, whether gas or electric, an oven cleaner may be necessary to remove baked-on grease. Be sure to check hidden areas including corners, door edges, the area behind the flame burners, and the grooves of the rack shelves. If a caustic type of oven cleaner (such as Easy-Off) was used to clean the oven, and some stubborn spots remained after a second application with similar results, the remaining spots may be disregarded. Once the oven and racks have been cleaned, they may be kashered by **libun kal**. The requirement of **libun kal** is satisfied by turning the oven to broil, or the highest setting for 40 minutes. In a gas oven, the broil setting will allow the flame to burn continuously. In a conventional electric oven, the highest setting (550°F) kashers the oven. Only **libun kal** is required for the oven racks, since it is usual to cook food in a pan and not directly on the racks themselves.

**Self-Cleaning Oven**

In a self-cleaning oven, before using the self-clean cycle, one should clean the inside face of the oven door as well as the opposing outer rim of the oven outside the gasket, since these areas are not necessarily cleaned during the cycle. One should ensure that the gasket itself is clean on the area outside the oven seal. **(NOTE: The gasket is sensitive to abrasion.)** The self-cleaning cycle will then clean and kasher the oven simultaneously.

CAUTION: There is a potential risk of fire during the self-cleaning process, especially if there is a build-up of grease on the bottom of the oven. It is recommended that one apply Easy Off, made especially for self-clean ovens, to lift and remove the grease. The oven should not be left unattended while in the self-cleaning mode.

Most oven manufacturers instruct the consumer to remove the oven racks before self-cleaning so they will not discolor. However, one may self-clean the oven with the racks inside even though they might discolor. After the self-clean cycle, one should use a little oil on the side of the racks to easily slide them in and out of the oven. There are some manufacturers that also require removal of the racks before the self-clean cycle can start. In this case, one should take the racks out, clean them very well, and then put them in the oven at the highest temperature (usually 550°F) for 40 minutes. This procedure kashers the racks.
Some ovens come with a convection feature. This feature allows for more uniform heat distribution by using a fan to circulate the heat. If the convection oven has the self-cleaning feature it will be sufficient to also kasher the fan using the self-clean kashering method previously mentioned. If there is no self-cleaning feature, the entire oven including the fan while it is circulating, must be sprayed with a caustic cleaner and cleaned well. The oven should then be kashered by turning it on to the 550°F setting for forty minutes.

Please note that many ovens today have ‘Aqualift’ or ‘Steam Clean’ instead of a conventional self-cleaning feature. Neither ‘Aqualift’ nor ‘Steam Clean’ get hot enough to kasher the oven. Instead, use the Conventional Oven kashering method as described above.

**Oven Hoods and Exhaust Fans**

Hoods and exhaust fan filters should be cleaned and free of any food residue.

**Broiler and Broiler Pan**

The broiler pan cannot be kashered by merely turning on the gas or electricity. Since food is broiled or roasted directly on the pan, the pan must be heated to a glow in order to be used during Pesach. This can be done by the use of a blowtorch (but only by qualified and experienced individuals). It is recommended they do this in a darkened room to more easily observe when the metal is glowing. An alternative method is to replace the broiler pan.

The empty broiler cavity must then be kashered by cleaning and setting it to Broil for 40 minutes. If one does not intend to use the broiler, one may still use the oven even without kashering the broiler, provided that the broiler has been thoroughly cleaned.

Other inserts such as griddles, which come into direct contact with food, are treated the same as broiler pans. Therefore, they would also require application of direct heat until the surface glows red. Otherwise, the insert should be cleaned and not used during Pesach.

**Warming Drawers**

Warming drawers cannot be kashered because the heat setting does not reach high enough to constitute libun. The warming drawer should be cleaned, sealed, and not used during Pesach.

**Microwave Ovens**

When microwaves are used, they do not necessarily absorb chometz. The microwave should be tested to see if the walls become hot during use. To do this, one should cook an open potato in the microwave until it has been steaming for a few minutes. Immediately after the potato has been cooked, one should place his hand on the ceiling of the microwave to see if it has become too hot to touch. If one cannot hold his hand there for 15 seconds, we assume that the microwave has absorbed chometz. If this is the case, the microwave should be cleaned and
sealed for Pesach. If it has not absorbed chometz (i.e., one can hold his hand there for 15 seconds), the microwave itself needs only to be cleaned well.

It is recommended that one wait 24 hours before using the microwave on Pesach. The turntable should be replaced because it has come into contact with hot food and would not pass the hand test. One may replace the turntable with a ¼” Styrofoam board.

Microwave ovens that have a convection or browning feature must be kasher ed using the convection and/or browning mode. The kasher ing method used would be libun kal. The convection microwave should first be cleaned well. If the fan area cannot be properly cleaned, it should be sprayed with a caustic cleaner (e.g., Easy Off) while the fan is on, and rinsed off before kasher ing. One should then test the convection microwave to see if it reaches the required heat for libun kal by putting it on its highest setting for 40 minutes. A piece of paper should then be held against the interior wall to see if it gets singed.1 If the paper is singed, the convection microwave has been heated sufficiently for libun kal and can be considered kasher ed. Many models fail the test because their settings do not allow the microwave to become hot enough for kasher ing. If this is the case, the microwave should be cleaned, sealed, and not used during Pesach.

Kasher ing The Cooktop

Gas Cooktop

On a conventional gas range, the cast iron or metal grates upon which the pots rest may be inserted into the oven after they have been thoroughly cleaned. The grates can then be kasher ed simultaneously with the oven. (If kasher ing with a self-clean cycle, the grates do not need to be cleaned first. However, it is advisable to check with the manufacturer as to whether the grates would be able to withstand a self-clean cycle. Some grates have rubber feet that may be damaged by the heat of the oven or may damage the oven itself.) Note: The self-cleaning cycle may remove the paint finish if the grate is not manufactured to withstand the self-clean cycle.

The rest of the range (not glasstop) should be cleaned and covered with a double layer of heavy duty aluminum foil, which should remain on the range throughout Pesach.

Please Note: Extreme caution should be taken not to cover over the vent so as to allow the oven heat to escape. The drip pans should be thoroughly cleaned and need not be kasher ed. The burners do not require kasher ing or covering but should be cleaned.
Electric Cooktop

In a conventional electric cooktop, one is required to clean the burners well and then turn them on to a high heat setting until they are glowing hot. (This usually takes only several minutes.) The drip pans should be thoroughly cleaned and need not be *kasher*ed. The remaining cooktop areas should be cleaned and covered. The knobs with which the gas or electricity is turned on and off should be cleaned. No other process is necessary to *kasher* the knobs.

**PLEASE NOTE:** All ovens ventilate hot steam during cooking. In the past, the hot steam was ventilated through the back of the oven. Today, many ranges no longer ventilate in this manner. The oven steam is ventilated through one of the rear cooktop burners. During oven cooking, if the rear vented burner is turned off and covered by a pot or kettle, the hot steam will condense on the burner and utensils. This could create hot *zei‘a* (condensate) that can cause serious *kasbris* problems with the utensil if the food cooked in the oven is a meat product and the pot on the burner is dairy or *pareve*, or vice versa. Care should be exercised with the vented burner to keep it clear during oven cooking or baking.

**CAUTION:** When placing aluminum foil over the oven backsplash, be careful not to trap the heat coming from the oven vent between the foil and the backsplash; doing so may melt the backsplash if the oven vents through the back.

Sensi-Temp Burner

To *kasher* a Sensi-Temp burner for Pesach, remove the burner from the range top by lifting it up halfway to vertical and pulling it out. Clean it well and wait 24 hours. Once that time has elapsed, pour boiling water over the sensor, which is located in the middle of the burner. Insert the burner back into its socket by reversing the extraction steps. Turn the burner on to its maximum setting until it glows (about 2 minutes).

Electric Cooktop with Glass Surface

*Kasher*ing a glass-ceramic electric cooktop for Pesach use is a bit complex. To *kasher* the burner area, one should clean it well and turn on the elements until they glow. The burner area will then be considered Kosher for Passover. However, the remaining area that does not get hot is not *kasher*ed. The manufacturers do not suggest covering this area as one would a porcelain or stainless steel cooktop, as it may cause the glass to break. Real *kosherization* can be accomplished by holding a blowtorch over the glass until it is hot enough to singe a piece of newspaper upon contact with the glass. However, this may cause the glass to shatter and is not recommended.

As the area between the burners cannot practically be *kasher*ed, it would be wise to place a trivet on the open glass area so the pots can be transferred.

In order to use a large pot that extends beyond the designated cooking area, STAR-K recommends one of these solutions: (1) Use a cooktop mat specifically made for glass stovetops. (2) Place a metal disc approximately 1/8 of an inch
thick onto the burner area in order to raise the Passover pots above the rest of the glass surface. **(CAUTION:** This disc should not extend beyond the designated cooking area.) Or, (3) Use a stovetop heat diffuser made specifically for glass stovetops. Each of the above suggestions will help alleviate the concern of a pot boiling over, with the resulting trickle of hot liquid serving as a conduit from the Pesachdig pot to the non-Passover stovetop, posing a halachic concern.

**NOTE:** Caution should be taken to obtain devices that will not harm the surfaces. Cooking efficiency may be somewhat compromised when using these devices.

**Gas Cooktop with a Glass Surface**

For gas stovetops with a glass surface, one may kasher the grates by putting them into the oven with libun kal (550°F for 40 minutes). In most such models, the grates cover the entire top of the stove and there should be no problem adjusting pots on the stovetop. Food which falls through the grates and touches the glass surface should not be used.

For those models where the grates do not cover the entire cooktop surface it would be wise to place a trivet on the open glass area so that pots may be transferred. No food or pots may come into direct contact with the non-kashered glass surface.

Some gas cooktops have an electric warming area on the glasstop. In order to kasher this area, it would have to become red hot when turned on. Many of these warming areas do not become hot enough for kashering and may not be used on Pesach.

**Induction Cooktop**

Before kashering an induction cooktop, it must be thoroughly cleaned and then left unused for at least 24 hours. The cooktop then requires iruy roschin. (Refer to instructions below for kashering a stainless steel sink by using iruy roschin.)

**Note:** Induction cooktops are not permitted to be used on Shabbos and Yom Tov.

**Kashering Barbecue Grills**

**Note:** Kashering a grill can be dangerous and should only be performed by competent individuals.

A grill cannot be kasher by simply turning on the gas or electricity. Since food is roasted directly on the grill, it must be heated to a glow in order to be used. This can be done by sandwiching the grates between the charcoal briquettes and setting them on fire. An alternative method is to replace the grates of the grill. The part of the grill cavity which is level with the grate must also be kasher by heating it to a glow. This is due to the likelihood of food having touched that area during barbecuing. The empty gas grill cavity (and the hood) must be kasher by cleaning, closing the hood, and setting it to the highest setting for 40 minutes. In the case of a regular grill, the cavity should be filled with charcoal briquettes which should be set on fire.
Other inserts such as griddles, which come into direct contact with food, are treated the same as a grill and would, therefore, also require application of direct heat until the surface glows red. Otherwise, the insert should be cleaned and not used during Pesach. If the grill has side burners, they should be treated like cooktop grates, assuming no food has been placed directly on them. It is easier to determine that the metal has been brought to a glow in a darkened room.

**Kashering Metal Utensils**

Metal utensils (e.g., stainless steel/cast iron/aluminum serveware; silver/pewter bechers/Kiddush cups) that have been used for cooking, serving, eating, or washed with hot chometz may be *kasherad*. This may be done by cleaning the utensils thoroughly and waiting 24 hours before immersing them, one by one, into a *Kosher l’Pesach* pot of water heated to a rolling boil. A rolling boil should be maintained while the vessel is immersed.

**NOTE:** Follow these steps with care! The metal utensil or vessel should be submerged into the boiling water for about 15 seconds. The utensils undergoing the *kashering* process may not touch one another. In other words, if a set of flatware is being *kasherad* for Pesach, one cannot take all the knives, forks and spoons and put them into the boiling water together. Each of these items should be placed into the boiling water separately.

**KASHERING TIP:** Loosely tie the pieces of silverware to a string, leaving three inches between each piece, and immerse the string of silverware slowly, making sure the water keeps boiling.

The process is finalized by rinsing the *kasherad* items in cold water. If tongs are used to grip the utensil, the utensil will have to be immersed a second time with the tongs in a different position so that the boiling water will touch the initially gripped area. Unlike *tevilas keilim*, the entire utensil does not have to be immersed in the boiling water at once; it may be immersed in parts.

A non-*Kosher l’Pesach* pot may also be used, *l’Halacha*, for the purpose of *kashering* if it is clean and has not been used for 24 hours. However, it is customary to make the pot *Kosher l’Pesach* before using it for *kashering*. This is accomplished by cleaning the pot, both inside and out, and leaving it dormant for 24 hours. The pot should then be completely filled with water and brought to a rolling boil. Using a pair of tongs, one should throw a hot stone or brick into a pot that has been heated on another burner. The hot rock will cause the water to bubble more furiously and run over the top ridge of the pot on all sides at one time. (One should use caution, as the hot water may spray in all directions.) The *kashering* process is finalized by rinsing the pot in cold water. The pot may now be refilled, brought to a boil, and used to *kasher* the chometz utensils. It is a *minhag* to re-*kasher* the pot again after *kashering* if it is intended for Pesach use.

**EXTRA BONUS:** After this *kashering* process has taken place, the status of these newly *kasherad* utensils may be changed from *milchig* to *fleishig* or vice versa, or *pareve*. 
**Kashering / Preparing Kitchen Sinks for Use on Pesach**

Sinks are generally made from either stainless steel, granite composite, china, porcelain enamel, or man-made materials such as Corian.

**Stainless Steel Sinks**

Can be *kasherened* using *iruy roschin*, as follows: Clean the sink thoroughly. Hot water should not be used or poured in the sink for 24 hours prior to *kasherening*. It is recommended that the hot shut-off valve under the sink be turned off 24 hours before *kasherening*. The sink should be dry before *kasherening*. *Kasherening* is accomplished by pouring boiling hot water from a Pesach kettle/pot over every part of the stainless steel sink.

**TIP:** If a roasting pan is filled and heated, the pouring surface is much wider than a kettle spout. It is not sufficient to pour water on one spot and let it run down the sink. The poured water must touch every part of the sink, including the drain and the spout of the water faucet. It is likely that the *kasherening* kettle will need to be refilled a few times before *kasherening* can be completed. After *kasherening*, the sink should be rinsed with cold water. If hot water was accidentally used in the sink during the 24-hour dormant period, and there is not enough time before Pesach to leave the sink dormant for an additional 24 hours, a *shaila* should be asked.

**China Sinks**

These sinks cannot be *kasherened* and should be cleaned, not used for 24 hours, and completely lined with contact paper or foil. The dishes that are to be washed should not be placed directly into the sink. They must be washed in a Pesach dish pan which sits on a Pesach rack. It is necessary to have separate dish pans and racks for *milchig* and *fleishig* dishes.

**Porcelain, Corian or Granite Composite Sinks**

These sinks should also be considered similar to a china sink, since there is a controversy as to whether these materials can be *kasherened*. Granite composite is a material fashioned from granite and plastic. Many sinks that look like granite are actually granite composite.

**Countertops**

Silestone, Porcelain Enamel, Corian, Quartz, Plastic/Formica and Granite Composite countertops cannot be *kasherened*; they should be cleaned and covered. To place hot food and utensils on these countertops, cardboard or thick pads must be used to cover the counter. **Corian** is also a form of plastic that cannot be *kasherened*. Since the chometz penetrates only a thin layer of the counter, it can be sanded down to take off a layer of Corian (the thickness of a piece of paper) and is considered *Kosher l’Pesach*. However, only a qualified contractor should attempt this procedure.
Pure Granite (not granite composite), Marble, Stainless Steel, or Metal may be kashered through iruy roschin. Wood may also be kashered through iruy roschin if it has a smooth surface.

Iruy rochsin is accomplished by pouring boiling hot water over every part of the clean countertop. Actual water is needed to kasher, not steam. A steam machine may be used if it boils water and sprays it onto the countertops. However, if the steamer only produces steam and not actual boiling water, it can not be used to kasher, even if the steam is hotter than 212°F. STAR-K has tested many models of steamers available commercially and has found that almost all of them will only produce hot steam and not boiling water. One method of iruy rochsin is to spray or pour a small amount of hot water on the counter and then use a hot iron or heated cast iron plate on top of the water which will [re-]boil it on contact. However, this is dangerous and should only be performed by competent individuals.

**Kashering Glass Drinkware**

In pre-war Europe, where glass was expensive and hard to obtain, it was customary to kasher drinking glasses by immersing them in cold water for three periods of 24 hours. This is accomplished by submerging the glasses for one 24 hour period. The water should then be emptied, refilled and allowed to sit for another 24 hours. The procedure should be repeated a third time, for a total of 72 hours. This method of submerging cannot be used for Pyrex or glass that was used directly on the fire or in the oven. Arcoroc and Corelle should be treated similar to glass for kashering purposes.

In general, kashering glasses is recommended only in cases of difficulty. Wherever glasses are readily available for purchase, special glasses for Pesach are preferable.

For other items or questions, feel free to call or email the STAR-K Institute of Halacha at 410.484.4110 or halacha@star-k.org.

KASHERING FOR PESACH ACCORDING TO SEPHARDI MINHAGIM

Rabbi Emanuel Goldfeiz, Rav Hamachsir STAR-S

1. Utensils that are used during the year with chometz are forbidden to be used during Pesach without kashering them according to Halacha. From the time it is prohibited to eat chometz on Erev Pesach, it is forbidden to use the utensils without kashering them according to Halacha. The proper kashering method used to rid a vessel of chometz is dependent upon the original method of food preparation through which chometz was absorbed into the vessel.¹

2. We do not recite a bracha when kashering an item since it is a negative commandment not to consume the taste of non-kosher food.²

3. Sephardic custom is that the method of kashering depends upon the most common usage of the vessel. Therefore, it is sufficient to pour boiling hot water from a כלי ראשון on a hot plate after cleaning it to make sure there is no chometz on it.³

4. Utensils (such as cups) that were used year-round with cold chometz, even if they are made from earthenware or nylon, can be kashered by washing them well with cold water.⁴ Although the vessel may have come into contact with hot bread, as long as it was not used within the past 24 hours with hot chometz, it can be kashered.

5. Utensils made from wood, stone, bone, plastic or nylon can be kashered like metal vessels according to the method of their usage.⁵

6. Glassware needs to be washed well inside and out with cold water. Pyrex can be kashered in the same manner.⁶

7. A hot water urn needs to be kashered for Pesach, even though it was most often used for water and not chometz.⁷

8. The halachot of kashering are numerous and complex. Therefore, it is proper for a talmid chochom to oversee the process.⁸

UNDERSTANDING KITNIYOS - WHAT THEY ARE, WHAT THEY AREN’T

Rabbi Tzvi Rosen, STAR-K Kashrus Administrator

For the STAR-K Kitniyos Chart, go to page 60.

As is commonly known, the Torah prohibits chometz on Pesach, and the consequence of chometz consumption on Pesach is very severe. In order to distance us from the possibility of violating Torah precepts, Chazal with their supreme insight, instituted a minhag as a protective fence. The minhag to guard us from chometz violations is to refrain from consuming kitniyos on Pesach.

What are Kitniyos?

Kitniyos are popularly defined as legumes. But what are legumes? The Shulchan Aruch, Orach Chaim 453, defines kitniyos as those products that can be cooked and baked in a fashion similar to chometz grains, yet are not halachically considered in the same category as chometz. Some examples are rice, corn, peas, mustard seed, and all varieties of beans (i.e., kidney, lima, garbanzo, etc.). The Torah term for the using or fermentation of barley, rye, oats, wheat, and spelt is “chimutz;” the term given for of kitniyos is “sirchan.”

The Bais Yosef permits kitniyos on Pesach, while the Rama rules that kitniyos are forbidden. Hence, Sephardim consume kitniyos on Pesach while Ashkenazim follow the Rama’s psak, which does not permit the consumption of kitniyos on Pesach.

The root and greens of these vegetables are not kitniyos; Ashkenazim only avoid the seeds.

Reasons for Prohibition

Why are kitniyos forbidden for consumption on Pesach? The Mishnah Berurah enumerates a number of reasons. One reason is that there is a possibility that chometz grains could be mixed amongst the kitniyos grains, creating an inadvertent yet real chometz problem when the grains are cooked together. Another reason is that if kitniyos products would be permitted, confusion within the general public could result in mistaking permitted kitniyos flour and forbidden chometz flour. Although these might not be problems of epidemic proportions, the Rama considered them to be real enough to forbid the eating of kitniyos on Pesach. Sephardim check the kitniyos grains three times to make sure no chometz grains are intermixed within the kitniyos and then permit their use on Pesach.
The *kitniyos* restriction is not as all encompassing as *chometz*. One does not sell *kitniyos* as he would *chometz*. One may derive benefit from *kitniyos* and may use them for non-eating purposes, such as fuel for candle lighting and heating or pet food. It is important to note that in the case of medications, *kitniyos* restrictions are not applicable and pills that use corn starch as binders would be permissible for medication.

**Kitniyos Derivatives**

There is a question amongst poskim as to whether *kitniyos* derivatives, such as corn oil, would be considered part of the ban and, thus, forbidden. Maybe these derivatives could be considered a separate category, “*shemen kitniyos,*” exclusive of the *kitniyos* restriction. There are additional considerations linked to peanuts and peanut oil and whether peanuts are considered to be *kitniyos*. Subsequently, peanut oil would present less of a problem than other *kitniyos* oils. Due to this *sfek sfeika*, Rav Moshe Feinstein, zt”l, permitted the use of peanut oil on Pesach. Nevertheless, most reputable kashrus agencies (in the United States and Israel) do not permit the use of *shemen kitniyos* in their products, nor do they use peanut oil.

However, over the years, products bearing a Kosher for Passover certification have used *kitniyos*-derived ingredients in their Kosher for Passover products. A common example of a *kitniyos*-derived product is corn syrup. High fructose corn syrup is one of the leading versatile sweeteners in the food industry. It is produced through a conversion process whereby the white starch of the corn kernel is converted into sugar. This is typically accomplished by using hydrochloric acid and enzymes or hydrochloric acid alone, without the assistance of enzymes. In the corn sweetener industry, enzymes are a key component in the conversion process and are commonly derived from barley, which is *chometz*. Corn syrup converted by hydrochloric acid alone would not have this *chometz* issue.

What is of great halachic consequence is the halachic perception of these “corn converted” products. Since the final product is in liquid form, it was and still is considered to be *shemen kitniyos* by some authorities. Other poskim posit that there is an intrinsic difference between classical *shemen kitniyos* (i.e., oil that is pressed out of the kernel) and a liquid corn syrup converted from the actual starch. The liquid is not *shemen kitniyos*; it is actual *kitniyos*.

**Kitniyos Shenishtanu**

Today, food science has found multiple applications for products derived from *kitniyos*. These *kitniyos* conversions and fermentations have given rise to a new kashrus term, “*kitniyos shenishtanu*,” *kitniyos* that have been transformed into a new product. These converted food grade ingredients include citric acid and ascorbic acid (that have wide food applications), NutraSweet sweetener, MSG (a flavor agent in soups and spice blends), sodium citrate (found in processed
cheeses), sodium erythorbate (found in deli meats), and lactic acid that is used in olive production. These corn or soy-based ingredients go through a multi-stage conversion process until the final food grade material is produced.

There is a divergence of opinions amongst kashrus certification agencies as to whether we permit or forbid kitniyos shenishtanu.

What is the reasoning for those who permit kitniyos shenishtanu? Interestingly, the reasoning behind permitting kitniyos shenishtanu is based on a different halachic query regarding a serious kashrus concern as to whether or not a product extracted and converted from a non-kosher source could be considered kosher. The heter is based on the reasoning of the Chasam Sofer and the Chok Yaakov permitting the consumption of grape seed oil that was extracted from non-kosher grape seeds.¹

The Shulchan Aruch discusses the two criteria for permitting products derived from non-kosher grape seeds: tamdan, washing of the seeds, and yibush, drying of the seeds, to a point where the seeds are dry.² This is similar to the drying of the wine sediments on the side of the cask (Weinstein),³ the basic ingredient of cream of tartar.⁴ In grape seed oil productions, the seeds are washed and dried well to contain 6-8% moisture; a kernel of raw rice by comparison contains 11% moisture. This is critical in the extraction of grape seed oil because a wet seed becomes moldy and the oil cannot be extracted from a moist seed. The question remains: Does a seed that has originally been soaked in non-kosher wine prior to washing and drying qualify for kosher grape seed oil extraction?

The Shulchan Aruch clearly states that grape seeds are forbidden to be used within the first 12 months of their separation from the “must”. Furthermore, the Halacha states that the seeds need to be washed and free of any residual wine before the 12-month count can be successful. Also, does the drying of the seeds equal a 12-month waiting period? A question was raised regarding the wine sediment which is the main ingredient of cream of tartar. Does the drying of the wine lees, the wine sediment, qualify for the 12-month waiting period? Many halachic authorities maintain that it does and that the oil extracted from the clean, dry seed would be mutar.

Another opinion in favor of grape seed oil is that the oil bears no resemblance to the original grape seed in smell, taste, color or texture.⁵ The Chasam Sofer and the Chok Yaakov rule that since there is a complete transformation from grape

1. It is interesting to note that the shaila was raised by the gadol hador, Harav Aharon Leib Shteinman, zt”l, in Europe during WWII, where kosher oil was scarce and the only oil available was grape seed oil.
2. Y.D. 123:14
3. Referring to the crystals of potassium bitartrate resulting from the process of fermenting grape juice. Y.D. 123:16 (See Gilyon Maharsha ibid).
4. Y.D. 123:16
5. Piskei Teshuva (Y.D.) 123:20
seeds to oil the prohibition of disqualified grape seeds does not apply. This is based upon the ruling of Rabbeinu Yona, who maintained that a forbidden item that has undergone a complete transformation is permitted. The Chelkas Yaakov offers yet another reason to permit grape seed oil. Oil is contained inside the seed, and the wine is not converted into oil; therefore, it can be viewed as two separate entities.

The fundamental reasoning of the Chasam Sofer and the Chok Yaakov permitting the newly transformed grape seed oil provides the basis for permitting kitniyos shenishtanu.

The reasons for permitting kitniyos shenishtanu are very compelling. What are the counter arguments in favor of prohibiting kitniyos shenishtanu? When Rabbi Moshe Heinemann, shlit"a, Rabbinic Administrator of the STAR-K, discussed this issue with Rabbi Yosef Shalom Eliyashiv, zt"l, and Rabbi Shlomo Zalman Auerbach, zt"l, their position was to prohibit kitniyos shenishtanu as a Chumra d’Pischa, a strict adherence to the minhag of prohibiting kitniyos. For this reason, it is STAR-K policy not to certify products containing kitniyos shenishtanu.

Today, with the emergence of dynamic Sephardic communities and a heightened demand for kitniyot-based products, more and more of these types of products are appearing on the Kosher for Passover shelves. These products declare “l’ochlei kitniyot - Kosher for Passover for those who consume kitniyot on Passover”. The STAR-K has developed a KFP program for the Sephardic community and those products that may be consumed “l’ochlei kitniyot” bear a STAR-S P.

**Quinoa**

It was determined that quinoa is Kosher l’Pesach. It is not related to millet, rice or the chameishes minei dagan, five types of grain products. Quinoa is a member of the amaranth family. STAR-K tested quinoa to see if it would rise. The result was sirchan, as termed by Chazal, which means the quinoa decayed and did not rise. Furthermore, quinoa’s growth does not resemble kitniyos and, as cited in Igros Moshe O.C. (3:63), we do not consider additional products beyond what was originally established. However, recent investigations have found that there is a possibility that quinoa grows in proximity to certain grains and/or is processed in facilities that compromise Kosher for Passover status. Therefore, quinoa may be used on Pesach only with reliable Kosher for Passover approval.

KOSHER FOR PASSOVER FOODS ACCORDING TO SEPHARDI MINHAGIM

Rabbi Emanuel Goldfeiz, Rav Hamachshir STAR-S

1. Rice and all different types of legumes are permissible to eat on Pesach according to the custom of most Sephardim, as long as they are careful to check rice three times to ensure there is no wheat or barley mixed in.¹

2. Care needs to be taken that no dust of flour came into contact with the rice (or any kosher food for Pesach). Therefore, one may use only natural, unenriched rice for Pesach, ideally a rice with a reliable Kosher l'Pesach L'Ochlei Kitniyot hechsher.²

3. Those who refrain from eating legumes on Pesach are permitted to keep them at home; there is no need to sell legumes to a non-Jew.³

4. It is the Sephardic custom to use egg matzah (מעזרה מצה) during Pesach. This type of matzah cannot be used to fulfill the obligation of eating matzah on the first two nights of Pesach. The bracha recited on egg matzah is Mezonot.⁴

5. If one inadvertently cooked with a non-Pesach pot on Pesach, as long as 24 hours had passed from the time chometz was last cooked in it, bedi’eved, the food is permissible for Sephardim.⁵

6. Sephardim have no custom to be concerned regarding gebrokts.⁶

7. Sephardim only refrain from eating matzah on Erev Pesach. However, if one made a mistake and ate matzah on Erev Pesach, he needs to recite Birchat Hamazon. A person may eat matzah on the night of the fourteenth of Nisan.⁷

8. Even though a person may eat fruit, vegetables and rice on Erev Pesach, after the tenth hour of day he should not eat so much as to become full. It is forbidden to eat egg matzah after this time.⁸

⁸ משנה פסחים צט:, שו”ע סימן תעא
9. It is the custom among Sephardic communities for women to fulfill the mitzvah of reclining (הסיבה) at the Seder. However, if a woman did not recline while she ate or drank she has still fulfilled her obligation and it is not necessary for her to eat or drink again.\(^9\)

10. It is crucial to recline while fulfilling the mitzvot of drinking the four cups of wine and eating matzah. Therefore, a man who did not recline while drinking wine at the Seder must drink another cup while reclining. Nevertheless, if this person has health issues and it would cause him great hardship to drink more wine, he may refrain from doing so.\(^{10}\)
**BEDIKAS CHOMETZ GUIDELINES**

*Rabbi Mordechai Frankel, Director, The Institute of Halacha at STAR-K*

Before Pesach, a person is obligated to perform *bedikas chometz*, a search of his house and possessions, to ensure that he does not own any *chometz*. The *bedika* should be conducted at the beginning of the night of the 14th of Nissan, immediately after *tzeis hakochavim*.1 If he did not do so, the *bedika* can be done all night. *Bedi'eved*, if he did not perform the *bedika* that night he should do it on the day of the 14th of Nissan.2

If he will not be home on the night of the 14th of Nissan, he should appoint another adult to perform the *bedika* on his behalf.3 If he leaves his house within thirty days of Pesach, and is not planning to return and conduct a *bedika* or have someone else perform a *bedika* for him, then he should do *bedikas chometz* without reciting a *bracha* at night before he leaves.4

If he leaves his house more than thirty days beforehand (i.e., the 14th of Adar or earlier) and is not planning to return for Pesach, he does not need to perform *bedikas chometz* and may rely on the *bitul* that he recites on Erev Pesach at the time of *chometz* burning. However, he should remove or sell any known *chometz* in the house. If he plans to return home on Pesach and will not have someone else perform a *bedika* for him, he must perform *bedikas chometz* before he leaves.5

There is no need to check areas containing *chometz* which will be sold to a non-Jew before Pesach.6 If a person is home on the night of the 14th of Nissan but is planning to leave for the duration of Pesach, he may arrange to sell the *chometz* in all the rooms of his house - except one - to a non-Jew and check that room to fulfill the mitzvah of *bedikas chometz*.7 (If it is his custom not to sell *chometz gamur*, then he should make sure that there is no *chometz gamur* in the other rooms). If guests will be staying in the house during Pesach and will be using some of the rooms, those rooms must be checked for *chometz*.

---

1. M.B. 431:1. Also see Halichos Shlomo (Pesach 5:10) quoting Rav Shlomo Zalman Auerbach, zt”l.
2. S.A. 433:1 and M.B. 433:2
4. S.A. 436:1
6. See M.B. 436:32. Rav Shlomo Zalman Auerbach states that the prevalent custom is to be lenient (Halichos Shlomo Pesach page 101).
7. Similar to S.A. HaGra”z 433:7 who states that one may be bodek other rooms earlier and leave one room for *bedika* on the night of the 14th.
Guests who arrive before the night of the 14th of Nissan are obligated to check for chometz. If the owner of the house does not want them searching his house, he can perform a bedika on the house himself and leave one area for the guests to be bodek. People staying at a hotel for Pesach should perform a bedika on their room. If they arrive on the day of the 14th of Nissan, a bedika should be done at that time. A bracha is not recited over the bedika of a hotel room.8

One should not begin any melacha within half an hour before tzeis hakochavim on the night of bedikas chometz. He should not eat a beitza or more of bread, cake or cookies at that time; he may eat other food. He may learn Torah but should arrange for a shomer or set an alarm to ensure that he stops for bedikas chometz. At tzeis hakochavim, he should stop whatever he is doing, no longer eat any food, and conduct the bedika.9 He could daven Maariv before the bedika, although if he always davens at a specific later time he can perform the bedika first and daven at that time.10

When performing bedikas chometz, one should search his house for any edible crumbs of chometz.11 Mei’ikar hadin, it is not necessary to clean one’s house from small soiled particles of chometz which will not come into contact with food on Pesach.12 Nevertheless, many are stringent and attempt to rid their house of all chometz.13 It is not necessary to check books and sefarim for chometz, although those which will be brought to the table on Pesach should be cleaned to ensure that they do not contain crumbs which could fall into one’s food.14

---

8. Heard from Rav Moshe Heinemann, shlit’a, that since the room is cleaned before one’s arrival it could be argued that it is a mokom she’ein machnisin bo chometz. See also https://www.star-k.org/articles/kashrus-kurrents/105/the-travelers-halachic-guide-to-hotels

9. S.A. 331:2 and M.B. there.

10. See M.B. 331:8. The Chazon Ish and the Steipler Gaon checked after Maariv (Orchos Rabbeinu vol. 2 page 1). Similarly, Rav Moshe Feinstein, z’t’l, said that one should daven Maariv immediately after tzeis bakochavim and be bodek after that (Shmaitema De’Moshe – Shemuos Moshe 431:2).

11. The implication of S.H. 433:33 is that it is unnecessary to check for crumbs, as noted in Halichos Shlomo (Pesach page 103). However, the Chayei Odom 119:6 states the Chazal necessitated checking even for crumbs, due to the concern that one may come to eat them on Pesach. Rav Elyashiv, z’t’l, writes that the custom follows the Chayei Odom (Ashrei Ha’Ish O.C. vol. 3 page 358).

12. The M.B. 442:33 writes that, according to all opinions, soiled chometz (metunaf ketzas) which is smaller than a kezayis does not need to be disposed of. See also M.B. 444:15.

13. The Rosh (Pesachim 3:2) writes “Yisroel are kedoshim and scrub away even the smallest amount of chometz”. S.A. 442:6 mentions a custom to scrub the walls, and M.B. 442:28 writes that one should not mock this custom by arguing that it is an unnecessary stringency. Rav Elyashiv (Ashrei Ha’Ish O.C. vol. 3 page 355) writes that cracks and crevices that may contain chometz which cannot be cleaned should be splashed with material that will render the chometz inedible to even a dog.

14. The Maaseh Rav #178 states that the Gra would check his sefarim for chometz, and this is also the opinion of the Chazon Ish O.C. 116:18. Rav Elyashiv (Ashrei Ha’Ish O.C. vol. 3 page 355) writes that one is not obligated to check sefarim, although one should not place unchecked sefarim on the table on Pesach due to the concern that a crumb of chometz may fall into one’s food.
The *bedika* should be conducted by the light of a candle with a single wick.\(^{15}\) Some have the custom to turn off the house lights during the *bedika*;\(^{16}\) others leave them on, using both the house lights and a candle to conduct the search.\(^{17}\) The prevailing custom is for ten pieces of bread to be placed in different areas of the house before the *bedika*\(^{18}\) (although some do not have this *minhag*).\(^{19}\) Some people take care that each piece is smaller than a *kezayis*;\(^{20}\) and it is a good idea to wrap them up in order to ensure that no crumbs are left behind. The person conducting the *bedika* could position the pieces of bread, but it is customary for another member of the household to do so.\(^{21}\) One may use a flashlight to aid in the search.\(^{22}\)

For the purposes of this article, we will assume that the reader is familiar with the process of *bedikas chometz*. Among other areas, one should remember to check clothing pockets, handbags, strollers, car seats, children’s knapsacks, pet cages, fish tanks, pet and fish food, cars and garages. One should ensure that vacuum bags containing *chometz* are discarded and that garbage cans are cleaned. Areas which were thoroughly cleaned beforehand do not need to be scrutinized.

---

Rav Moshe Feinstein (*Shmaitea De’Moshe – Shemuos Moshe* 433:3) and Rav Shlomo Zalman Auerbach (*Halichos Shlomo Pesach* 5:6) ruled similarly.

16. The *sefer Bedikas Chometza U’biyuro* page 185 footnote 35 writes that this was the custom of the Brisker Rav. *Teshuvos Shevet HaLevi* 1:136 writes that he usually checked by the light of a candle only, but he switched on the house lights if it helped with the *bedika*.

17. This was the custom of the Steipler Gaon (*Orchos Rabeinu* vol. 2 page 2) and Rav Moshe Feinstein (*Shmaitea De’Moshe – Shemuos Moshe* 433:1). Rav Shlomo Zalman Auerbach (*Halichos Shlomo Pesach* page 110) also held that it is not necessary to turn off the house lights during the *bedika*. Similarly, Rav Elyashiv (*Ashrei Ha’Ish O.C.* vol. 3 page 361) held that it is unnecessary to turn off electric lights as they enhance the *bedika*, but he added that one should not change from the established custom to use a candle as well. See further *Hilchos Chag Be’chag*, Pesach page 79.

19. The Gra siman 442 paskens that it is not necessary to put out pieces of bread, and the *Chayei Odom* 119:22 similarly states that one does not need to concern oneself. S.H. 432:11 writes that according to the *Taz* it is better not to put out pieces of bread, as they may get lost. The Chazon Ish did not put out pieces of bread (*Orchos Rabbeinu* vol. 2 page 2), and neither did Rav Moshe Feinstein (*Shmaitea De’Moshe – Shemuos Moshe* 433:2).

20. *Shaarei Teshuva*, end of siman 432

21. The Steipler Gaon would place the pieces of bread himself (*Orchos Rabbeinu* vol. 2 page 2). Rav Elyashiv also did so (*Ashrei Ha’Ish O.C.* vol. 3 page 360). However, custom is that other members of the household place the pieces of bread, as indicated by the *Rama* 332:2 who states that the custom is to place the bread in various locations for the bodek to find. This also seems clear from the *Chok Yaakov* 332:14.

22. According to Rav Elyashiv (*Ashrei Ha’Ish* vol. 3 page 361) it is permitted to check with a thin flashlight that shines into cracks and crevices well, but one should ideally not change the custom to use a candle unless one is checking an area which is hard to examine with a candle. Rav Shlomo Zalman Auerbach (*Halichos Shlomo Pesach* page 110) and Rav Moshe Feinstein (*Shmaitea De’Moshe – Shemuos Moshe* 433:2) held similarly.
at the time of bedikas chometz. For example, clothing pockets which were
cleaned well and checked beforehand do not need to be rechecked during bedikas
chometz. However, the person conducting the bedika should inquire and verify
that all the pockets were, in fact, cleaned. One should remove or sell all chometz
at his workplace. If he owns the workplace, he should perform bedikas chometz,
preferably on the night of the 14th of Nissan.

One is not obligated to move a heavy piece of furniture to check behind it
for chometz. However, if it is known that chometz is present it is customary
to remove it if possible. One is not obligated to check areas of the house into
which chometz is never brought. However, those areas do need to be checked if
children live in the house and could reach them.

One should not speak between the bracha and the beginning of the bedika.
During the bedika, one should only speak about things related to the search. If
one did speak about non-related matters after starting the bedika he does not
repeat the bracha. If he goes to the bathroom during the bedika, he may recite
Asher Yatzar. At the conclusion of the bedika, Kol Chamira should be recited.

23. See Aishel Avraham of Butchatch 434:1 and Maharsham in Daas Torah 433:2.
24. According to the Chazon Ish, if one has checked pockets well for Pesach and was careful not to
put any chometz into them after that, they can be considered a mokom she'ein machnisim bo chometz
(Orchos Rabbeinu vol. 2 page 5).
25. According to Rav Shlomo Zalman Auerbach (Halichos Shlomo Pesach 5:1), the obligation to
check for chometz on the night of the 14th remains in force even though nowadays we clean
the house well beforehand. However, it is not necessary for the bodek to recheck everything. Rather, he
should ascertain that every spot has, in fact, already been cleaned. Rav Elyashiv (Ashrei Ha'Ish vol.
3 pages 335-337) writes similarly.
26. It can be considered a mokom she'ein machnisim bo chometz.
27. See S.A. HaGra”z 433:19 that if chometz falls under the floorboards of the house it is not
necessary to lift them up in order to clean underneath them, and it is sufficient for him to be mevatel
the chometz. Nevertheless, Rav Heinemann says that it is customary, if possible, to clean out the
chometz. Furthermore, if it is possible for a dog to dig out the chometz then it may be necessary
meikar hadin to do so, see S.A. 433:8 and S.A. HaGra”z Kuntres Achron there.
28. S.A. 433:3 and M.B. 433:19
29. S.A. 432:1 and M.B. there.
Erev Pesach is one of the busiest and most unique days of the year. With every hour comes another set of halachos. Many halachic times, including the time for searching for chometz and the latest time for eating chometz, are well known. However, many halachos of Erev Pesach are often confusing and not commonly understood. The purpose of this article is to elucidate some of the lesser known laws of Erev Pesach.

Note: These halachos apply to Erev Pesach that occurs on a weekday. If Erev Pesach occurs on Shabbos, special halachos apply to both Friday (13th of Nissan) and Shabbos (Erev Pesach).

Chometz

Searching for Chometz

The opening line of Maseches Pesachim states that one should search for chometz on the night of the 14th of Nissan (i.e. the night before Pesach). This should begin immediately after nightfall (50 minutes after sunset for this application).

Eating Chometz

One may eat chometz until the end of the “4th halachic hour” of the day. There are different opinions regarding the calculation of the length of the day and a halachic hour. Ideally, one should use the following calculation: One may eat chometz until the end of 1/3 of the “day”. For this application, the “day” begins 72 minutes before sunrise and ends approximately 50 minutes after sunset (in Baltimore and New York).

Burning and Selling Chometz

Chometz must be disposed of by burning or selling it before the end of the “5th halachic hour” - 5/12 of the day. Kol Chamira is recited following the burning, before the end of the 5th halachic hour. One should be aware of the following:

▪ Once Kol Chamira is recited by the head of the household, no chometz may be eaten by anyone at home. For example, if the father burns the chometz and recites Kol Chamira at 8:30 a.m., he and his family (even if they are not at home) may no longer eat chometz. Everything must be put away by that time.

▪ Be cognizant of the latest times. All times apply to chometz eaten at any location. (One year, the gentile owner of a doughnut shop told STAR-K that he saw individuals eating doughnuts in their cars after the latest time.)
time for eating chometz!) Also, chometz should not be burned at the last second. This is true whether one burns chometz outside his home or at a public biur chometz.

Chometz in the Mail

If one receives chometz in the mail or with the newspaper on Erev Pesach (after the 5th halachic hour) or on Pesach, one should not assume ownership of the item but rather leave the chometz outside. If mail is delivered through a mail slot into one’s home, he should have the intent not to acquire the chometz (i.e. not taking legal possession) and kick it or push it outside with a stick to avoid handling it. If it is still around after Pesach, he may assume ownership at that time and use it, provided that the sender is a gentile.

Kashering on Erev Pesach

Ideally, all kashering should be completed by the end of the 4th halachic hour. If one forgot to kasher before this time, he may kasher the vessel until candle lighting time on Erev Pesach with the following condition: The vessel did not come into contact with anything hot (whether Kosher l’Pesach or not) within the past 24 hours. In the event the vessel came into contact with something hot within the past 24 hours, or if one requires kashering of a chometz vessel on Pesach, a rav should be consulted.

Finding Chometz on Erev Pesach

There is a well known halacha that states if one finds chometz on Chol Hamoed or on Erev Pesach after the 5th hour, one should immediately burn it. On Yom Tov, one should cover the chometz (because it is muktza) and burn it after Yom Tov. This halacha applies only if he did not sell his chometz to a gentile. However, if he sells chometz to a gentile the sale includes all chometz, wherever it may be found.

Therefore, if one discovers pretzels in a drawer or bagel chips in a coat pocket during Pesach, he may not burn this chometz since it belongs to the gentile to whom the rav sold the chometz! Rather, he should store the item with the “locked up” chometz sold to the gentile. On Yom Tov, one should cover it and lock it up on Chol Hamoed. It may be eaten after Pesach when the chometz is repurchased.

Eating On Erev Pesach & Preparing For The Seder

1. One may not eat even Kosher for Passover matzah all day Erev Pesach. This prohibition begins at dawn (72 minutes before sunrise). There are many individuals who have the custom not to eat matzah beginning from Rosh Chodesh Nissan or even Purim. A child under the age of six may eat matzah even on Erev Pesach.
Products containing matzah meal that are baked (e.g. matzah meal cake) may not be eaten all day Erev Pesach. Kosher for Passover matzah meal products that are cooked (e.g. kneidlach) may be eaten until the beginning of the 10th *halachic* hour of the day- three *halachic* hours before sunset. One who does not eat *gebrokts* on Pesach may only eat kneidlach and other cooked matzah meal products until the latest time for eating chometz. He may not eat baked matzah meal products all day.

Matzah made with fruit juice, including Kosher for Passover egg matzohs, egg matzah products, etc., may be eaten until the end of the 4th *halachic* hour (same as the latest time for eating chometz). The sick or elderly who cannot eat regular matzah and have consulted with their rav may eat Pesach egg matzohs any time on Erev Pesach and Pesach. However, even such an individual can not fulfill the obligation of eating matzah at the Seder with these *matzohs*.

Meat, fish, salad, cheese, eggs, horseradish, fruits, vegetables, and potato starch cakes may be eaten until sunset. However, one should not fill up on these items so as to ensure a hearty appetite at the Seder. He may drink wine or grape juice on Erev Pesach in quantities that will not affect his appetite at night.

2. All first born males (whether from the father or mother) must fast on Erev Pesach. A father must fast in place of his first born child who is between the ages of thirty days and bar mitzvah. The custom is to end the fast early by partaking in a *siyum*. First born girls do not fast, and a mother does not fast for her first born son (under bar mitzvah when the husband is a *bechor*) if her husband or son attends a *siyum*.

3. Preparations for the Seder including roasting the *z’roa* meat, cooking and roasting the egg, mixing the salt water, preparing the *charoses*, grating the horseradish, and all necessary *b’dikas tolaim* (checking lettuce for bugs), should preferably be done before Pesach as special restrictions apply to preparing these items on Yom Tov. If the first day of Pesach falls on Shabbos, the *z’roa* and *baitzah* must be prepared before Shabbos. Additional restrictions apply to the preparations of the other items on Shabbos.

4. If one has a difficult time drinking wine at the Seder, one should mix the wine with grape juice and/or water. Ideally, this mixture should contain a minimum of 4% alcohol. Therefore, if the wine has 12% alcohol content, he should make a mixture consisting of 1/3 wine, 1/3 grape juice and 1/3 water (or 1/3 wine and 2/3 grape juice). He must be aware that many wines available have a lower alcohol content Therefore, if the wine has an 8% alcohol content he should make a mixture consisting of 1/2 wine, 1/4 grape juice and 1/4 water.
(or 1/2 wine and 1/2 grape juice). Wine with 6% alcohol content requires 2/3 wine and 1/3 grape juice. If one prepares these mixtures with a measuring cup, it should be done before Yom Tov. If one may become ill by drinking any wine, he may instead drink grape juice.

5. One may not say, “This meat is for Pesach,” as this may appear as if he is designating meat for the Korban Pesach. Rather one should say, “This meat is for Yom Tov.”

**Work After Chatzos**

During the days of the בית המקדש, the Korban Pesach was brought on Erev Pesach after chatzos (midday). Therefore, various מלאכון (work activities) are prohibited during this time. Although there is no בית המקדש at the time of this writing, the prohibitions remain intact and are similar to the prohibitions of Chol Hamoed (with several exceptions). The following is a list of those מלאכון that apply to Erev Pesach after חצות:

1. During Chol Hamoed, מעשה דitulo, simple work, may be performed only if it is לְצָרְךָ הָמֻתָה, for the sake of the holiday. For example, one may fasten a hook to the wall on Chol Hamoed to hang up a picture to beautify one’s home for Yom Tov. Similarly, one may assemble an afikomen present of a tricycle on Chol Hamoed for a toddler to ride on Chol Hamoed. However, under normal circumstances one may not perform a מעשה דitulo if it is not לְצָרְךָ הָמֻתָה. For example, one may not fix a broken chair that will not be used until after Pesach. Also, before Pesach one may not plan ahead and postpone a מעשה דitulo activity for Chol Hamoed even if the activity is לְצָרְךָ הָמֻתָה. These halachos also apply to Erev Pesach after chatzos.

2. During Chol Hamoed, in most cases, one may not perform a מעשה אומן, a skilled task requiring a craftsman, even לְצָרְךָ הָמֻתָה. For example, installing siding or laying bricks are not permissible, even to beautify the home in honor of Yom Tov.

There are some major exceptions where even a מעשה אומן is permissible on Chol Hamoed. This includes לְצָרְךָ נפש (e.g. repairing an oven that broke and could not be fixed before Yom Tov) to avoid major financial loss (e.g. repair a roof to avoid structural or flood damage from rain), and in certain cases לְצָרְךָ הָגוּג (e.g. fix an only pair of eyeglasses or repair the only toilet in the house). These halachos also apply to Erev Pesach after chatzos.
However, there is one major difference between Chol Hamoed and Erev Pesach. On Chol Hamoed, one may not hire a gentile to perform the above noted skilled tasks. On Erev Pesach this is permissible לצורך המועד. For example, a major car repair (e.g. rebuilding a transmission) may be performed by a gentile on Erev Pesach, even after חצות, if it is לצורך המועד (e.g. for a Chol Hamoed trip). Under normal conditions, asking a gentile to perform such a task on Chol Hamoed is prohibited.

3. Laundry, Dry Cleaning, Haircuts & Shaving – In general, these four activities may not be performed after חצות on Erev Pesach or during Chol Hamoed. However, after חצות on Erev Pesach one may ask a gentile to perform these tasks לצורך המועד. Therefore, if one forgot to shave, get a haircut or wash/dry clean clothing he may ask a gentile to do so for him לצורך המועד (i.e. go to a gentile barber or dry cleaner). However, a gentile may not perform these tasks for a Jew on Chol Hamoed even לצורך המועד.

4. Drying clothes in a dryer and ironing clothes (except pleats) are classified as מעשה הדיוט and are permissible on Chol Hamoed and Erev Pesach after chatzos, under the conditions mentioned above (לצורך המועד, etc.).

5. It is preferable to clip finger nails and toe nails before חצות on Erev Pesach. In יבדיעבד, this may be done all day. If one clips nails on Erev Pesach, he/she may clip them again on Chol Hamoed. If this was not done on Erev Pesach, the nails may not be clipped on Chol Hamoed unless it is מצוה לצורך (, e.g. טבילה, etc.).

6. Picking up serviced goods (e.g. at the tailor, shoemaker or dry cleaner) is מותר all day Erev Pesach. Regarding Chol Hamoed, a rav should be consulted. In years when Erev Pesach occurs on Wednesday, an Eruv Tavshilin should be prepared. Some people have the custom of studying the laws and reciting the order of the ערב אלי קרן פסח after Mincha on Erev Pesach. May the next ערב אלי קרן פסח be the busiest ever, with a new Bais HaMikdash, וואכל שם מזבחים ומקסף פסח fascism בתרה בימינו.
HALACHOS OF THE PESACH SEDER
Rabbi Mordechai Frankel, Director, The Institute of Halacha at the STAR-K

The following contains halachic guidance concerning some of the common issues that arise when conducting a Pesach Seder. In particular, it discusses preparation for the Seder, the four cups of wine, and the obligation to eat matzah, Maror, Koreich and Afikomen. This is by no means comprehensive. For a more comprehensive guide, see HaSeder HaAruch by Rabbi Moshe Yaakov Weingarten (three volumes, 1431 pages).

Preparations for the Seder

A person should complete all of the necessary preparations for the Seder on Erev Pesach to enable him to start the Seder without delay.1 (If Erev Pesach falls on Shabbos, he cannot prepare for the Seder on Erev Pesach since he may not prepare for Yom Tov on Shabbos.)

The following preparations should be made prior to Yom Tov:

1. If meat or chicken will be eaten at the Seder, it may not be roasted. Meat or chicken cooked with a quarter inch or more of water at the bottom of a pot is not considered to be roasted and may be eaten at the Seder.2

2. If horseradish is being used for Maror, it should be grated.3 If one forgot to do this, then he may grate it on Yom Tov if he employs a shinuy and grates in an unusual manner, such as grating it onto the table rather than onto a plate.4

3. If lettuce leaves are being used for Maror, they should be checked to ensure that they are not harboring insects.5 To check romaine lettuce leaves, one method is to separate the leaves, soak them in water, and then make a thorough leaf-by-leaf inspection. Any insects which are found must be removed. See page 66 for detailed checking instructions. Alternatively, he may use romaine stalks for

The following abbreviations have been used: M.B. – Mishnah Berurah, S.A. – Shulchan Aruch, S.H. – Sha’ar HaTziyun, B.H. – Biur Halacha. All citations to Shulchan Aruch refer to section Orach Chayim.

1. S.A. 472:1
2. Heard from Rav Heinemann, shlit”a.
3. See M.B. 473:36; Rama 495:1; M.B. 495:10; S.H. 495:12; B.H. ‘Miyhu’. M.B. 473:36 states that the Gra would not grate the Maror until the start of the Seder, due to concern that it may lose its sharpness.
4. See Rama 504:1; M.B. 504:11; M.B. 504:19; S.H. 504:33. See also Orchos Rabbeinu vol. 2 page 73. If Pesach occurs on Shabbos, one must grate the Maror on Erev Pesach; if he did not do so, he should prepare it in the manner prescribed by M.B. 321:45.
5. M.B. 473:42
Maror instead of the leaves. To do this, he should remove the leaves from the stalks and rinse them under a strong stream of water, while rubbing the stalks during the rinsing. No further checking is required.

4. Prepare the Karpas vegetable and the salt water into which it will be dipped. Any vegetable may be used for Karpas, except those which may be used for Maror. However, the custom is to use celery, radishes, or cooked potatoes.

5. Prepare the charoses. The ingredients for charoses typically include grated apples, almonds and other nuts, cinnamon, ginger, and red wine. The charoses should have the texture of apple sauce.

6. The bone which will be used for the z’roa on the Seder plate should be roasted over a fire, as was done to the Korban Pesach. Some people first boil the z’roa and then singe it over a flame. It is preferable to use the forearm of an animal or bird, which is the z’roa bone. The equivalent limb of a chicken is the part of the wing that is directly attached to the body. The z’roa must have some meat on the bone. It may not be eaten on Seder night because we do not eat roasted meat at the Seder. The meat of the z’roa (which has been cooked before Yom Tov) should ideally be eaten on the second day of Yom Tov, as it is not proper to dispose of the z’roa in an unsuitable manner.

18. S.A. 473:4; M.B. 473:27
19. Heard from Rav Heinemann, shlita. Pri Megadim siman 473 Aishel Avraham 7 writes that there are those who use the neck of a bird for the z’roa, although he does not know why.
20. M.B. 473:27
22. See M.B. 473:32
7. Boil and then roast the egg to be used on the Seder plate.\textsuperscript{23} A person whose custom is to eat eggs at the Seder meal should also prepare these eggs.\textsuperscript{24}

8. Open the wine bottles to be used at the Seder. In particular, wine bottles that have a screw cap should be opened before Yom Tov.\textsuperscript{25} One should also open the boxes of matzah that will be needed for the first days of Yom Tov.\textsuperscript{26}

9. Children should rest so that they will be awake during the Seder.\textsuperscript{27} If possible, adults should also rest.\textsuperscript{28}

10. Set the Seder table with elegant dishes and arrange the chairs which will be used for leaning.\textsuperscript{29} Even though throughout the year one should minimize luxury as a zechar l’churban, on Seder night it is appropriate to use the finest dishes available.\textsuperscript{30} Some people have a custom that the husband arranges the Ke’ara.\textsuperscript{31} There were gedolim who insisted on personally setting the table for the Seder.\textsuperscript{32}

11. Prepare the Ke’ara. There are differing customs as to the layout of the various components of the Ke’ara.

One prevalent custom is that of the Arizal.\textsuperscript{33} According to this minhag, beginning at the top of the Ke’ara is the z’roa, which is placed on the upper right

\textsuperscript{23} S.A. 473:4; M.B. 473:32. M.B. writes that if one does not intend to eat the egg on that day, then the egg cannot be roasted on Yom Tov and must be prepared before Yom Tov.

\textsuperscript{24} See Rama 476:2, that it is customary to eat a hard boiled egg at the start of the Seder meal.

\textsuperscript{25} M.B. 509:28. See also Igros Moshe, Orach Chaim 1:122 anaf 10; Minchas Shlomo 1:91 section 12.

\textsuperscript{26} See Shemiras Shabbos Kehilchasa 9:10-12.

\textsuperscript{28} See Matteh Moshe siman 600.

\textsuperscript{29} S.A. 472:2

\textsuperscript{30} M.B. 472:6

\textsuperscript{31} See Chidah, Moreh BeEtzbah siman 206.

\textsuperscript{32} See Haggadah Shel Pesach ‘Chasam Sofer’ page 34; Haggadah Shel Pesach ‘MiBeis Halevi’ hosofos page 64.

\textsuperscript{33} Chayei Odom siman 130 kelalei haseder b’ketzara 1; Kitzur Shulchan Aruch 118:8; Be’er Heiteiv 473:8; M.B. 473:26; Aruch HaShulchan 473:11.
side of the Ke'ara, and the beitza which is placed on the upper left side. The Maror is placed in the middle of the Ke'ara, with the charoses underneath and to the right, and the karpas underneath and to the left. The chazeres is placed closest to the leader of the Seder, at the bottom of the Ke'ara. Three matzos are placed either underneath or outside the Ke'ara, next to the z'roa and beitza.

12. Another custom is that of the Rama. According to this minhag, the karpas and salt water are placed nearest the leader of the Seder with the matzah above them, the maror and charoses above the matzah, and the beitza and z'roa above them furthest from the leader of the Seder.

There are other customs regarding the arrangement of the items on the Ke'ara. The Gra and Maharal each have differing customs. A person should follow his own particular minhag.

Some have the custom to place a covering between each of the three matzos, while others do not. The matzos should be covered before Kiddush. Often, families that join together for the Seder have the custom of providing a separate Ke'ara for the head of each individual household.

13. Make an Eruv Tavshilin, if necessary. One should take a baked item such as matzah and a cooked item such as fish, meat or an egg. He should hold the items and recite the text found in the Siddur. The Eruv Tavshilin

34. The Arizal, quoted by Be'er Heiteiv 473:8 states that the Ke'ara should be 'on' the matzos. Shulchan Aruch HaGra”z 473:26 understands this to mean that the Ke'ara should be on top of the matzos. In order to facilitate this, the Ke'ara is built with slots under the plate into which the matzos can be inserted.

35. Kaf HaChayim 473:58 understands the Arizal to mean that the Ke'ara should be next to the matzos.

36. Rama 473:4

37. Ma’aseh Rav 187

38. Haggadah Shel Pesach attributed to the Maharal page 41. However, it has been argued that the work is a forgery and was not written by the Maharal. See the essay of Rav Benedict in the journal Moriah, Sivan 5745. Rav Benedict points out that in the Maharal’s sefer Gevuros Hashem, which extensively discusses the Pesach Seder, there is no mention of the Ke’ara being arranged this way.

43. M.B. 527:11

44. See Maharsham 2:36.
should not be eaten until all of the preparations for Shabbos are completed. It is customary to eat the Eruv Tavshilin at Shalosh Seudos.

**The Four Cups**

One is required to drink four cups of wine at the Seder; women have the same obligation as men. If a person drinks four cups of wine in a row, he is not yotzei this mitzvah. Rather, he must recite the Haggadah and drink each of the Arba Kosos at the appropriate point. For this reason, he may not drink the fourth cup immediately after the third cup. A woman should make sure that she either recites the Haggadah herself or hears the leader of the Seder recite the Haggadah, so that she will be able to drink the Arba Kosos at the appropriate times.

The cup should hold the measurement of a revi’is of wine. According to Rav Chaim Noeh, a revi’is is calculated at 86 cubic centimeters of wine (בענשרא כוס), which is equivalent to slightly less than 3 fl. oz. According to the Chazon Ish, it equals 150 cubic centimeters of wine (גימטריא כוס הגון) which is equivalent to slightly more than 5 fl. oz. Based on the ruling of the Mishnah Berurah, Rav Heinemann, states that it is necessary to use a cup which holds 3.8 fluid ounces.

48. S.A. 472:14, M.B. 472:44
49. S.A. 472:8
50. B.H. 472:8 ‘Shelo’ states that if one drinks the Arba Kosos with a pause between each cup, but does not recite the Haggadah in between, it is questionable whether he is yotzei.
51. M.B. 472:26
52. End of B.H. 472:8 ‘Shelo’.
53. S.A. 472:9
54. Rav Chaim Noeh, Shiurei Torah page 176. 86 cm³ = 2.91 fl. oz.
55. The Steipler Gaon, Shiurin Shel Torah page 65. 150 cm³ = 5.08 fl. oz.
56. Heard from Rav Heinemann, sblit’a.
57. See Eruvin 83a, that a revi’is is equivalent to the volume of 1½ eggs. Tzalach, Pesachim 109 argues that the eggs referred to by Chazal are twice the size of present day eggs. Rav Chaim Noeh, Shiurei Torah Sha’ar 3 disagrees with the Tzalach. See further M.B. 271:68; B.H. 271:13 ‘Shelo’; Chazon Ish, Orach Chaim 39. M.B. states that for Kiddush one should, lechatbila, consider a revi’is as equivalent to the volume of two present day eggs. Rav Dovid Feinstein, z’t’l, Sefer Kol Dodi Al Hilchos HaSeder, states that the volume of a large present day egg is 2.2 fl. oz. Rav Bodner, Sefer Kezayis Hashalem, page 24 footnote 24, states that it has a volume of 1.87 fl. oz. He further states that he discussed the issue with Rav Dovid Feinstein, who agreed that this was a more accurate measurement. Rav Heinemann, sblit’a, measured a present day egg as having the volume of 1.9 fl. oz. The volume of two eggs would, therefore, equal 3.8 fl. oz.
Ideally, a person should drink a revi’is of wine. Some opinions state that if the cup holds more than a revi’is he should drink the entire cup; others dispute this. If it is difficult to drink an entire revi’is of wine, one should drink slightly more than half the cup. If a person has difficulty drinking four cups of wine, he should make sure that he has a cup that holds exactly a revi’is so that he will need to drink only slightly more than half a revi’is. For the fourth cup, he should either drink enough wine to be able to recite a bracha acharona himself or have someone be motzi him.

It is preferable to drink the majority of the revi’is at one time. If a person cannot do so, he should at least drink the majority of the revi’is within kedei shiti’as revi’is, which is approximately half a minute.

An alcoholic wine should be used for the Arba Kosos. The wine can be diluted with grape juice. Rav Heinemann, shlita, is of the opinion that the resulting mixture should contain at least 4% alcohol. Therefore, wine which has 12% alcohol content can be diluted into ⅓ wine and ⅔ grape juice or water. Alternatively, it can be diluted into ⅓ wine, ⅓ grape juice, and ⅓ water. If a person cannot drink wine,

58. S.A. 472:9; M.B. 472:30
59. Chok Yaakov 472:20 quoting Bach; Shulchan Aruch HaGra”z 472:19
60. Chok Yaakov 472:20. See also Orchos Rabbeinu vol. 2 page 60.
61. S.A. 472:9, M.B. 472:30
62. M.B. 472:33. ‘Rov revi’is’ is equivalent to ‘meloh lugmav’, the amount of liquid that a person can hold in his cheeks. B.H. 472:9, ‘veyishte’ states that a larger person, whose meloh lugmav is greater than rov revi’is, would need to drink his personal meloh lugmav.
63. M.B. 472:30
64. M.B. 472:34 writes that ideally the rov revi’is should be drunk at one time. Kol Dodi explains this to mean that the rov revi’is should be drunk without taking the cup from one’s mouth. See also his rebuttal of Machatzis Hashekel 472:1.
65. M.B. 472:34
66. Heard from Rav Heinemann, shlita. See M.B. 472:34; S.H. 472:49 concerning a person who took a longer time than this.
67. Kol Dodi quoting Rav Moshe Feinstein, zt”l. He further states that one should push himself to drink the Arba Kosos in this optimal manner. See also Pri Chadash end of siman 483; Mikra’ei Kodesh (and footnotes entitled Harerei Kodesh) Pesach vol. 2 page 35.
68. See M.B. 472:37.
69. Heard from Rav Heinemann, shlita.
70. See M.B. 204:32; M.B. 272:16, that wine can be diluted one part in six and still retain the bracha of Borei Pri Hagafen. See Machatzis Hashekel 204:16 quoting Eliyahu Rabba; Pri Megadim siman 204 Aishel Avraham 16; Kol Dodi. The wine used for the Arba Kosos should not be diluted to this extent because such a mixture would be only minimally alcoholic. Hilchos Chag B’e’chag (Chag HaPesach), page 422, states that it is customary to dilute ⅓ wine with ⅓ grape juice. Rav Heinemann, shlita, is of the opinion that the mixture should retain a 4% alcohol content.
then he can use grape juice for the four cups. If unable to drink pure grape juice, he may dilute it with water. The resulting mixture should contain at least 51% grape juice (i.e., up to 49% water.) ‘Light’ grape juice should not be further diluted. A person who will become incapacitated is not obligated to drink the Arba Kosos.

Red wine should be used for the Seder. Throughout the year, it is preferable not to use cooked wine for Kiddush; the same is true for the Seder. This is because uncooked wine tastes better than cooked wine. It is debatable as to whether pasteurized wine has the same status as cooked wine in this regard.

A child who has reached the age of chinuch, about five or six years old, should also be given Arba Kosos to drink; however, it is not essential to do so. A child does not need to drink a full revi'is of wine or grape juice and should instead drink meloh lugmav, the amount of wine he can hold in his cheeks. It is customary to give Arba Kosos even to younger children, although they can be given a minimal amount of grape juice.

When drinking the first cup, a person should have in mind that he is fulfilling the obligations of both Kiddush and the first of the Arba Kosos.

71. M.B. 472:37. Teshuvos VeHanhogos 2:243 states that a sick person or old person may, lechatichila, use grape juice for Arba Kosos and notes that the Chebiner Rav and the Brisker Rav did so. See also Shulchan Aruch HaGra”z 472:17; Hilchos Chag Be’chag page 415; Halichos Shlomo Pesach 9:11. Concerning the dilution of grape juice, see Minchas Shlomo 1:4; Vezos Habracha page 116 and Hilchos Shabbos BeShabbos page 386 quoting Rav Elyashiv, zt”l. According to their viewpoint, grape juice that is used for Arba Kosos should not be mixed with more than a little amount of water.

72. M.B. 472:35. S.A. 472:10 states that even a person who does not generally drink wine because it is harmful or distasteful should force himself to drink the Arba Kosos.

73. S.A. 472:11. See also Rama 472:1; M.B. 272:10.

75. M.B. 272:19

76. The laws of stam yayin do not apply to cooked wine. Igros Moshe, Yoreh De’ah 2:52 and Yoreh De’ah 3:31, states that these laws similarly do not apply to pasteurized wine. However, Minchas Shlomo 1:25 and Rav Elyashiv, zt”l, Kafetz Teshuvos 1:75, disagree. It is not clear whether the Igros Moshe would also treat pasteurized wine as cooked wine with regard to Kiddush. The Meiri, Bava Basra 97 is of the opinion that cooked wine should not be used for Kiddush, even if the cooking did not result in any taste change. Presumably, the Meiri would consider pasteurized wine as being in this category.

77. See Chok Yaakov 472:27; Shulchan Aruch HaGra”z 472:25.

78. S.A. 472:15

79. M.B. 472:46

80. M.B. 472:47

81. Chok Yaakov 472:27 quoting Maharil (Minhagei Maharil page 94); Kaf Hachaim 472:91. The Chasos Yair, in his sefer Mekor Chaim (Piskei Dinim 472:15), states that it is customary to give wine (or grape juice) even to small babies.

82. M.B. 473:1. M.B. says that some people have the custom to state this verbally. He adds that before reciting the Haggadah, one should verbalize or think that he is going to fulfill the mitzvah.
A man should drink the Arba Kosos while leaning to his left side. If he did not lean while drinking the first, third or fourth kos he should not drink that kos a second time. If he did not lean while drinking the second kos, he should drink another kos during the meal while leaning to his left side.

**Matzah**

Both men and women are commanded by the Torah to eat matzah at the Seder. A child who has reached the age of chinuch should also be given matzah to eat at the Seder.

The matzos being used for the mitzvah should be shmura matzos. This is matzah that has been watched since the harvesting of the wheat to ensure that nothing has occurred which might cause it to become chometz. Many people have the custom to use only hand-baked matzos for this mitzvah; others use machine matzos.

A person must eat one kezayis of matzah at the Seder. The Steipler Gaon and Rav Dovid Feinstein, zt”l, write that ideally one should eat ⅔ of a machine matzah or the equivalent volume of hand-baked matzah. Upon experimentation, Rav Heinemann, shl”a, found that half of a machine matzah contains the volume of matzah necessary for a kezayis.

---

83. S.A. 473:2
84. See S.A. 472:7; Rama 472:7.
86. There is a Torah obligation to eat matzah on the first night of Pesach and a rabbinic obligation on the second night, as stated by M.B. 475:44. M.B. 472:44 states that women have the same obligation as men.
87. See M.B. 343:2-3; M.B. 269:1; Halichos Shlomo Pesach 9:43.
88. See S.A. 553:4; M.B. 553:21-22; B.H. 553:4 ’tov’; B.H. 460:1 ’ein’.
89. Rav Shlomo Kluger paskened that matzah made by a hand powered machine is not acceptable for the mitzvah, whereas Rav Yosef Shaul Natansohn (author of Teshuvos Shoel U’mesivh) was lenient, as recorded in Sdei Chemed vol. 7 page 397. Concerning matzah made by an electric machine, the Maharsham 4:129, 9:31 was stringent and the Divrei Malkiel 4:20 was lenient. See also Chazon Ish, Orach Chaim 6:10; Hilchos Chag Be’chag page 337.
90. Rambam, Hilchos Chometz U’Matzah 6:1
91. M.B. 486:1 implies that one should eat the amount of matzah which has the same volume as a present day egg. Shiurin Shel Torah, page 65 and footnote on page 66, state that in order to meet this requirement it is appropriate to ensure that the first kezayis be approximately the size of ⅔ of a machine matzah.
92. Rav Dovid Feinstein, zt”l, Kol Dodi, writes that the matzah which is eaten for the kezayis should have the volume of 1.5 fl. oz. Sefer Kezayis Hashalem, page 91, states that this is equivalent to the size of ⅔ of a machine matzah. Kol Dodi further states that this measurement is given for the first night of Pesach, but on the second night of Pesach one can be more lenient.
93. This measure should ideally be used on the second night as well, in order to fulfill the stringency.
In 5780/2020, Rav Heinemann, shlit"a, conducted extensive testing to calculate the volume of Pupa Tzelem hand matzah equivalent to a kezayis. He waterproofed matzos and performed water displacement testing to determine their volume.94 Furthermore, Rav Heinemann reviewed results of 3-D scan measurements carried out on behalf of STAR-K for this project. The matzos tested were packaged ten to a pound.

This measurement found that the segment of hand matzah containing the volume of a kezayis was larger than the fraction given in previous years. Possibly, this is due to hand matzos being thinner than in the past. It was determined that half of a Pupa Tzelem hand matzah contains the volume of matzah necessary for a kezayis. Other brands of matzah may produce different results.

A person who has difficulty chewing may crush the kezayis of matzah before eating it.95 If necessary, he may also soak the matzah in water to facilitate eating the kezayis.96 When appropriate, a person with a medical condition which could be negatively impacted by consumption of this amount of matzah may eat a smaller portion of matzah. One should consult his rav as to whether he falls in this category. Measurements suitable for such individuals are listed on page 116.

The kezayis of matzah should be eaten within the time span of kedei achilas pras.97 The kezayis should preferably be eaten within two minutes.98 If this cannot be done, it should at least be eaten within three99 or four minutes.100 A man should eat the matzah while leaning to his left side.101 If he did not do so, he should eat another kezayis without another bracha while leaning to his left side.102

After everyone at the Seder has finished washing Netilas Yadavim and returned to the table, the leader of the Seder should take the three matzos in

94. Testing was carried out in STAR-K labs.
95. B.H. 461:4 ‘yotzei’
96. See M.B. 461:17-18; S.H. 461:32. M.B. 458:4 states that there are scrupulous people who are stringent and do not let matzah become wet for the duration of Pesach, due to the concern that there might be some residual flour below the surface of the matzah which could become chometz upon contact with water. This is the custom of not eating gebrochts. See further Shaarei Teshuva 460:1.
97. M.B. 475:9
98. Shiurin Shel Torah page 67, based on Chasam Sofer 6:16.
99. See Igros Moshe, Orach Chaim 4:41; Aruch HaShulchan 202:8; Orchos Rabbeinu vol. 2 page 70.
100. See Shiurin Shel Torah page 67.
101. S.A. 475:1; M.B. 475:10
102. M.B. 472:22
front of him and recite the bracha of Hamotzi. The top and bottom matzos, which are both whole, will serve as the lechem mishneh.\textsuperscript{103} If feasible, he should then set down the bottom matzah and recite the bracha of Al Achilas Matzah while holding the top and broken middle matzos.\textsuperscript{104} He should then give each person at the Seder a kezayis, including within the kezayis some of the top and middle matzos over which the bracha has been made.\textsuperscript{105}

A person should preferably chew the matzah without swallowing, until he has a kezayis of matzah in his mouth, and then swallow the kezayis at one time.\textsuperscript{106} Regarding this, one may rely upon the more lenient measurements of a kezayis, which calculate it as being less than \(\frac{1}{4}\) of a machine matzah.\textsuperscript{107}

People who find it impractical to swallow an entire kezayis at one time should instead eat the kezayis in the normal manner, which includes some of the top and broken middle matzos over which the bracha has been made.\textsuperscript{108}

The Shulchan Aruch brings an opinion that one should eat a kezayis from the top matzah followed by a second kezayis from the broken middle matzah.\textsuperscript{109} However, a person who fulfills the requirement of eating a kezayis by eating the size of half of a machine matzah is actually eating two kezaysim, when calculated according to the more lenient measurements of a kezayis.\textsuperscript{110} It is, therefore,

\textsuperscript{103.} S.A. 475:1; M.B. 475:2
\textsuperscript{104.} M.B.475:2
\textsuperscript{105.} S.A. 475:1; M.B.475:2; M.B. 475:6; M.B. 475:8. Piskei Tesuvos 475:2 describes an alternative custom for the recitation of the brachos and division of the matzah. The leader of the Seder makes the bracha of Hamotzi and then divides the kezayis of matzah for each person at the Seder. He includes within the kezayis some of the matzah over which he made the bracha. Each individual then recites the bracha of ‘Al Achilas Matzah.’
\textsuperscript{106.} M.B. 475:9.
\textsuperscript{107.} Shiurin Shel Torah siman 11 states that, fundamentally, the Chazon Ish paskened in accordance with Rav Chaim of Volozhin, who stated that a kezayis is measured as the average size of a present day olive – which at a maximum would be the volume of \(\frac{1}{7}\) of a present day egg. Based on his statement that \(\frac{1}{5}\) of a machine matzah contains the volume of a present day egg, \(\frac{3}{5}\) of a machine matzah would contain the volume of a kezayis. See also sefer Kezayis Hashalem, page 24; Orchos Rabbeinu vol. 2 pages 66-69.
\textsuperscript{108.} See S.A. 475:1. Orchos Rabbeinu vol. 2 page 70 quotes Rav Chaim Kanievsky, shlit"a, as stating that the Chazon Ish did not put a whole kezayis of matzah in his mouth at one time, but ate it in the normal manner within three minutes. Orchos Rabbeinu vol. 2 page 66 similarly quotes the Steipler Gaon as saying that one should eat the matzah in the normal manner. See also Halichos Shlomo Pesach 9:41 and Halichos Shlomo Tefilla page 380, quoting Rav Shlomo Zalman Auerbach.
\textsuperscript{109.} See S.A. 475:1; M.B. 475:9; Orchos Rabbeinu vol. 2 page 69. B.H. 475:1 ‘kezayis’ questions the necessity of eating two kezaysim and quotes sources to the contrary. Orchos Rabbeinu vol. 2 pages 69-70 quotes Rav Chaim Kanievsky, shlit’a, as stating that the Chazon Ish told him that the Halacha follows the opinion that it is necessary to eat only one kezayis.
\textsuperscript{110.} As stated above, fundamentally the Chazon Ish paskened that a kezayis is measured as the volume of a present day olive, which is smaller than the volume of \(\frac{1}{4}\) of a machine matzah.
sufficient to eat the size of half of a machine matzah in order to comply with the
opinion that suggests eating two kezaysim.\footnote{111}

Before eating, a person should have in mind that he is about to perform the
mitzvah of eating matzah.\footnote{112} When reciting or hearing the bracha of Al Achilas
Matzah, he should also have in mind the eating of the Afikomen.\footnote{113}

**Maror**

Nowadays, in the absence of the Korban Pesach, it is no longer a Torah
requirement to eat maror at the Seder; however, there is a rabbinic obligation to
do so.\footnote{114} This obligation applies equally to men and women.\footnote{115}

Children who have reached the age of chinuch should also be given maror to
eat, just like an adult.\footnote{116}

A person may use romaine lettuce for Maror,\footnote{117} although it must be checked
before Pesach to ensure that it does not harbor insects.\footnote{118} He may use either the
leaves or the lettuce stalks for Maror.\footnote{119} The lettuce does not need to be bitter,\footnote{120}
although there is an opinion that the lettuce must have some element of bitter
taste.\footnote{121} Some people have the custom not to use lettuce for Maror.\footnote{122}

Raw horseradish may also be used for Maror.\footnote{123} It is customary that people
who use lettuce for Maror put some horseradish on the lettuce, although it is not
necessary to do so.\footnote{124} There is no need to use a lot of horseradish for this.\footnote{125}

\footnotetext[111]{111. Heard from Rav Heinemann, shlit"a. Kol Dodi shares this opinion. See also Orchos Rabbeinu vol. 2 page 66.}
\footnotetext[112]{112. See S.A. 475:4; M.B. 475:34; B.H. 60:4 ‘yesh omrim’; B.H. 60:4 ‘ve’yesh omrim’; M.B. 60:10 quoting the Chayei Odom.}

\footnotetext[125]{125. See the letter that the Netziv wrote to his son, printed in Merumei Sodeh Pesachim 39a, in
The maror should be dipped into charoses, and the excess charoses shaken off.\textsuperscript{126} A person must eat a kezayis of maror.\textsuperscript{127} The amount of lettuce which will displace 25 cm\textsuperscript{3} of water would constitute a kezayis, according to Rav Chaim Noeh.\textsuperscript{128} This is equivalent to slightly less than 1 fl. oz. According to the Chazon Ish\textsuperscript{129} and Rav Dovid Feinstein, z"l,\textsuperscript{130} one should take 1.1 fl. oz. of lettuce for Maror. Rav Heinemann, sblit”a, is of the opinion that a person should take 1 fl. oz. of lettuce.\textsuperscript{131} One large lettuce leaf or two large stalks displaces approximately 1 fl. oz. of water.\textsuperscript{132}

The kezayis of maror should be eaten within the time span of kedei achilas pras.\textsuperscript{133} The kezayis should preferably be eaten within two minutes.\textsuperscript{134} If this cannot be done, it should at least be eaten within three\textsuperscript{135} or four minutes.\textsuperscript{136} One does not lean when eating the maror.\textsuperscript{137}

**Koreich**

The leader of the Seder should take the remaining bottom matzah and use it to give each person at the Seder a portion of Koreich.\textsuperscript{138} It is customary to

---

\textsuperscript{126} S.A. 475:1; M.B. 475:13

\textsuperscript{127} S.A. 473:5, M.B. 473:41. See the letter written by Reb Akiva Eiger, printed in Chut HaMeshulash pages 205-206.

\textsuperscript{128} M.B. 486:1 states that with regard to Maror, which is nowadays a rabbinic obligation, one can measure a kezayis as being the size of half of a present day egg. Rav Chaim Noeh, Shiurei Torah page 191, states that half a present day egg has a volume of 28.8 cm\textsuperscript{3} = 0.97 fl. oz.

\textsuperscript{129} Chazon Ish, Orach Chaim 100 and 39:17, states that with regard to Maror one can measure a kezayis as being equivalent to the volume of ½ of a present day egg. Shiurin Shel Torah page 65 states that a present day egg has a volume of 50 cm\textsuperscript{3}. Therefore, a kezayis will have a volume of 33.3 cm\textsuperscript{3} = 1.13 fl. oz. Shiurin Shel Torah siman 11 states that, fundamentally, the Chazon Ish paskened in accordance with Rav Chaim of Volozhin, that a kezayis is measured as the size of a present day olive which at a maximum would have the volume of ½ of a present day egg. He also states that a person who has difficulty eating maror can rely upon this measurement, which calculates as 17 cm\textsuperscript{3} or 0.58 fl. oz. Also see the letter written by the Steipler Gaon, which is reproduced at the end of the Sefer Hilchos Chag Be’chag.

\textsuperscript{130} Kol Dodi

\textsuperscript{131} Heard from Rav Heinemann, sblit”a. This is in accordance with the view of Rav Chaim Noeh.

\textsuperscript{132} Sefer Kezayis Hashalem, pages 98-101, states that one large lettuce leaf or two large lettuce stalks contain the volume of a kezayis. This was calculated in accordance with the view that a kezayis is equivalent to 0.96 fl. oz.

\textsuperscript{133} M.B. 473:43; S.H. 473:60

\textsuperscript{134} Shiurin Shel Torah page 67, based on Chasam Sofer 6:16.

\textsuperscript{135} See Igros Moshe, Orach Chaim 4:41; Aruch HaShulchan 202:8; Orchos Rabbeinu vol. 2 page 70.

\textsuperscript{136} See Shiurin Shel Torah page 67.

\textsuperscript{137} S. A. 475:1. M.B. 475:14 states that if a person does lean while eating the Maror it is also fine.

\textsuperscript{138} S.A. 475:1
prepare Koreich with two pieces of matzah sandwiching some Maror.\textsuperscript{139} The maror could be dipped into charoses, and the excess charoses shaken off.\textsuperscript{140} Some have the custom not to dip the maror into charoses for Koreich.\textsuperscript{141}

A person should eat one kezayis of matzah and one kezayis of maror for Koreich,\textsuperscript{142} and measure the kezayis of maror as described above.\textsuperscript{143} For the kezayis of matzah, it is sufficient to take half of the volume of matzah.\textsuperscript{144} Therefore, following the larger measurement as described above, one should eat ¼ of a Pupa Tzelem hand matzah.\textsuperscript{145}

Before eating Koreich, one should recite the paragraph, \textit{וכו זכר למקדש כהלל}.\textsuperscript{146} Some suggest saying this paragraph after one has started to eat Koreich.\textsuperscript{147} A man should consume Koreich while leaning to his left side;\textsuperscript{148} if he did not do so, he does not need to eat another portion.\textsuperscript{149} From the time a person recites the bracha over the matzah until he eats the Koreich portion, it is preferable not to discuss matters unrelated to the eating of the matzah, Maror, Koreich and the Seder meal.\textsuperscript{150}

**Afikomen**

The leader of the Seder should give each person at the Seder a kezayis of matzah,\textsuperscript{151} including within the kezayis some of the remaining half of the middle matzah.\textsuperscript{152} Ideally, he should take the same volume of matzah as was used for the initial eating of matzah at the Seder.\textsuperscript{153}

\textsuperscript{139} See S.A. 475:1; Aruch HaShulchan 475:7.
\textsuperscript{140} See S.A 475:1; Rama 475:1; M.B. 475:17; M.B. 475:19.

\textsuperscript{149} Kaf HaChaim 475: 36 quoting Pri Chadash
\textsuperscript{150} See S.A. 475:1; M.B. 475:24.
\textsuperscript{151} S.A. 477:1
\textsuperscript{152} S.A. 477:6; M.B. 477:58
\textsuperscript{153} M.B. 487:1 states that for Afikomen, which is a mitzvah \textit{d’rabanan}, one may follow the smaller measurement of kezayis. However, M.B. 477:1 states that for Afikomen one should ideally eat two kezayisim of matzah. Two kezayisim following the smaller measurement of a kezayis is equivalent to one kezayis of the larger measurement. Furthermore, S.H. 477:4 states that the Afikomen is the primary matzos mitzvah according to Rashi and the Rashbam. Kol Dodi states that this is a further reason to take a volume of matzah consistent with the larger measurement of a kezayis. See,
A man should eat the Afikomen while leaning to his left side. If he did not lean and has not started Birchas Hamazon, he should eat the Afikomen a second time, providing that it is not too difficult for him to do so. If he has started Birchas Hamazon, he should not wash and eat the Afikomen again.

Chazal debate as to whether the Afikomen may be eaten all night long or by chatzos, halachic midnight. In order to fulfill both opinions, one must be careful to eat the Afikomen before chatzos. After eating the Afikomen, one may not consume other food.

Rav Moshe Feinstein, zt”l, states that according to both opinions of Chazal, a person may not eat other food for the duration of the night. He also may not drink wine or fruit juice, with the exception of the remaining two cups of the Arba Kosos; he may drink water or tea.

It has been argued that, according to the opinion that the Afikomen must be eaten by chatzos, the prohibition against consuming additional food also ends at chatzos. If so, when chatzos is approaching and a person has not yet finished his meal, he may eat a kezayis of matzah and verbally state the following: “If the correct opinion is that one may eat the Afikomen until chatzos, then this matzah should be regarded as the Afikomen; however, if one has all night to eat the Afikomen, then it should not be regarded as such.” He may eat the matzah, wait until chatzos, and then continue his meal. After the meal, he should eat another kezayis of matzah and state the following: “If the correct opinion is that one has all night to eat the Afikomen, then this matzah should be regarded as the Afikomen; but, if the Afikomen must be eaten before chatzos, then it should not be regarded as such.” However, Rav Moshe Feinstein, zt”l, rejects this position and states that the Afikomen must simply be eaten before chatzos.

Conclusion of The Seder

After eating the Afikomen, the third cup of wine is poured and Birchas Hamazon is recited. If there is a zimun present, it is customary for the baal habayis to lead the bentching. After drinking the third cup, the Kos Shel Eliyahu is filled, and others fill it at the start of the Seder. The fourth cup of wine is poured and held during the recital of Sh’foch Chamoscha; others pour the fourth cup after Sh’foch Chamoscha. It is customary to stand and open the door of the house for the recital of Sh’foch Chamoscha.

The second portion of Hallel is then recited. If three adult males are present, the pesukim following, “Hodu l’Hashem ki tov ki l’olam chasd” should be recited responsively as is done when Hallel is said in shul, with the leader of the Seder calling and the others responding. If no guests are present, the person leading the Seder should initiate and his wife and children should respond. Nusach Sephard concludes Hallel at the beginning of the final paragraph “Ye’halelucha”. Nusach Ashkenaz recites the paragraph and conclude Hallel at “Me’olam ve’ad olam ata Keil”.

Hallel is followed by Perek 136 of Tehillim, known as Hallel Hagodol, which in turn is followed by the tefilla of “Nishmas Kol Chai”. Nishmas is recited until the start of the final sentence at the end of “Yishtabach”. Nusach Sephard follows this with the “Yehalelucha” final paragraph of Hallel; Ashkenazim conclude with the final bracha of Hallel, “Melech Me’hulal Be’tishbachos”. Some Ashkenazim conclude Yishtabach with the usual bracha of “Melech Keil Chei Ha’olamim”.

The fourth cup of wine is drunk, and a bracha acharona is recited. If one drinks less than a revi’is, he cannot recite a bracha acharona and should listen to someone else’s recital. The tefilla of Chasal Siddur Pesach and the subsequent

HOW TO CHECK MATZOS

Rabbi Moshe Heinemann, STAR-K Rabbinic Administrator

The production of Kosher l’Pesach (KFP) matzos involves a great deal of meticulous work. The process begins with the inspection of wheat kernels to ensure that they have not been adversely affected by moisture in the air or prematurely sprouted. Grinding of the grain must be performed according to the dictates of Halacha, which precludes any pre-grind soaking of the grain and requires special preparation of the milling equipment to ensure that no contamination exists from non-Passover flour in the grinders and filters. The KFP flour is then loaded onto trucks, either pneumatically or in bags under controlled conditions, and shipped to the bakeries.

A bakery which has been kashered for Pesach will have already prepared special water (mayim shelanu) to be used for Pesach matzos. Hand matzah bakeries do not use regular municipal water for fear that the chemicals added to the water may affect the leavening qualities of the dough. After the dough has been mixed, rolled out and perforated the matzos go into ovens for baking. This entire process, from the time that water first comes into contact with the flour until the matzah is completely baked, takes just a few minutes. Unquestionably, on Pesach every conscientious Jew would use only matzos made under the supervision of a reliable hashgacha.

Despite all the precautions and attention to detail by the bakeries involved in making matzos, it is possible for the consumer to purchase matzos that may still have issues. The following is a brief discussion of some problem areas. It should be noted that these problems can exist in both hand and machine-baked matzos, although they are more prevalent in the hand-baked matzos than machine-baked matzos.

1. Matzah Kefula

If there is an area on the matzah that is bent over, the doubled over portion is not Kosher l’Pesach. One must remove and discard this area together with a one inch margin of regular matzah. This is required, even if the bent over part is very small. However, if a matzah is bent over but the two layers do not actually touch one another then the matzah remains kosher and removal of this area is not required. In hand-made matzos, it is common to find creases in the matzos. If there is a corresponding crease on the other side of the matzah, then one should assume that the dough probably doubled over during the rolling process. In such cases, it is customary to
remove the creased area. An important difference between a true matzah kefula that is doubled over and a matzah that is only creased on both sides is that in the former case, the doubled over portion must be disposed of as though it were chometz as soon as it is discovered, while in the latter situation the creased matzah may be kept in one's possession. If the creased matzah is a shaleim (complete), one may use it for lechem mishneh. After reciting the bracha, one should put aside the creased area so it will not be eaten.

To avoid any problems on Shabbos regarding the melachah of Borer, separating, the non-kosher part of the matzah (the kefula) should be held in one hand and the kosher part in the other. The matzah should be broken, and the good part should be removed from the bad part. If it is a real kefula, it is considered to be chometz. Since one sold his chometz before Pesach, technically this kefula belongs to the non-Jew. One may not discard the non-Jew's chometz on Pesach, and it must be put away until the conclusion of the chag. If it is just a chashash chometz, the custom is not to discard it in the garbage. It may be placed in the non-Pesachdig sink after it has been broken into small pieces and washed down the drain.

2. Matzah Nefucha

A matzah which has ballooned and formed a blister during the baking process also requires special examination and handling. If the blister formed is so small that an average sized hazelnut (with its shell) cannot fit inside of the blister, between the upper and lower layers, then the matzah is kosher. Certainly, matzos that have not formed any blisters but are merely uneven in appearance are kosher. Matzos which do not have small holes all over them should not be used.

3. Underbaked Matzos

A matzah that is completely white on both sides should not be used, since it may not have been thoroughly baked. Matzah meal should be slightly brown in color, which indicates a better bake on the matzos that were used for the matzah meal.

4. Chipped Matzos/A Missing Shaleim

In order for matzos to be considered shaleim, complete (so they can be used for lechem mishneh), no more than one forty-eighth (1/48, approximately 2%) of the matzah may be missing. Hand matzos that are irregularly shaped are still considered whole, as long as no pieces broke off after baking.
Matzos left over from previous years that were stored in places free of chometz may be used. TIP: If your oven has been kashered for Pesach, simply put them in the oven for a few minutes so the matzos will regain their crispness.

Through our meticulous observance of the mitzvah of eating matzah, and all the other laws of Pesach, may Hashem soon grant our most fervent wish - the coming of Mashiach - so that we may once again eat our matzah together with the Korban Pesach in Yerushalayim Ir Hakodesh.
PESACH SHIURIM FOR MATZAH & WINE - FOR HEALTHY INDIVIDUALS AND FOR DIABETICS / THOSE WITH FOOD ALLERGIES

Adapted from Jewish Diabetes Association article by Nechama Cohen

The following are guidelines for achilas matzah and arba kosos for both healthy individuals and for those challenged with diabetes or food allergies. When in doubt, consult with a rav.

I. Matzah

The stipulations for minimum shiurim for matzah, which follow, are based on the psak of Rav Moshe Heinemann, shlit"a. These shiurim are different than listed prior to 2020. See “Halachos of the Pesach Seder” at star-k.org/passover for further explanation. These calculations are based on the use of a Pupa Tzelem hand matzah (10 matzos to a pound).

In the case of a medical condition (e.g., diabetes, food allergies) which could be negatively impacted by matzah consumption, one may fulfill the mitzvah of Achilas Matzah, Koreich and Afikomen, with the following:

<table>
<thead>
<tr>
<th>TYPE</th>
<th>MINIMUM SHIUR</th>
<th>DIMENSIONS</th>
<th>CARBS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hand matzah</td>
<td>one-quarter (1/4) of a</td>
<td>21.7 sq. in. in size.²</td>
<td>9 g</td>
</tr>
<tr>
<td>(round)</td>
<td>matzah</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Machine matzah</td>
<td>one-quarter (1/4) of a</td>
<td>12.25 sq. in. in size.³</td>
<td>8 g</td>
</tr>
<tr>
<td></td>
<td>matzah</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

One who is in good health should eat the following for Achilas Matzah and Afikomen:

<table>
<thead>
<tr>
<th>TYPE</th>
<th>MINIMUM SHIUR</th>
<th>DIMENSIONS</th>
<th>CARBS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hand matzah</td>
<td>one-half (1/2) of a</td>
<td>43.3 sq. in. in size.⁵</td>
<td>18 g</td>
</tr>
<tr>
<td>(round)</td>
<td>matzah</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Machine matzah</td>
<td>one-half (1/2) of a</td>
<td>24.5 sq. in. in size.⁶</td>
<td>15 g</td>
</tr>
<tr>
<td></td>
<td>matzah</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

How to calculate the amount of carbs in Matzah:

Machine Matzah:

Most machine matzah is uniform in size and shape. The portion size and carbs are listed on the box. It might be a good idea to keep the amount that you intend to eat near your plate.

FOOTNOTES APPEAR AT THE END OF THE ARTICLE.
Hand Matzah:

Hand matzah varies according to size and thickness. Our calculations use a Pupa Tzelem hand matzah. Try to arrive at an accurate gram content for the matzah in advance, including possibly weighing it.

For those who prefer to do their own calculation: Matzah has an average carb factor of 0.75 (75% of its weight is carbohydrates). Whole wheat matzah has almost 12 grams of dietary fiber per 100 grams, allowing one to deduct 4 grams per piece.

Hand Matzah:

There are about 10 pieces of matzah per lb. (22 pieces per kilogram). In such a box, each piece weighs approximately 46g and has approximately 35 g of carbs per matzah. Note if there are less matzos in the box, the carb amount per matzah will increase.

Machine Matzah:

One whole machine matzah (rectangular) weighs about 30-35g, which is between 23 and 27g of carbs per matzah (depending upon the brand).

A very thin matzah is approximately 30 grams; a “regular” matzah is approximately 40 grams; a thick matzah is approximately 50 grams.

II. The Arba Kosos (Four Cups)

A. Wine

Cup Requirements: The cup must hold at least a revi’is (3.8 fl. oz., or 112 ml).

Minimum shiur to drink to fulfill Arba Kosos: One must drink at least 1.9 fl. oz. (56 ml) for each of the four cups.

Additional Requirements:

- The lowest percentage of alcohol that may be used for the four cups is 4%.
- One should drink each of the four cups of wine within a span of 30 seconds.

B. Diluting Wine with Grape Juice and Water

Higher carbohydrate wine may be diluted in the maximum ratios listed below. These ratios allow the wine to retain enough of its properties to qualify it being used for the four cups:
NOTE: The diluted beverage should contain at least 4% alcohol to fulfill the obligation of drinking wine at the Seder. If necessary, one may make a mixture of 2/3 water and 1/3 wine (66% water and 34% wine) as long as the diluted amount still contains 4% alcohol. Otherwise, there is a chance that it may no longer be considered wine for the Seder.

The following chart illustrates how much wine to drink:

<table>
<thead>
<tr>
<th>KOS</th>
<th>AMOUNT YOU DRINK</th>
<th>AMOUNT OF WINE AFTER DILUTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>First cup</td>
<td>1.9 oz.</td>
<td>0.7 oz.</td>
</tr>
<tr>
<td>Second cup</td>
<td>1.9 oz.</td>
<td>0.7 oz.</td>
</tr>
<tr>
<td>Third cup</td>
<td>1.9 oz.</td>
<td>0.7 oz.</td>
</tr>
<tr>
<td>Fourth cup</td>
<td>1.9 oz.</td>
<td>0.7 oz.</td>
</tr>
<tr>
<td>TOTAL</td>
<td>7.6 oz.</td>
<td>2.8 oz.</td>
</tr>
</tbody>
</table>

If these guidelines are followed correctly, as seen in the above chart, one’s total consumption of wine at the Seder will be less than 3 fl. oz. One who wishes to estimate the actual amount that he should drink at the Seder should measure the exact amount that he will need before Yom Tov. He should choose the becher (Kiddush cup) that he will be using at the Seder, and pour the measured amount into it so that he can recognize how much he will be drinking.

The following is an example of how to mix wine and water. Assume one has wine with 10% alcohol content. If he makes a mixture of 40% wine and 60% water, he will have wine with 4% alcohol content, which is enough for the Arba Kosos. This can be done by mixing two cups of wine with three cups of water. He could fill a becher that holds at least 3.8 fl. oz. of this wine and water mixture, and drink at least 1.9 fl. oz. (the amount one may drink to fulfill the mitzvah, when medically necessary). Following the fourth cup, he could ask someone else to be motzi him in the bracha acharona.

To prepare in advance, simply pour two cups of wine into an empty bottle or pitcher and add three cups of water. (The size of the measuring cup does not matter. Just make sure that you use the same cup for the water and the wine). It is always advisable to prepare this bottle in advance and label it as your own ‘Special Reserve.’
C. Types of Wine

The best option for the Seder would be a dry wine, which has very few carbs. [Most dry wines contain approximately 4 grams of carbs per 8 oz. cup.]

If the sour taste bothers you, try adding an artificial sweetener that is Kosher for Passover (see list on page 28).

There are also lower carbohydrate sweet wine products which might serve as suitable options.

IMPORTANT: Since alcohol may cause a drop in your blood sugar, discuss with your doctor whether or not to cover the carbs in the wine with insulin. There is more of a chance that wine will cause a low BG (blood glucose) on an empty stomach. If you use pure (unmixed) wine for the first cup, make sure to follow the above guidelines and not overdo your alcohol intake.

Those with Type 2 diabetes should discuss with their health care team and rav whether it is better to drink wine or grape juice. According to Halacha, wine is preferable. Furthermore, grape juice with its high sugar content is not ideal for those with diabetes. However, many of the oral medications used for treating Type 2 diabetes (non-insulin dependent diabetes) are not compatible with alcohol.

Therefore, we suggest showing the wine combination options to your healthcare team. As previously noted, after the dilution the remaining alcohol content of all four cups is not significant. Many healthcare professionals have been very pleased with these dilution options and allow this small total amount of alcohol even with medication.

In addition, those with gestational diabetes (diabetes in pregnancy) or T1, or who are pregnant, should check with their health care team and rav to determine which way to go. Again, show them the charts in order to guide them in their decision.

D. Grape Juice

As noted above, one should use wine or, if necessary, a wine/grape juice combination for the Arba Kosos. If you are unable to drink wine, you may use grape juice instead. If you are unable to drink pure grape juice due to medical reasons for the Arba Kosos (and cannot drink any percentage of wine), you may dilute regular grape juice. When mixing grape juice with water, it is best to make at least 51% of the mixture regular grape juice (i.e., the other 49% is water). In general, “light grape juice” may not be further diluted by the consumer (if there is a necessity, check with the certifying agency). As suggested earlier, you may wish
to prepare a “Special Reserve” mixture before Yom Tov and fill a bottle with 4.1 bechers of grape juice and then four bechers of water. This will suffice for the Arba Kosos for both nights; add more using the same ratio as necessary. Keep in mind that as far as diabetes and carb counting are concerned, dry wine is certainly preferable. If you drink grape juice, note that the carbohydrate content of the various grape juices differs. The juices that we tested ranged from 32 to 60g of carbs per cup. Always check the label to ensure you are consuming the least amount of carbs when combining grape juice with wine and/or water.

NOTE: Kedem’s Concord dark grape juice scored 16 grams of carbs in a 4 oz. serving, while the labels on Kedem’s Sparkling Chardonnay and Catawba list 13 and 12 grams of carbs, respectively, in the same 4 oz. serving.

**Summary Preparation List**

- Remember that failing to prepare is preparing to fail. If you have everything ready ahead of time, you are less likely to run into problems.
- Discuss with your rav the shiurim of rov revi’is and mixing wine with water.
- Select the wine of your choice and check the carb content (remember the meter test).
- Prepare the right size becher.
- Train your eye to recognize the amount that you will be drinking during the Seder.
- Mix wine with water following the instructions of your rav and doctor, and prepare a separate labeled bottle (“Special Reserve”) for this mixture.
- Try to arrive at an accurate measurement for matzah before Yom Tov.
- Prepare your choice of glucose for treating hypoglycemia.
- Review chart and details with your health care team.
- Prepare all medical supplies, medications, and equipment for Yom Tov and Shabbos.
- Remember this year Erev Pesach will be on Shabbos, so prepare for all seudos accordingly.

Finally, remember that Pesach does not have to mean matzah, potatoes and eggs throughout Yom Tov. Instead of high-fat soups and potato kugel, you can substitute other vegetables and vegetable combinations.

JDA has published a cookbook, *EnLITEned Kosher Cooking*, with more than 140 recipes for Pesach, along with year-round recipes that are easily adaptable. A Hebrew version, *BishuLITE*, is now also available.
To order either cookbook, get more information about diabetes, or a list of Pesach recipes from the book, visit www.jewishdiabetes.org.

### III. Other Products Commonly Used on Passover

Today, we are lucky to have a much larger variety of Kosher l’Pesach products. Below, is a list some products with their nutrition facts.

Sugar Substitutes

For list of sugar substitutes see page 28. Note: Powdered Equal, Splenda and NutraSweet are NOT Kosher for Passover and may not be used on Pesach.

1. This means for each mitzvah one eats the designated amount within a 4 minutes span. For example, in case of a medical condition one may eat 1/4 of a machine matzah within a four minute span to fulfill the mitzvah of Achilas Matzah. The same amount within the same span of time should be done for Koreich (with a kezayis of maror) and then for Afikomen.

2. This assumes the whole hand matzah (before it is broken) has a diameter of at least 10.5 inches, which means the entire matzah has an area of 86.6 sq. in. Hence, 1/4 of the matzah equals 21.7 sq. in. This is the minimum shiur for someone with a medical condition. If someone requires shiurim even smaller than this, he should consult his rav. For a discussion of such shiurim, see footnote 107 of R’ Mordechai Frankel’s article, “Halachos of the Pesach Seder” at star-k.org/passover.

3. This assumes a full rectangular machine matzah is 7” x 7”, which means the entire matzah has an area of 49 sq. in., hence, 1/4 of the matzah equals 12.25 sq. in. (This also means that one could eat a piece of matzah that is square, each side with a length and width of 3.5 in.) This is the minimum shiur for someone with a medical condition. It should be noted that Pupa Tzelem hand matzos are generally thinner than machine matzos. Therefore, one needs a larger amount of square inches for hand matzos than for machine matzos.

4. For Koreich see “The Halachos of the Pesach Seder” at star-k.org/passover.

5. This assumes the whole hand matzah (before it was broken) had a diameter of 10.5 in., which means the entire matzah has an area of 86.6 sq. in., hence, 1/2 of the matzah is 43.3 sq. in.

6. This assumes a full rectangular machine matzah is 7” x 7”, which means the entire matzah has an area of 49 sq. in. Hence, 1/2 of the matzah is 24.5 sq. in. (This means one could eat a piece of square matzah that is 5 in. on each side.) Regarding thickness of matzos, see footnote #3.

7. This is to fulfill the obligation of wine. If one cannot drink wine, he can fulfill his obligation with grape juice. This will be discussed later.
ADVICE FOR PEOPLE WITH CELIAC, FOOD ALLERGIES AND GLUTEN-FREE RESTRICTIONS ON PESACH

Margie Pensak, Director of Public & Media Affairs

Yomim Tovim are synonymous with food—and lots of it! During Pesach, the temptation to eat and overeat, perhaps the wrong things for eight straight days, is extra challenging. The good news is that you don’t have to resolve to store away those extra pounds which you will regret just as you store away your Pesach dishes for next year. STAR-K is grateful to Sarah Klugman, RD, of Healthy Bites Nutrition Clinic, in Lakewood, NJ, for sharing her Pesach nutrition advice on which this article is based. They include tips for gluten-free and celiac individuals, as well as those with various food allergies.

Sarah Klugman suggests, ‘Always make Kiddush in the morning. It’s the key to a successful day! Use light grape juice and have a starch or fruit and milk. Regarding when to make Kiddush and how to fulfill Kiddush b’makom seuda, consult your rav. Good ideas are: starch/fruit and milk; fruit and yogurt; fruit and cottage cheese; fruit with hot cocoa made from milk; egg and fruit or ½ matzah with yogurt, milk, or string cheese. Enjoy a piece of cake with a cup of milk, if you choose to have your treat with Kiddush. Have one treat a day. Treats include: one small piece of cake, two small cookies, or a slice of dessert. Save it for the best one! Remember: the Pesach cake doesn’t really taste good!”

On Erev Pesach, eat a healthy snack before shkia, preferably a protein (e.g., a piece of fish, egg, or yogurt) with a vegetable or salad, or take a fruit so you won’t be starving at the Seder night meal.

Regarding matzah during Pesach, the shiur for a kezayis of matzah is discussed on page 116 and on pages 104-105. If you eat one square matzah or ½ round shmura matzah (depending on thickness), this is about 1 oz., equal to 100 calories, a little more than one starch serving. Divide the box weight by the number of ounces per box to figure out the ounces per matzah (1 lb. = 16 oz.). Stick to one matzah / 1 oz. at each meal. That is your starch for the meal, so enjoy protein and veggies (a serving of each) with it.

Go lean with your meats, choosing turkey, cutlets, veal roast, London broil or minute steaks over fattier choices. Stay away from the kugels and starchy sides. Good ideas for appetizers are plated salad which include a bed of romaine lettuce and cherry tomatoes sprinkled with turkey slices. If you are serving fish, have ½ a piece so you can also enjoy half of a serving of the main meat dish. Try to serve a salad and a hot veggie at each meal. Recommended hot veggie ideas

1. The becher should hold at least a revi’is (3.8 fl. oz.) and one must drink at least 1.9 fl. oz. For further discussion, see pages 117-119.
include: zucchini in tomato sauce; grilled vegetables – eggplant, peppers, onions, zucchini; broccoli and cauliflower with sea salt and garlic; roasted baby peppers – spray with oil, sprinkle garlic and roast, and sweet baby carrots cooked in water, drizzled with honey. Vegetable soup or skimmed chicken soup is a great filler.

Celiac individuals, and those who are on gluten-free (GF) diets, should continue to follow their regular dietary guidelines. They can purchase oat matzah – both hand and machine matzah are available certified GF. Those who are not able to eat certified GF oats should consult their rav. Pesach is your "lucky" Yom Tov since you can stock up for the rest of the year on many GF products, such as pastries, macaroons, candies, and more. Most Kosher l’Pesach grocery items are GF since they are non-gebrokts and, therefore, contain no matzah meal or wheat.

Although it is rare, some people have wine/grape juice allergies: they are allergic to sulfites. Sulfites are preservatives used in commercial production and winemaking. They are most commonly found in dried fruits, jams, and juices (lemon juice and grape juice). Sulfite-free organic grape juice, available from Kedem is a great option, as is regular Welch’s grape juice (be sure to check for the hechsher and the ingredients; some varieties don’t have sulfites). Home-brewed wines without sulfites can also be used.

Other food allergies which are particularly challenging to deal with on Pesach, are egg and potato allergies, because so many Yom Tov dishes are made with these ingredients. Most kugels and cakes are made with eggs. Good replacements for cooking and baking include applesauce, mashed banana, avocado, and oil although the texture will not be as smooth. Also, instead of "kugelizing" your vegetables, consider roasted potatoes, mashed potatoes, potato puffs, broccoli bakes and zucchini in tomato sauce. There are recipes for egg-free potato kugels and other kugels, such as those found in, "Allergy-Free at Last", a collection of recipes by Leiba Bibla. It is a great resource and available at your local seforim store.

For those with potato allergies, avoid using potato starch in your recipes; substitute with matzah or cake meal. Use sweet potatoes instead of white potatoes in kugels and side dishes. Good ideas of potato-free side dishes include: apple kugels; apple-cranberry cobbler; butternut squash kugel; quinoa; hot vegetables or vegetable kugels; and sweet potato French fries (very easy to make cut sweet potatoes into sticks and bake). For a nosh, sweet potato chips are available in snack bags.

If a child has multiple allergies and is on an egg, dairy, or nut-free diet, consult a rav prior to Pesach to discuss the option of using kitniyos products (for example, soy products), to ensure the child is meeting their nutritional needs. Purchase and prepare in advance allergy-friendly foods for your child. Composing a child-friendly menu for breakfast, lunch, and supper will ensure that there is both a starch and protein eaten at all meals. If you are serving matzah and eggs (scrambled or hardboiled) for breakfast, a great substitute would be avocado, almond or cashew butter. Here is a sample menu for the egg, dairy and nut-free
child: Breakfast – matzah and avocado; Lunch – meatballs over mashed potatoes, cut-up peppers; Supper – roast with sweet potatoes; vegetable soup.

In closing, exercise is just as important as these Pesach nutrition tips, beginning Erev Pesach (even though it’s such a busy day!). Try to walk/treadmill for 20-30 minutes on Erev Pesach to help your insulin work more efficiently in order to better regulate your blood glucose during the Seder. This is important, since you are eating more carbs than usual which are found in the matzah and wine. And make sure to walk every day!
HALACHOS OF TAKING MEDICINE ON PESACH

Rabbi Dovid Heber, STAR-K Kashrus Administrator

For many years, Rav Gershon Bess has prepared a Guide for Pesach Medications and Cosmetics which was published and distributed by Kollel Los Angeles. A partnership with STAR-K and the Kollel to make this information more widely available to the general public is still going strong after more than a quarter century. The Medications and Cosmetics Guide, available in Jewish bookstores nationwide, serves as an invaluable resource for kosher consumers seeking to purchase these items for Yom Tov.

Sefer Kovetz Halachos (Hilchos Pesach 12:4) states in the name of HaRav Shmuel Kamenetzky, shlita, that lechatchila one should take a medication approved for Pesach and mentions the availability and use of reliable Pesach lists and guides (see Hilchos Pesach, ibid., footnote 5).

The halachos pertaining to medication and cosmetic use on Pesach are based on the joint psak of Rabbi Moshe Heinemann, shlita, and Rav Gershon Bess, shlita. Halachos that appear in other sections of this directory rely on the psak of Rabbi Moshe Heinemann, shlita.

THE MEDICINE LIST DOES NOT ADDRESS KITNIYOS or YEAR-ROUND KASHRUS

Except where indicated, the Medicine List does not address the kosher status of the product, ONLY its chometz-free status. Therefore, products appearing on the list may be both non-kosher and chometz-free. Also note that this brief article does not address the many halachos concerning taking medication on Shabbos and Yom Tov.¹

The Medicine List primarily addresses the “chometz-free” status of a medication. Unless otherwise indicated, it does not address the kitniyos status of the product, since kitniyos is permissible for a choleh and/or is batel b’rov (see page 128).

¹ For a full discussion regarding the laws of taking non-kosher medication during the year, as well as on Shabbos and Yom Tov, see Kashrus Kurrents article ‘A Kashrus Guide to Medications, Vitamins, and Nutritional Supplements’ at www.star-k.org or call our office.
**IMPORTANT GUIDELINES REGARDING MEDICATION USAGE ON PESACH**

No one should refrain from taking any required medication, even if it contains chometz, without first consulting his physician and rav.

All medications for a heart condition, diabetes, abnormal blood pressure, stroke, kidney disease, lung disease, depression, epilepsy, the immune system (transplant anti-rejection), and cancer treatment (including precautionary) may be taken on Pesach.

Furthermore, prescription medication taken on a regular basis for chronic conditions should be changed only with the consultation of your physician. (If you cannot reach your physician, you should continue to take your regular prescription without change.) Some examples of such chronic conditions include: Any psychiatric condition, prostate condition, Crohn’s disease, celiac disease, colitis, high cholesterol, Parkinson’s disease, anemia, Multiple Sclerosis, thyroid condition, and asthma.

**Categories of Cholim**

There are three main categories of cholim that we will address: choleh sheyeish bo sakana, choleh she’ein bo sakana, and mechush or bahree. Each has different halachos with respect to medications on Pesach.

(1) Choleh Sheyeish Bo Sakana: Someone whose life is/may be in danger

L’Halacha, such a choleh may take anything if a substitute is not available. If someone’s life is in danger, or may be in danger, he must take any chometz medication unless an equally effective non-chometz medication is readily available. If an equally effective non-chometz medicine is available, lechatchila it should be taken. If necessary, one may also take chometz medication to prevent a possible sakana. This is true regardless of the form of the medication (i.e., swallowable tablets & caplets / capsules / liquid & chewable tablets). Swallowable tablets or caplets are preferred if readily available. Individuals in a sakana situation should not switch medications and should continue with their regular prescriptions, whether or not they contain chometz, unless a doctor advises otherwise.

This category includes:

- Someone with an infection (except for those skin infections known to be non-life-threatening, e.g., acne) should take prescribed antibiotics. One should finish the course that is prescribed.

- Someone severely ill with COVID-19.
- Someone who has COVID-19 with moderate or severe symptoms of coronavirus and is either elderly, or has underlying medical conditions that cause an increased risk for severe illness from COVID-19 (e.g., diabetes, heart condition, etc.).
- An elderly person with the flu.
- A pregnant woman whose life is at risk (e.g., blood clotting disorder, toxemia) or who is in active labor or in danger of having a miscarriage.
- A woman who has given birth within the past seven days or who has postpartum complications that are or may become life-threatening. This may apply for an extended period of time greater than seven days, depending upon her condition.

Unfortunately, there are individuals who inappropriately discontinue medication for life-threatening conditions during Pesach without consulting a physician, unless the medicine appears on an approved list. This Medicine List provides necessary information for consumers, ensuring that such mistakes are not made.

(2) Choleh She'ein Bo Sakana: Someone whose life is not in danger

Such a choleh may not consume chometz in a normal manner but may eat kitniyos. This includes anyone who is bedridden, noticeably not functioning up to par due to pain or illness, or has a fever which is not potentially life-threatening.

This category also includes:
- Someone recovering from COVID-19 who is weak but no longer in a sakana state.
- One who suffers from chronic debilitating arthritis pain.
- One who suffers from migraine headaches or mild depression.
- A pregnant woman suffering from non-life-threatening complications (e.g., lower back pain).
- A woman who has given birth between 7 and 30 days prior to Yom Tov without any known problems or sakana, or who is experiencing non-life-threatening postpartum complications. This may apply for an extended period of time after 30 days.
- A child under age six with any illness or discomfort.

L’Halacha, such a person may swallow any tablet, caplet or capsule that is manufactured with the intent for the consumer to swallow, regardless of whether or not it contains chometz (unless an equally effective non-chometz medicine is available).

A choleh she’ein bo sakana may consume kitniyos (Mishnah Berurah 453:7) even in a normal manner. Choleh she’ein bo sakana has the same definition in these
cases as it does in Hilchos Shabbos, when taking medication on Shabbos would be permissible (i.e., “nafal l’mita” - ill enough to feel like he needs to go to bed). Therefore, medication in any form (i.e., chewable or swallowable tablet/ capsule/caplet/powder/liquid) may be taken by a choleh she’ein bo sakana if it appears on the approved Pesach Medicine List or if one can determine that it is chometz-free. This is true even if the product contains corn starch or other kitniyos ingredients. Similarly, non-chometz baby formula (e.g., Enfamil) and nutritional products (e.g., Ensure) which contain kitniyos are permissible for use by infants and the elderly since, with regard to this Halacha, such individuals are considered a choleh she’ein bo sakana.

KEILIM NOTE

Products that contain kitniyos should be prepared on disposable or non-chometz utensils. Also, one should purchase new baby bottles for Pesach. These keilim should not be used with Kosher l’Pesach products, and the work area for preparation and rinsing should not be in the Kosher l’Pesach kitchen (i.e., one should use a laundry room or bathroom sink).

Medicine taken by a choleh she’ein bo sakana often lists ingredients that may be derived from chometz. For example, sorbitol – a sweet calorie-free sugar alcohol derived from glucose found in medication, mouthwash, and toothpaste – is often derived from corn but could also come from wheat (e.g., sorbitol from Europe is often chometz-based). There is no way to know its source by reading the label. ‘Gluten-free’ does not necessarily mean chometz-free. For instance, a product with chometz-based sorbitol can still be labeled gluten-free as it no longer contains gluten but is still chometz.

Rav Bess’ research confirms which products are chometz-free, something often impossible for a rav or choleh to ascertain on his own. (See the end of this article for additional details about the research process.)

(3) (slight discomfort) or Bahree (healthy) - A person who has a mechush or is considered bahree may consume only chometz-free and preferably kitniyos-free products.

This Medicine List provides chometz-free information (e.g., identifying which aspirin or ibuprofen brands are approved for Pesach) and often indicates when there is no kitniyos, as well.

One who is experiencing a slight discomfort (e.g., slight joint pain or runny nose), or who is in good health, may take only those products that are chometz-free and not considered kitniyos. As noted above, a medicine that is
'gluten-free' might not necessarily be 'chometz-free.'

If one must chew a tablet or take a liquid medication for minor discomfort, he may do so if it appears on the approved Medicine List or if someone knowledgeable in kashrus can ascertain this by reviewing the ingredients. The medicine should preferably be kitniyos-free. Halachically, it may be permissible to ingest a medication even if it contains kitniyos when the kitniyos are batel b’rov, since shishim is not required (see Mishnah Berurah 453:9).

Since one who has a mechush or is a bahree may not consume kitniyos in a normal fashion (i.e., chew a pleasant tasting kitniyos tablet or kitniyos liquid), he should ascertain that the medication is not only chometz-free but also kitniyos-free (or at least confirm that the kitniyos is batel b’rov).

Furthermore, in most cases information gathered for the Medicine List is not based on a mashgiach inspection of the facility but rather on information provided by the manufacturer. Although, l’Halacha, this information is reliable, nonetheless it is praiseworthy for one who has a mechush or is healthy to refrain from taking medicinal products kederech achila (eaten in a normal manner – e.g., pleasant tasting chewable tablets or liquid) unless these items are certified for Pesach. This Halacha generally also applies to vitamins taken to maintain good health.

---

**Bal Yeira’eh u’Bal Yematzeh**

One can assume there are no bal yeira’eh or bal yematzeh (owning chometz) issues regarding owning any medicine on the chometz-free list. The reason is because we rely upon information provided by the company. Furthermore, if a tablet (not on the approved Medicine List) contains chometz, it is unlikely that there is a kezayis of chometz in the entire container; therefore, there is no prohibition of ownership during Pesach. (See “Guide to Buying Chometz After Pesach” and the “2022 Buying Chometz After Pesach Chart” at star-k.org/passover)

---

**Compiling the Medicine List: How the Information Is Obtained and The Halachic Rationale**

In order to compile the annual Medicine and Cosmetics lists, Rav Bess contacts the company and asks numerous questions. The information is updated anew every year and accepted only when submitted by the company in writing. Rav Moshe Feinstein, zt”l, was of the opinion that one may rely on written information provided by a company (Igros Moshe Y.D. I:55). Additionally, a medicine can be added to the list if it contains only ingredients that are definitively chometz-free.

This system of review is implemented for this project only and would not be relied upon for products certified by STAR-K and other reliable hechsheirim.
When a company is certified by STAR-K, detail-oriented reviews of ingredients, formulations and factories are conducted, and the halachic leniencies of compiling lists based on written responses are not relied upon. Nevertheless, with regard to approved medication, l’Halacha, one may rely upon this information. As indicated in Igros Moshe, we consider the information on the list to be accurate.

Even if one suspects that a company provided inaccurate information (e.g., they could not adequately determine the type of alcohol in use), halachically, additional leniencies that one may rely upon often apply.

A full discussion of these leniencies is beyond the scope of this article but include:

- The halachos that are applied to a choleh.
- The unpleasant taste of a medicine, which according to some opinions, makes its consumption shelo kederech achila.
- Swallowing a tablet made to be swallowed (vs. chewed) is shelo kederech achila.
- A halachic rov (majority) of chometz-free sources may also apply.

STAR-K Kosher Certification is grateful to both Rav Gershon Bess for all of his tireless research, and to Kollel Los Angeles, for providing this Medicine List to a diverse group of kosher consumers who have referred to this guide for decades for reliable Pesach information. This Pesach Guide has benefited many conscientious consumers who require medication and who wish to fulfill the “chumros d’Pesach”. It has also assisted many rabbonim and kashrus professionals who must answer numerous shailos regarding Pesach, thus facilitating a chag kosher vesame’ach for Klal Yisroel.
HALACHOS OF USING COSMETICS AND PERSONAL CARE ITEMS ON PESACH

Rabbi Dovid Heber, STAR-K Kashrus Administrator

In addition to pharmaceutical companies, Rav Gershon Bess also contacts many cosmetic companies and bases the following chometz-free list on his research.

L’Halacha, all non-food items not fit for canine consumption (nifsal mei’achilas kelev i.e., something that one would not feed his dog) may be used on Pesach. This includes all cosmetics, soaps, ointments, and creams. Nonetheless, people have acted stringently with regard to these items.

Below are several reasons why people are strict:

1. Many products, including shaving lotion and perfume, contain denatured alcohol which can be restored to regular alcohol (see Igros Moshe O.C. 3:62). According to some opinions, one should not use such products, if chometz-based (Sefer Kovetz Halachos Pesach Chapter 12, footnote 7 has a brief discussion regarding the different opinions). The list notes products which do not use chometz-based alcohols.

2. The Biur Halacha (326:10 B’shaar) writes in the name of the Gra that one should be strict and not use non-kosher soap all year (sicha k’shtiya). Although we are not accustomed to this stringency, many individuals have adopted this chumra during Pesach and do not permit the use of chometz items even if they are used externally.

3. Some are of the opinion that we do not say “nifsal” (food is unfit for canine consumption) applies to a chometz item that has a good fragrance even if it is a non-food item, since the purpose of having a good fragrance is still being fulfilled. According to this, deodorants, etc. that contain a chometz derivative could not be used on Pesach, even if it is inedible. See Maharam Shick, Orach Chaim 242.

4. Lipstick is often inadvertently ingested when eating food. If it contains chometz, it is halachically permissible to apply to the lips since the lipstick is unfit for canine consumption. Nevertheless, most women prefer not to consume even a trace of anything prohibited. The Pesach list provides chometz-free lipsticks.

5. Mouthwash and Toothpaste contain sorbitol and other ingredients which may be derived from chometz. Although, l’Halacha, these items are permissible to use since they are nifsal mei’achilas kelev, many prefer not to use them since they are taken orally (Sefer Kovetz Halachos Pesach 12:11). The Pesach list provides chometz-free brands of such products.

6. Historically, it has been the custom to follow stringent opinions regarding Hilchos Pesach. In addition, it seems to have been a prevalent custom to restrict the use of items which may contain chometz, even when they are clearly nifsal mei’achilas kelev. The Pesach list provides accurate information for those who wish to continue to follow the more strict opinion and prevailing custom when using such products.

---

1. There are numerous halachos beyond the scope of this article regarding which personal care items and cosmetics may or may not be used on any Shabbos or Yom Tov. For a full discussion, see "The Kashrus, Shabbos, and Pesach Guide to Cosmetics" at star-k.org/passover or call STAR-K.
WHAT TO DO IF CHOMETZ IS FOUND DURING PESACH

Rabbi Mordechai Frankel, Director, The Institute of Halacha at the STAR-K

EREV PESACH (AFTER THE TIME OF BIUR CHOMETZ)

If you find chometz on Erev Pesach after the latest time for biur chometz:

- If you sold your chometz earlier that morning: You should move the chometz that you found to the place that you are storing the chometz that you sold.
- If you did not sell your chometz earlier that morning: You should burn it.

FIRST DAY OF PESACH

- If you find chometz on the first day of Pesach: You should cover it with an utensil.

See below for further instructions for the subsequent days of Pesach.

SECOND DAY OF PESACH

If you find chometz on the second day of Pesach, or if you found chometz on the first day of Pesach and had covered it:

- If you sold your chometz before Pesach, or you said ‘Kol Chamira’ before Pesach, or the chometz that you found was less than a kezayis: You should cover it with a utensil if you find it on the second day, or keep it covered if you had covered it on the previous day.
- If you did not sell your chometz before Pesach and did not say ‘Kol Chamira’ and found more than a kezayis of chometz: You should flush it down the toilet.

See below for further instructions for the subsequent days of Pesach.

SHABBOS CHOL HAMOED

If you find chometz on Shabbos Chol Hamoed, or if you found chometz on the first or second day of Pesach and had covered it and the first day of Chol Hamoed is Shabbos:

- If you sold your chometz before Pesach, or you said ‘Kol Chamira’ before Pesach, or the chometz that you found was less than a kezayis: You should cover it with a utensil if you find it on Shabbos, or keep it covered if you had covered it previously.
- If you did not sell your chometz before Pesach and did not say ‘Kol Chamira’ and found more than a kezayis of chometz: You should flush it down the toilet.
See below for further instructions for the subsequent days of Pesach.

**Weekday Chol Hamoed**

If you find chometz during Chol Hamoed, or found chometz on the first or second day of Pesach and had covered it:

- If you sold your chometz before Pesach: You should move the chometz that you found to the place that you are storing the chometz that you sold.
- If you did not sell your chometz before Pesach: You should burn it.

**Seventh Day of Pesach**

If you find chometz on the seventh day of Pesach: You should cover it with a utensil.

See below for further instructions for the subsequent day of Pesach.

**Eighth Day of Pesach**

If you find chometz on the eighth day of Pesach, or if you found chometz on the seventh day of Pesach and had covered it: You should cover it with a utensil if you find it on the eighth day, or keep it covered if you had covered it on the previous day.

**After Pesach**

If you find chometz after Pesach, or if you found chometz on the seventh or eighth day of Pesach and had covered it:

- If you sold your chometz: You can eat it.
- If you did not sell your chometz, but you did bedikas chometz and said ‘Kol Chamira’ before Pesach: You should dispose of it without deriving any benefit. If doing so will result in a substantial financial loss, it is permitted to derive benefit.
- If you did not sell your chometz, and you either did not do bedikas chometz or did not say ‘Kol Chamira’ before Pesach: You should dispose of it without deriving any benefit.

Note that any automatic deliveries of chometz products should be cancelled before Pesach (for example, Amazon Subscribe and Save). If chometz arrives on Pesach, do not bring it into your house; ask your rav how to proceed.
GUIDELINES FOR HOTEL AND RENTAL HOME GUESTS

Rabbi Zvi Goldberg, STAR-K Kashrus Administrator

The following guidelines are written for hotel guests, but many of the principles apply to rental homes as well.

**Kashering**

A hotel kitchenette requires the same method of kashering for Passover as a home kitchen. One should secure permission from the hotel before kashering.

Ideally, all kasher ing should be completed before the end time for eating chometz on Erev Pesach. Sometimes, a person might not arrive at his hotel room until later on Erev Pesach, or on Chol Hamoed Pesach. Following are guidelines for kashering at that time, using the procedures in the STAR-K Pesach Kitchen Guide.

**Erev Pesach**

An oven and stovetop grates may be kasher ed. A sink may be kasher ed as long as one can ascertain that the sink is aino ben yomo, has not been used with heat for 24 hours prior.1

**Chol Hamoed**

One can kasher only with libun chamur, a blow torch that makes the utensil red hot.2 This is not recommended unless one is specially trained and is, therefore, not practical for most situations.

**Bedikas Chometz**

One who is staying at a hotel and did not bring any chometz into the room should perform bedikas chometz without a bracha.3 Some hotel rooms have a “mini-bar” that is pre-stocked with drinks and snacks by the hotel. If there are food items in the mini-bar which are not Kosher for Passover, one should ensure that the staff removes those items. Alternatively, the mini-bar should be sealed off and the staff informed that the guest bears no responsibility for those items.4 Ice from the icemaker may be used, but the ice bucket in the room should not be used. The coffeemaker also may not be used.

---

1. For example, if the hotel is managed by a frum person, one could ask them for this information. An alternative is to be pogem the sink first, but that process is beyond the scope of this article.
2. Pri Migadim (MZ 452:4)
3. The rooms may be like a makom she’ein machnisim bo chometz. One must also check his car, clothes pockets, and luggage without a bracha. For further discussion, see Piskei Teshuvos 437:1.
4. Otherwise he may have achrayus, responsibility, for the chometz should it be damaged or stolen, and one may not take responsibility for chometz on Passover.
Kiddush

In a hotel there is often a Kiddush before the day meal. To fulfill the mitzvah of Kiddush, one must eat a kezayis of mezonos to create “Kiddush bimakom seuda”. On Pesach, this creates a unique issue since often no gebrots foods are served. The cakes are typically Shebakol, made from potato starch or nut flour and not matzah meal. If there are no Mezonos cakes, or one’s custom is not to eat them, one could fulfill the Kiddush bimakom seuda by drinking a revi’is (3.8 fluid oz) of wine or grape juice. Each person listening to Kiddush must drink this amount. (The one who recites Kiddush should drink at least 5 ¾ oz. (This is slightly more than a half-revi’is to be yotzei Kiddush, and then another revi’is for bimakom seuda of wine or grape juice)5

Electronic Locks and Doors

Although electronic door locks are commonplace, certain hotels, especially those near large Orthodox communities, still have a few rooms set aside that use a key; it is worthwhile to attempt to find these hotels. Electronic card keys may not be used and are muktzah on Shabbos. Hotel guests may leave them at the front desk before Shabbos, and then ask non-Jewish staff members on Shabbos to open their door on Shabbos.6 Some door locks on the inside of the room may appear mechanical, but turning the latch activates an automatic lock which will then move on its own. This should be checked before Shabbos.

When walking into or out of the hotel, one should use manual non-electronic doors. Service or staff doors are likely to be non-electronic and may be available to guests with special authorization. If there are no manual doors, one should wait until a non-Jew opens the electric-eye door with his movement and then proceed through the doorway. Due to the difficulty of coordinating one’s movements with those of another person, caution should be taken to avoid unwittingly activating the door.

Sensors for Lights and Heating/Air-Conditioning

Guests tend to leave the heating and air conditioners running while they are away from the room; therefore, some hotels are installing energy-efficient thermostats. When it senses that the room is unoccupied, the thermostat adjusts the climate to an energy-efficient setting. When the guest opens the door to re-enter the room, the thermostat readjusts to the original setting. The sensor may also turn the lights on or off, depending upon whether or not someone is in the room. It can also alert housekeeping that the room is empty and may be cleaned. One may not stay in such a room on Shabbos unless these sensors are disabled by the staff prior to Shabbos.7 Opening a balcony door may turn off the air-conditioning. If so, one must avoid opening the balcony door on Shabbos.

Hallway and room lights may be motion sensitive to turn on upon entering the

5. Shemiras Shabbos Kehilchasa 54:23, also see Shaar Hatziyun 273:29.

6. As this is a sh’vus d’shvus bimakom mitzvah or Oneg Shabbos, activating the lock mechanism is an issur d’rabanan. One should not ask the non-Jew to open the door for minor reasons.

7. One may inquire with management if covering the sensor before Shabbos will solve this problem.
room. Furthermore, some hotels require the room key to be inserted in a slot in the
room to keep the lights and AC active. When one leaves the room, he removes the key.
As a workaround, one can request from the staff (before Shabbos) to leave his hallway
lights on continuously for Shabbos and to provide him with a key that can be left in the
slot throughout Shabbos.

One must ensure that a light in the refrigerator does not illuminate upon opening
the refrigerator door.

**Bathrooms**

Hotels may be equipped with sinks and toilets that are controlled by an electric eye,
particularly in the lobby. The bathroom may have automated lights that are activated
when the door is opened or one walks into the room. We suggest avoiding hotels
on Shabbos that do not offer a different system.

As always, toilet paper should be prepared before Shabbos. Boxes of tissues should
be checked to ensure that the tissues are separated from one another (some might be
perforated but not separated).

**Security Cameras**

There may be security cameras in the hotel. It is best to avoid being videoed by
such cameras on Shabbos, since the image is projected onto a screen. However, if this is
difficult to avoid and one has no interest in being seen by the cameras, he is permitted
to walk past them.8

**Elevators**

In case of need, one may use a “Shabbos elevator.” The elevator is set up to stop on
each floor and remain open for a short while. Walking through the door while it is open
must not trigger any detectable change. One should enter or exit the elevator as soon
as the door opens. He should not block the elevator doorway, as this will activate the
electric eye.

**Escalators**

These generally may be used on Shabbos. Some escalators are “on-demand” and stop
or are slowed until someone steps on them; others have a counter triggered by breaking
an electric eye sensor. These may not be used on Shabbos.

Please note: The term ‘Shabbos’ in the above article refers to Yom Tov, as well.

For year-round information, see www.STAR-K.org/articles/kashrus-kurrents/501/the-
travelers-halachic-guide-to-hotels.

(also cited in Orchos Shabbos 15, note 55). See also Responsa of Rav Shmuel Wosner quoted
in Orchos Shabbos pg. 513, and Shulchan Shlomo 340: note 12b citing Rav Shlomo Zalman Auerbach.
GUIDE TO BUYING CHOMETZ AFTER PESACH
Rabbi Mordechai Frankel, Director, The Institute of Halacha at STAR-K

See also the Buying Chometz after Pesach chart on page 61.

1. A JEWISH-OWNED STORE THAT DID NOT SELL ITS CHOMETZ TO A NON-JEW BEFORE PESACH

The Torah forbids a Jew to own chometz on Pesach. In order to dissuade people from owning chometz on Pesach, there is a rabbinic injunction not to eat or benefit from chometz which was owned by a Jew during Pesach. Such chometz is known as chometz she’avar olov haPesach, and it remains forbidden permanently.¹

For this reason, one should not buy chometz from a Jewish-owned store immediately after Pesach, unless the owner sold all chometz that he owned before Pesach to a non-Jew for the duration of Pesach and did not acquire any further chometz during Pesach. The laws of mechiras chometz (selling chometz to a non-Jew for Pesach) are complex; therefore, the sale must be made by a competent rabbi or kashrus authority.

If a Jewish-owned store did not sell its chometz for Pesach, may one buy chometz from that store a few weeks after Pesach? It is difficult for the consumer to ascertain whether the chometz was in the store during Pesach and is subsequently forbidden, or whether it came into the store after Pesach and is permitted. Since chometz she’avar olov haPesach is a rabbinic injunction, one can be lenient if there is a reasonable doubt as to whether or not the chometz was in the store during Pesach. (This is because we apply the principle that “safek d’rabanan lekula” – we are lenient when it is uncertain whether or not a rabbinic restriction applies).²

Supermarkets generally have a two week turnaround time. It should be assumed that all chometz sold during the two weeks after Pesach was already in the store on Pesach. Chometz may be bought from a supermarket after that time if it is known that the distributor was non-Jewish. Regarding a store which receives chometz from a Jewish distributor, see below. Other stores, especially smaller ones, may have a longer turnaround time. The turnaround time for alcoholic beverages is longer than that of products in supermarkets. Liquor

¹. Mishnah Berurah 448:25
². See Igros Moshe O.C. 4:96, which distinguishes between small and large Jewish-owned stores.
stores generally maintain inventory for six or seven weeks. One should wait until after Shavuos before purchasing liquor from such a store.

2. A Jewish-owned store that sold its chometz to a non-Jew before Pesach

As mentioned above, a Jew who owns a store can sell his chometz to a non-Jew for the duration of Pesach. If the Jew is observant and does not sell chometz to customers during Pesach, there is no doubt that he really intended to sell his chometz to the non-Jew before Pesach. However, if the owner is not observant and does not close his store for Pesach, it can be argued that he considers the sale of chometz to be a legal fiction and does not have real intent to sell the chometz. Nevertheless, Rav Moshe Feinstein, zt”l, paskens that bedi”eved the sale is valid because legally the chometz no longer belongs to him.3 However, other poskim are stringent.4 Rav Moshe agrees that chometz that the Jewish owner purchased during Pesach is not included in the sale and cannot be eaten after Pesach.

3. A Store Owned by a non-Jew or by a person that may or may not be Jewish

If a privately-held store is owned by a non-Jew, one may buy chometz from that store immediately after Pesach. However, a consumer may not know whether the owner is Jewish or non-Jewish. If the store is located in an area where the majority of people are non-Jews, he may assume that the owner is not Jewish. Unfortunately, even if the owner has a Jewish sounding name, the rate of intermarriage in America is such that the name may no longer provide an indication as to whether or not the person is Jewish.

Some food stores are owned by a number of partners or shareholders who each have stock in the company. If non-Jewish partners or shareholders own a majority of the business, there is no concern of chometz she’avar olov haPesach.5 To the best of our knowledge, the following are currently some of the supermarkets which are majority owned by non-Jews, and chometz may be bought from them in Baltimore immediately after Pesach: BJs, Costco, CVS, Food Lion, Petco, Petsmart, Rite-Aid, Royal Farms, Sam’s Club, Save-A-Lot, Shoppers, Trader Joe’s, Walgreens, Walmart, Wegmans, and Whole Foods. To the best of our knowledge, in Baltimore these stores do not receive chometz from a Jewish distributor (as explained below). For locations outside of Baltimore, the local kashrus organizations should be contacted.

---

3. Igros Moshe O.C. 1:149, 2:91, 4:95
5. Zeicher Yitzchok siman 8
4. A store which receives chometz from a Jewish distributor

How does a supermarket get the food that it sells? A distributor brings the food from the manufacturer to a warehouse from where it is then sent to individual supermarkets. If the distributor is Jewish, and he owned the chometz during Pesach, that food would be forbidden after Pesach. Even if the supermarket is owned by non-Jews, the food would still be forbidden after Pesach as it was owned by a Jew during Pesach.

C&S Wholesale Grocers is a wholesale distributor of food and grocery store items. It is a privately held company and is the largest wholesale grocery supply company in the United States. It currently serves about 5,000 stores in 15 states (including California, Connecticut, Florida, Indiana, Maryland, Massachusetts, New Hampshire, New Jersey, New York, and Pennsylvania). Its customers include Safeway, Target, A&P, Stop & Shop, Giant, Ralphs, Foodtown, and Winn-Dixie. However, STAR-K does not have information regarding specific products that are distributed by C&S or which specific stores are serviced by them.

The company was founded in 1918 by Israel Cohen and Abraham Siegel. It is assumed that the current chairman and CFO is Jewish. In the past, a prominent rabbi arranged the mechiras chometz for C&S distributors. However, as mentioned above according to Rav Moshe Feinstein, zt"l, this sale would not include the chometz that C&S acquired during Pesach. Recently, another prominent posek has been selling the entire company to a non-Jew for the duration of Pesach so that any chometz bought during Pesach would also belong to that non-Jew. While this sale is to be welcomed, it is not without halachic difficulties.

Stores which receive goods from C&S may also work with other non-Jewish distributors, and it is very difficult to determine whether any particular product was distributed by C&S or another company. As mentioned above, safek chometz she’avar olov haPesach is permitted and would include goods which may or may not have been owned by C&S during Pesach. However, if a person has the option of shopping at a store which does not receive goods from a Jewish distributor that may have owned chometz on Pesach, it is commendable to do so until four weeks after Pesach.

There are more than 35,000 supermarkets in America, and it is not possible to know who owns them or distributes to every one of them. A local Orthodox rabbi should be consulted for guidance regarding local stores and supermarkets, as well as resolution of any halachic issues.

---

6. Heard from Rabbi Heinemann, shlit"a.
A&L Foods is a Jewish-owned distributor of kosher food which distributes to Giant and Safeway in Baltimore, Maryland. A&L Foods sells their *chometz* to a non-Jew through the STAR-K. For this reason, various *chometz* products may be purchased immediately after Pesach in these stores in Baltimore. For a complete list of these items, go to star-k.org/passover.

### 5. Buying Bourbon

The Sazerac Company is a privately held alcoholic beverage company. Sazerac is a large distiller distributor company in the United States. Although it produces a variety of alcoholic drinks, the primary focus of its business is bourbon. There is some discussion amongst the *poskim*, and the general consensus is that the prohibition of *chometz she’avar olov haPesach* applies to bourbon. The chairman of Sazerac is Jewish. Since the Sazerac company does not sell its distillery, products sold by the Sazerac company should be considered *chometz she’avar olov haPesach*.

7. A list of their products can be found at http://www.sazerac.com/

See also the Buying *Chometz* after Pesach chart on page 61.
USING AN OVEN ON SHABBOS & YOM TOV

Rabbi Avraham Mushell, STAR-K Kashrus Administrator

Cooking in the modern kitchen is a whole new experience. Technological advances have taken the old stovetop and oven and upgraded them to be safer, more efficient, and “smart” for today’s lifestyle. They are also far more complicated. With these transformations, the observant Jew is faced with challenges that did not confront him in the past.

To understand how these changes affect the halachic use of ovens and cooktops on Shabbos and Yom Tov, it is worthwhile to review some laws and concepts as they relate to cooking on Shabbos and Yom Tov. Before proceeding with our discussion, it is important to review some basic terms and concepts.

DEFINITION OF BASIC TERMS PERTAINING TO FOOD PREPARATION ON SHABBOS AND YOM TOV

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Melacha</td>
<td>A melacha is a Torah prohibited act derived from the constructive acts performed in erecting the Mishkan. These forbidden acts are known as melachos. There are 39 categories of prohibited acts.</td>
</tr>
<tr>
<td>Bishul</td>
<td>Bishul refers to the melacha of cooking. The prohibition of cooking on Shabbos is defined as the act of using heat to make a substance edible or to change its current state.</td>
</tr>
<tr>
<td>Yad Soledes Bo</td>
<td>In order for food to be considered hot, the food must reach a temperature of yad soledes bo (120°F), hot enough to cause one to withdraw their hand due to the heat. If the food will not reach a temperature of yad soledes bo, it is not classified as cooking.</td>
</tr>
<tr>
<td>Ha’avara</td>
<td>Ha’avara is the act of burning. Lighting a flame on Shabbos is prohibited as it is written, “Do not burn fires in your homes on the Shabbos day.”</td>
</tr>
<tr>
<td>Mosif Ha’avara</td>
<td>Adding to an existing flame is also prohibited on Shabbos. This is referred to as Mosif Ha’avara.</td>
</tr>
<tr>
<td>Gram Ha’avara</td>
<td>One may not perform an action that will indirectly cause the flame to ignite. The term for indirectly causing the flame is Gram Ha’avara.</td>
</tr>
</tbody>
</table>

1. Shmos 35:3
| **Aino Mechaven** | One is liable by Torah law for a prohibited action when the result was *intended*. Where one’s intent in performing the physical action is not for the prohibited reaction, they are not liable. This is called *Aino Mechaven*, which literally means that there was no intent to perform the actual *melacha* (e.g., dragging a bench on the ground on Shabbos to bring it to another location is *permitted*, even though it *may* make a groove in the ground [which is the *melacha* of *Choreish*, plowing]). |
| **Psik Reisha** | If the unintended consequence is the *anticipated* outcome of the activity, this is called a *Psik Reisha*. This type of activity is prohibited because it is as if one had *intentionally* performed a prohibited action (e.g., dragging a heavy bench on soft earth where it will *surely* make a groove in the ground). |
| **Psik Reisha d’lo nicha lei** | On Shabbos, when the resulting consequence is neither wanted nor intended, it is classified as a *psik reisha d’lo nicha lei*, which is permitted by Torah law but prohibited by rabbinic law.² |
| **Grama** | The *halachic* interpretation of a *melacha* is the action that one performs which causes a *direct* result. For example, when one strikes a match he directly causes a fire to ignite. When the resulting prohibited action is an *indirect* result of one’s action, it is called a *grama*. For example, setting a mouse trap is a *grama* for the *melacha* of *Tzod* (hunting). A *grama* of a *melacha* is permitted by Torah law but is rabbinically prohibited. **NOTE:** Where there is a combination of factors that individually may have been restricted by rabbinic law, there may be room for leniency when combined. Therefore, where a *grama* will cause a *melacha* to be performed that is *unintended* and *unwanted* on Shabbos (i.e., *lo nicha leih*), the action *may* be performed. This is the basis for allowing one to open a refrigerator door on Shabbos. In such a case, a thermostat will sense the change in temperature and cause the compressor motor to run; this is considered a *grama*. The running of the motor gives off sparks of fire which are not wanted or intended; thus, the *melacha* taking place is *lo nicha lei*. Opening the refrigerator results in a *grama* of an unintended and unwanted *melacha*. In the same vein, one may open an oven door on Shabbos when one removes *all* the food from the oven. The resulting *grama* (i.e., the *melacha* of *Ha’avara*) is unwanted and unintended. |

². *Psik Resha d’lo Nicha Lei asur l’rov harishonim*
Rabbinic Ordinances Regarding Food Preparation

Many rabbinic laws were initiated to prevent one from transgressing the Torah’s prohibitions. They are intended to distance us from what is prohibited, as well as to prevent us from performing actions which can be misconstrued with a prohibited melacha. Here are two important rabbinic prohibitions.

| Prohibition of Shehiyah | One is prohibited to leave the food on or in the place where it will be cooking, even if it was placed there before Shabbos. There is concern that leaving food that is not ready to be eaten on the cooking surface or in an oven may lead one to add to the heat on Shabbos. This is the rabbinic prohibition of Shehiyah. One may not leave uncooked or partially cooked food on/over a heat source before Shabbos. The rabbis were concerned that one may adjust the heat to enhance the food.

In the past, when cooking was performed directly over burning logs, there was a concern that someone might stir the embers which would add oxygen and increase the heat. By stirring the embers, one transgresses two Torah prohibitions: burning a fire on the Shabbos day (Ha’avara), and cooking (Bishul) if the food is not yet cooked.

In order to prevent any wrongdoing, the rabbis decreed that unless the food is edible before Shabbos\(^3\) one may not leave it on the cooktop or in the oven once Shabbos begins, unless the embers are removed or covered to prevent someone from stirring them.\(^4\)

In lieu of covering the coals, we have the custom of placing a blech\(^5\) over the flames before Shabbos. It should be noted that the main function of the blech is to make sure that one does not adjust the fire. Therefore, with a modern oven or cooktop, one should cover the temperature controls in addition to covering the flame with a blech. |

---

3. See Biur Halacha 253:1 Venohagu
4. Garuf v’katum
5. Yiddish for metal sheets
Prohibition of Chazara

Another rabbinic prohibition is Chazara, returning cooked food to the heat source on Shabbos. Even if the food is still hot and fully cooked, one may not return it to an oven or a covered stove unless it was removed with the intention of being returned; it may not leave his hand from the time it was removed to the time it was returned to the heat. This certainly would prohibit taking a cold pre-cooked food and placing it on a blech on Shabbos. This rabbinic decree was instituted because by placing food on the heat it appears as if one is beginning to cook. It is important to note that reheating cooked foods that are liquid or contain liquid may be a transgression of the Torah’s prohibition against cooking on Shabbos. Solid foods that have been fully cooked before Shabbos may be reheated (e.g., kugel or a dry roast) on Shabbos. However, due to the prohibition of Chazara, reheating must be done in a way that cannot be confused with cooking. Therefore, one may place a kugel or challah on top of a pot of food that is on the blech but not on top of the blech itself.

Additional Terms Pertaining to Melacha on Yom Tov

The Ramban explains that the contrast of terms (‘work’ versus ‘laborious work’) used for Shabbos and Yom Tov indicates the difference between melacha in general and meleches Hana’a.

<table>
<thead>
<tr>
<th>Meleches Hana’a</th>
<th>Meleches Hana’a generally refers to activities performed for food preparation and personal needs on Yom Tov.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Meleches Avoda</td>
<td>Meleches Avoda refers to all non-food related activities.</td>
</tr>
<tr>
<td>Molid Aish</td>
<td>Molid Aish refers to the creation of a flame.</td>
</tr>
<tr>
<td>Kibuy</td>
<td>Kibuy refers to extinguishing a flame.</td>
</tr>
<tr>
<td>Gram Kibuy</td>
<td>Gram Kibuy refers to extinguishing a flame through indirect means.</td>
</tr>
</tbody>
</table>
SABBATH MODE: A BRIEF HISTORY AND OVERVIEW

Mr. Jonah Ottensoser, STAR-K Engineering Consultant

Appliance manufacturers, with the aid of modern technology, have designed kitchen appliances to be safer and more efficient while incorporating various features to enhance operation. However, the integration of this technology can pose a challenge to their proper use on Shabbos and Yom Tov.

In 1997, a historic technological project was launched between a major appliance manufacturer and a kosher certification agency, specifically STAR-K. Prior to that time, many of their appliances did not conform to halachic guidelines. Whirlpool Corporation (manufacturer of KitchenAid) approached STAR-K to help modify their ovens for use on Shabbos and Yom Tov. Following some adjustments, a successful mode was developed. Whirlpool called this “Sabbath Mode” and was awarded a patent in 1998 for this concept.

Subsequently, some technologically advanced refrigerators have also acquired Sabbath Mode certification. These will be discussed below as well.

This article is merely an overview of the application of modern technology to appliances and how it affects the Orthodox Jewish consumer. For certified models and guidelines for their proper usage, please check STAR-K’s website at www.star-k.org. They are listed there by company and specific model number.

STAR-K certification on appliances falls into one of two categories:

Sabbath Mode – This includes models with unique software/hardware specifically designed to address halachic concerns for use on Shabbos and Yom Tov.

MARKETING TERMS THAT CAN BE MISLEADING

Two terms are frequently used by appliance companies to market their products that can be downright confusing, even misleading kosher consumers. These are delineated here:

Sabbath Mode – This is a feature that enables the consumer to operate their oven so that they can cook on Yom Tov. Sabbath Mode does not allow the kosher consumer to open the oven door without enabling lights, icons, or sounds. A better term would be Yom Tov Mode. See discussion of Sabbath Mode in the article below.

Warming Drawer – is a small thermostat-controlled appliance that is either part of a range or installed as a standalone unit. Its description as a ‘drawer’ attests only to its convenience but belies its utility as a functioning heating appliance. For accuracy’s sake, it should be called a Warming Oven as it is halachically no different than an oven. STAR-K gets an untold number of calls from consumers who are surprised to discover that a warming ‘drawer’ may not be used on Shabbos.
Sabbath Compliant – This includes simpler models (aka, ‘old fashioned’) that were not built with the more recent innovations (e.g., 12-hour shut-off, digital controls) that now pose halachic concerns for the Sabbath-observant consumer. Consequently, the manufacturer requested an assessment by STAR-K if they could market these models as ‘Sabbath Compliant.’

Designating appliances as either having ‘Sabbath Mode’ or being ‘Sabbath Compliant’ was meant to help the consumer avoid making a purchase that would pose a halachic difficulty on Shabbos and Yom Tov.

It is important to note that not all Sabbath Mode models offer the same features. If you have a STAR-K certified Sabbath Mode oven, please check www.star-k.org to see which features are available on your particular model, or contact STAR-K office at 410-484-4110.

Ovens

Sabbath Mode Ovens

Sabbath Mode ovens are designed to bypass many of the practical and halachic problems posed by the modern oven. When in Sabbath Mode, no lights, digits, solenoids, fans, icons, tones or displays will be activated/modified during normal use.

A safety feature in the newer ovens automatically shuts the oven off after 12 hours of operation. Although this safety feature is very important, it creates a problem when preparing food for the daytime meal which takes place more than 12 hours after the onset of Yom Tov. For all types of Sabbath Mode ovens, the 12-hour cutoff is bypassed.

For Sabbath Mode ovens with the delay feature, one may raise or lower the temperature of the oven on Yom Tov – but not on Shabbos – without affecting the heating element or glow plug. This is because the computer does not directly react to the change in settings. The oven will adjust the setting only after a delay. This means that turning on the heating element or glow plug is a grama – an indirect result of an action. Therefore, since a grama is permitted on Yom Tov, one may actually adjust the temperature on the oven during Yom Tov.

For Sabbath Mode ovens without the delay feature, the temperature may be raised only when power is flowing to the oven and lowered when power is not flowing to the oven, as indicated by the readout on the display.6 (Note: The oven will still have to be set to ‘Sabbath Mode’ to prevent issues with the display.)

IMPORTANT: Sabbath Mode does not permit us to turn these appliances on or off during Shabbos or Yom Tov nor does it allow us to use these appliances completely at will on Shabbos or Yom Tov. Rather, it enables us to use these appliances within the guidelines of Halacha as posted on the STAR-K website.

6. Check the appliance section of our website at www.star-k.org/appliances, or contact our office at 410.484.4110 to determine if your model has the delay.
In most Sabbath Mode ovens, the **door plunger switch** is disabled so that it will not directly cause any electronic reaction. On some of these ovens, the cavity light will remain either on or off, depending upon how Sabbath Mode was entered; the disabled door plunger switch will prevent the oven light from going on/off as the door is opened/closed. In some models without the plunger switch override, the bulb must be unscrewed or the light left on for the duration of Shabbos or Yom Tov.

**Sabbath Compliant Ovens**

Ovens certified as Sabbath Compliant do not have a digital temperature readout. They have the same basic features as those with the Sabbath Mode, except no delay is built into the set temperature change process.

On some models, adjustment of the set temperature may be possible on Yom Tov provided they have an indicator light that cycles on/off as power flows to the heating elements. One can raise the temperature when the light is **on** and lower it when it is **off**. On Sabbath compliant models that do not have a cycling indicator light, the set temperature selected before Yom Tov cannot be adjusted on Yom Tov. STAR-K’s website has details about specific Sabbath Compliant models.

**Timed Bake Feature**

Some ovens can be programmed to turn off at a preset time. This feature is known as Timed Bake. In many models, when the time has elapsed and the oven shuts off, it will either sound a bell/buzzer that displays an icon or readout (such as the word **END**) to indicate that the oven is off. On some oven models, the sound will chime indefinitely and the light will stay on until it is manually turned off or until the door is opened, which cannot be done on Shabbos or Yom Tov. On Sabbath Mode oven models that include the Timed Bake feature, the buzzer or readout is eliminated.

(NOTE: Once Timed Bake goes off, the oven cannot be used again for the duration of Yom Tov.)

STAR-K’s website lists models that have the Timed Bake feature without these drawbacks when in Sabbath Mode.

**Warming Drawers**

Warming drawers should be treated as standard ovens, since they present the same issues. They are thermostatically controlled, and their lowest temperature is often above 120°F (**yad soledes bo**). As is the case with standard ovens, all food must be placed in the warming drawer before the start of Shabbos.

**Power Failures – IMPORTANT NOTE**

**Note**: For safety reasons, most ovens will not return to an operational state after a power failure. In some cases it may not resume Sabbath mode. Some exceptions are noted on STAR-K’s website.
Smart Refrigerators

Not to be left out in the cold, refrigerators have also succumbed to the incorporation of modern technology. Additionally, there are old issues which still require resolution that include when to open the refrigerator door on Shabbos and what to do about heating elements that turn on to defrost the coils. STAR-K has developed a set of criteria through which the latest technological advancements are employed to alleviate these problems.

Upon entering the certified mode (referred to as either ‘Sabbath’ or ‘Holiday’ mode), the consumer need not worry about lights, digits, icons, tones, alarms, solenoids or fans being activated/deactivated when opening or closing the door. Furthermore:

- A built-in delay prevents the compressor from turning on immediately after the door is opened.
- The defrost cycle operates solely on clock time, without any feedback from the consumer’s use of the refrigerator. (Some manufacturers control the defrost cycle by actually counting the number and length of door openings, which may present a halachic problem.)
- Finally, the ice and cold water systems are deactivated since they invariably use electrical solenoids and motors to function.
- After a power failure, units are returned to the certified mode.

Now that we have defined halachic terminology, discussed some of the basic principles of warming food on Shabbos and Yom Tov, and reviewed Sabbath Mode, let us begin by examining what happens in practice when using an oven or warming drawer on Shabbos.

Oven Use on Shabbos
Rabbi Avraham Mushell

Ovens and Warming Drawers

As previously noted, aside from the prohibition of cooking on Shabbos, there is a prohibition against initiating a fire or causing increased burning. In the case of thermostatically controlled ovens and warming drawers, opening the oven or warming drawer will cause a mechanism to increase burning in order to compensate for the loss of heat by opening the door or drawer. The resulting effect is a grama of Ha’avara, which is not permissible on Shabbos. However, as explained earlier, where one does not want or intend for an action to take place and has no need for its result, the initial action is prohibited by rabbinic law only. When coupled with the fact that the ensuing melacha is a reaction that was brought about indirectly and initiated through a grama, there is room for leniency and the initial action is permitted.

Therefore, food left in the oven or warming drawer from before Shabbos may be removed on Shabbos despite the fact that this action will eventually cause the
oven to produce additional heat. This is because removing the food results in additional burning that is not wanted or intended. However, this can be said only when all of the food is removed at one time. If some food remains in the oven to be heated, the additional burning caused by opening the door is viewed as intentional and is, therefore, prohibited. Most warming drawers and ovens are thermostatically controlled and would fall into the above category.

If a warming drawer is not controlled by a thermostat, one must check with the manufacturer to be sure that opening the drawer will not turn off the heating element. As per the rule regarding stovetop controls and the rabbinic laws of Shehiyah, if there are multiple temperature settings, the temperature controls must be covered to prevent one from changing the setting on Shabbos. Even when the warming drawer is not controlled by a thermostat and opening the drawer will not affect the flow of power to the heating element, one cannot place food into the warming drawer on Shabbos if its operating temperature is higher than yad soledes, 120°F. This is prohibited under the laws of Chazara.

**Induction Cooktops**

An induction cooktop heats ferrous metals using strong magnetic fields. By placing or removing an iron vessel on the induction cooktop, one will initiate or stop the process of heating the metal. Therefore, induction cooktops should not be used on Shabbos or Yom Tov.

**Sabbath Mode Ovens**

Due to the halachic complications resulting from technological innovations, STAR-K has been working with some manufacturers to design ovens that meet the needs of the Sabbath-observant consumer. Popular features found in many new ovens that pose a problem on Shabbos or Yom Tov include: 12-hour safety cutoffs; lights, icons and temperature displays that may be turned on or off by opening the oven door; and timed bake features that must be manually turned off in order to silence the buzzer. In STAR-K certified models, many of these features are disabled.

Some Sabbath Mode features, such as temperature adjustment, are quite practical and allow for easier use of the ovens on Yom Tov when restrictions of cooking and burning are lifted under prescribed conditions. However, the Sabbath Mode features do not in any way circumvent the regular restrictions involved in food preparation on Shabbos Kodesh. The laws of Bishul, Ha’avara, Shehiyah, and Chazara must still be observed even when using a Sabbath Mode oven. Please note that the Sabbath Mode programming is limited to ovens and does not apply to the use of the stovetops. Some exceptions are listed on the STAR-K website.
OVEN USE ON YOM TOV
Rabbi Avraham Mushell

Yom Tov celebrations could never be complete without the traditional piping hot delicacies from past generations. However, the kosher homemaker must be well educated on how to prepare Yom Tov meals without fear of transgressing a Torah or rabbinic prohibition. We will start by discussing the different conceptions of ‘work’ as they relate to Yom Tov, and how they are similar to or different from Shabbos.

‘Work’ On Shabbos Vs. Yom Tov

The Torah mentions the prohibition of work on Shabbos as follows, “Do not do any melacha (i.e, work prohibited on Shabbos).”7 This prohibition refers to Meleches Avoda, namely, any work performed for either food preparation or general labor purposes. In contrast, when stating the prohibition of melacha on Yom Tov, the Torah qualifies the prohibition by writing, “You shall not do laborious work.”8 The Torah issues the commandments associated with the Yom Tov of Pesach by stating, “No work may be done on them (first and seventh day of Pesach), except for what must be eaten for any person, only that may be done for you” (Shmos 22:16).

The Ramban explains that the contrast of terms (‘work’ versus ‘laborious work’) used for Shabbos and Yom Tov indicates the difference between melacha in general (otherwise referred to as Meleches Avoda) and Meleches Hana’a. Meleches Hana’a is work performed to prepare food and for personal comfort. Where the Torah commands us about the laws of Pesach, the term Meleches Avoda is not used in the prohibition. However, the Torah immediately includes the clause allowing melacha for food preparation.

This being said, please note that not every melacha may be performed for the purpose of food preparation. Only those melachos which could not have been performed before Yom Tov with the same result may be performed on Yom Tov. Therefore, one may not originate a flame on Yom Tov since one could have left a fire burning from before Yom Tov. The prohibition of starting a new flame is referred to as Molid, giving birth to a new entity.

Melachos which are commonly performed for bulk processing of food (e.g., harvesting and grinding) are prohibited on Yom Tov. Melachos regarding the processing of bread, from the kneading of the dough and onward, are permitted on Yom Tov. Any processes that occur before kneading (e.g., sifting and grinding) are prohibited. The focus of this article deals primarily with melachos associated with cooking on Yom Tov (i.e., cooking, burning of a flame) and extinguishing a flame. It is important to note that melachos permitted for food preparation or other Yom Tov necessities may be performed only if the intent is to derive benefit from action on

7. Shmos 20:9, Devarim 5:13
8. Vayikra 23:7
Yom Tov. One may not cook food on Yom Tov for use after Yom Tov. In fact, one may not cook food on the first day of Yom Tov for consumption on the second day of Yom Tov. This is because the second day is a holiday by rabbinic law only.

Therefore, one must be sure not to engage in any melacha for the second day until the first day has passed and the next night has begun.9

With these halachos in mind, let’s take a look at how the rules of Bishul on Yom Tov apply when we set the controls of our ovens and cooktops for Yom Tov.

**Electric Cooktop**

Turning on an electric stovetop to warm food will initiate the flow of electricity to the burner. This is called Molid Aish. Halachic authorities have determined that electricity used as heat or light is considered fire. Consequently, by turning on the burner one is creating a new fire. This action could have been performed before Yom Tov and is prohibited because of Molid Aish. Turning the dial on an electric stovetop may also initiate a light or icon on a control panel which would otherwise be turned off. This may be a transgression of the melacha of Kosev, writing, as well as Molid.

Even when the electric burner is left on from before Yom Tov, if one wishes to adjust the temperature of the burner there is further reason for concern. This is because as a rule one does not know if there is an electric current running to the element at the time he makes the adjustment. Even when an indicator light displays that a burner is turned on, this may not attest to electricity flowing to the burner at that particular moment. Rather, it may indicate that the element is set to maintain the desired temperature adjustment by turning on and off at predetermined intervals. As a result, when one adjusts the temperature upwards on Yom Tov he may be initiating the flow of electricity at a time that it was otherwise not flowing. As previously noted, this is prohibited due to Molid.

To circumvent this prohibition, an electrician can attach a current indicator light that is activated by the actual flow of electricity to the burner.10 This would show whether or not current is flowing to the burner. When electricity is flowing, one may raise the temperature in order to enhance cooking.

Lowering the heat setting on an electric stovetop on Yom Tov is also not without its halachic ramifications. We know that extinguishing a burning log constitutes the melacha of Kibuy.

Lowering the heat setting of a stove on Yom Tov may be associated with the melacha of Kibuy. Therefore, this can be done only when it is for the benefit of the food so that it will remain warm but not burn. One may not turn off the burner completely. If there is a current indicator light showing when power is flowing to the burner, one must be careful to lower the burner only when the indicator light is off.

---

9. We consider it to be right after tzeis hakochavim.
10. Please note that this may nullify a warranty.
NOTE: Most stovetops that are supplemented with a Sabbath Mode oven have not been engineered to allow the adjustment of the stovetop temperature. The stovetop must be treated as a conventional cooktop, as described above. (See specific model listings for some exceptions.)

Induction cooktops use electricity to create a magnetic field that will heat ferrous metal. These units react to the placing or removing of a pot onto the cooking surface and, therefore, cannot be used on Shabbos or Yom Tov.

**Sensi-Temp Burners**

GE coils with Sensi-Temp technology use a sensor to reduce the risk of cooking fires. The sensor detects the temperature of your cookware. If the cookware gets hot enough to ignite oil, the coil shuts off. Once the cookware cools down to a safe temperature, the burner cycles back on.

A heat-sensitive Sensi-Temp burner may be used on Shabbos/Yom Tov in the same manner the burner was used before Sensi-Temp was installed. On Shabbos, however, if a pot of food on a **blech** is removed, it may not be returned to the **blech** even if all the criteria of returning (**Chazara**) are met. This is because the returned pot will likely lower the temperature of the **blech** and cause the burner to cycle back on sooner.

**Gas Cooktop**

Not so long ago, the standard gas cooktop had a pilot light which was a constantly burning flame from which the burner drew its fire. If one has such a cooktop, he may turn on a burner during Yom Tov as he will not be initiating a flame. Due to safety concerns, however, the old pilot flame models have been phased out. Instead, cooktops are now fitted with electronic igniters which spark at the base of the burner to ignite the flame; these are prohibited on Yom Tov. One may turn on a burner only if he can do so without causing the electronic igniters to engage. If it is possible to activate the gas flow without engaging the electronic igniter, the burner may be lit by holding a pre-existing flame to the burner (from a candle or a match lit from another burner) when turning on the gas. The easiest option would be to turn on the burner before Yom Tov. It goes without saying that one may increase an existing flame on Yom Tov when necessary for food preparation.

As is the case with an electric stovetop, one can only lower the flame on a gas burner when doing so is for the benefit of the food. An example of this is keeping the food warm while preventing it from burning. However, one may not turn off the flame completely.

**Electric Ovens**

As with cooktops, one is forbidden to directly initiate a fire or heat to an electric coil due to the prohibition of **molid**. If the oven was turned on before Yom Tov...
Tov, the temperature setting may be raised as necessary for cooking if one is sure that electricity is flowing to the element at that time or there is no digital readout. Also, one may not cause a light or icon to go on during Yom Tov. If a light goes off and on indicating when power is flowing to the heating element, then the temperature may be raised when the light is on.

Generally speaking, one may lower the oven temperature provided it is necessary for food preparation for Yom Tov and a light or icon will not turn off when doing so.

If an indicator light displays when power flows to the oven, one may lower the oven temperature when power is not flowing (indicator light is off) even if it is not needed for the food.

Some Sabbath Mode ovens are designed to work on a delay when in Sabbath Mode, and the display will not change. Furthermore, this feature permits raising the temperature on Yom Tov at any time, regardless of when power is flowing to the oven. This is because when one adjusts the dial or keypad, it is not directly causing the temperature of the oven to change. Therefore, this action is considered a grama, an indirect action, which will cause the temperature to be raised. Even with these types of ovens, it is better to lower the temperature only when necessary for food preparation or enjoyment of the Yom Tov. (Other features of Sabbath Mode ovens are discussed later in this article.)

**Gas Ovens**

Older ovens were ignited with a pilot light. As explained earlier, this is a small flame from which the oven drew its fire when turned on. In halachic terms, this allowed the user to turn on the oven during Yom Tov without a question of transgressing the prohibition of Molid.

As with gas cooktops, new ovens are equipped with electronic igniters commonly known as a glow plug. When turning on the oven, the power to the glow plug is initiated. When the glow plug is hot enough, gas begins to flow and starts the flame. When the oven chamber reaches the temperature set by the thermostat, it turns off the flow of gas and electricity. As the chamber loses heat, the oven restarts the glow plug which in turn restarts the gas in order to bring the chamber back to the required temperature. Since one may not directly initiate the flow of electricity to the glow plug during Yom Tov, he must turn on the oven before Yom Tov.

When raising the temperature of the oven during Yom Tov, one must be sure that he is not initiating the electric current to the glow plug. Therefore, if one sees the glow plug glowing (detectable because it gives a bright orange light, which can be seen through the side vents on the floor of the oven) or if the flame is on, one may raise the temperature. As discussed earlier with regard to stovetops, one may lower the oven setting only when needed in order to benefit the food. It is important to note that some ovens will display a digital readout of the temperature when it is raised or lowered. This would pose a halachic question of writing and erasing, both of which are prohibited acts on Yom Tov.
COMMONLY ASKED QUESTIONS

Now that we have reviewed the basic rules, let us look at some frequently asked questions about oven and stovetop use on Shabbos. The responses have been provided by Rabbi Moshe Heinemann, shlita, STAR-K Rabbinic Administrator.

Q. I have a smooth-top electric stove. The manufacturer says that this should not be covered or it will crack. Can I leave my food on the smooth cooktop on Shabbos without a blech?

A. It is customary to cover the heat source, as was done in the past when one cooked directly on embers. The concern at that time was to prevent stirring the embers to add heat. As noted earlier in the introduction, today the primary concern is that one should not try to raise the heat so that the food will cook faster. When one cannot place a blech on the stovetop, it is sufficient to cover the controls and leave the cooked food on the stovetop.

Q. During Shabbos, may I adjust the temperature of an oven that has a Sabbath Mode feature?

A. No! The temperature adjustment feature in the Sabbath Mode oven is for Yom Tov use only. (This issue is addressed in the Kosher Kurrents article entitled, “Oven Kosher: For Yom Tov Use.”) On Shabbos, one may not adjust the temperature as this would cause the fire to burn or be extinguished. The Sabbath Mode does not permit one to place food in the oven to cook or reheat on Shabbos.

Q. May I leave cooked food inside an oven that was turned on before Shabbos?

A. Yes. However, due to Shehiyah the controls for the oven should be covered or taped. It is customary to cook all food before Shabbos to the point that it is edible for the average individual.

Q. May I take out some food from the oven and leave the rest to remove later?

A. No. When one opens the oven door, he is letting cool air into the cavity. The thermostat will sense the loss of heat and compensate for it through additional burning; when one opens the oven door, he indirectly causes additional burning. This is a gram ha’avara which is rabbinically prohibited. Normally one does not want the heating element to go back on if the oven is empty. Even though opening the oven door will cause the element to burn longer, this is an unintended action. On the contrary, it is a needless waste of gas or electricity. This is considered a psik reisha d’lo nicha lei. Although we do not allow a psik reisha d’lo nicha lei on a Torah prohibition, this action occurs indirectly as a gram and is only a rabbinic prohibition.11 Thus, when there are a combination of factors (e.g., a gram on a psik reisha d’lo nicha lei) it is permitted.

If one leaves food in the oven after the door has been opened, he obviously wants

---

11. Also, it is a melacha she’eino tz’richa legufo.
the oven to go back on. This is prohibited as a *psik reisha d’nicha lei*, as if one intended to cause the fire to burn longer. If one accidentally opens the oven door, all of the food must be removed and the oven door cannot be opened again during Shabbos.

Q. My oven and warming drawer have a delayed start timer feature. May I set it to turn on Shabbos morning and place the food to be heated there on Shabbos before the pre-determined time?
A. No. Food may not be placed in the oven on Shabbos.

Q. May I open my oven to remove food on Shabbos?
A. First, one must be sure that opening the oven door does not trigger a light, icon or electrical switch or flame to go on or off. In the case of convection ovens, opening the door may cause the circulating fan to go off. Even though these actions are not intended, they are prohibited as if there was intent since this is an automatic consequence. If opening the oven door does not automatically set off an electrical reaction, then one may do so in order to remove food on Shabbos, provided that all the food is removed at that time.

**NOTE:** The oven door is commonly designed with a plunger switch that turns on lights or icons as the door is opened. If this plunger switch is disabled, it may prevent any prohibited reactions. Some STAR-K Sabbath Mode ovens have a feature that disables all icons, lights or signals that allows the oven door to be opened on Shabbos and Yom Tov.

Q. May I use a warming drawer on Shabbos?
A. As discussed earlier, one may not put food into a warming drawer on Shabbos. Most warming drawers are regulated by a thermostat, which renders them *halachically* identical to a regular oven. When you open the drawer to place the food inside, you will cause the burner to go on and compensate for the heat loss that was created. By keeping food in the drawer, one is clearly desiring this extra heat. This is prohibited on Shabbos.\(^{12}\) If the food was placed in the drawer before Shabbos, a warming drawer must be *completely* emptied the first time it is opened.

A warming drawer with adjustable temperature settings that include temperatures over *yad soledes* (120°F) is like an oven, as it has the same restrictions as an oven and its controls must be covered. If the warming drawer’s settings are all below *yad soledes* then there is no *gezeira* (rabbinic prohibition) to cover the controls. However, one may not change the setting on Shabbos.

Q. Why is one allowed to push a button on the keypad of a Sabbath Mode oven on Yom Tov?
A. Pushing any button on an oven in Sabbath mode starts a process internal to the computer without any heat, light, sound, movement or anything tangible

---

\(^{12}\) *Psik Reisha* on the burning
that can be perceived. This is not considered a melacha and is permitted on Yom Tov. When a melacha is finally accomplished, such as turning on the heating element in the oven, it is done through a grama (an indirect act) because there is a delay of 15-25 seconds before the heating elements can be activated. This grama is permitted on Yom Tov but not on Shabbos.

Q. Can one turn on a Sabbath Mode oven on Yom Tov or Shabbos?
A. No. This is because it directly causes the display to change, which is prohibited.

Q. Can I set the Timed Bake feature on Yom Tov?
A. No. For those ovens that have the Timed Bake feature included in the Sabbath Mode, it can be set only before Yom Tov. This will allow for one-time usage. Once the oven shuts off, it cannot be used again for the remainder of that Yom Tov. Timed Bake mode may not be set on Yom Tov, and certainly not on Shabbos.

Q. May one turn off the stove or oven to conserve energy on Yom Tov?
A. No. One is only permitted to lower the setting when necessary to benefit food preparation for Yom Tov.

Q. May one lower the setting on a Sabbath Mode oven even when it is not for the benefit of the food?
A. Sabbath Mode ovens that are equipped with a delay may be lowered on Yom Tov. This is because the reaction of the oven in lowering the temperature is the result of a grama (indirect action). Extinguishing or lowering a flame is permitted on Yom Tov only when it is needed for food. However, the restriction applies where one directly performs the action of Kibuy. In this case, when the computer lowers the temperature after a pre-programmed delay in response to one’s instructions, it is called gram Kibuy and it is permitted.

Q. Can I open and close a standard oven door at any time on Yom Tov?
A. On Yom Tov, one may open and close the door of an oven in order to handle the food as needed, provided doing so does not cause a light or icon to go on as a direct result. On Shabbos, there is a problem with opening the oven door because it will cause additional burning in the oven. This is prohibited on Shabbos13 but permitted on Yom Tov.

13. On Shabbos, while the oven is operating, the door may be opened once and all the food removed; the door may then be closed. For further information about oven usage on Shabbos, see “Oven Kashrus: For Shabbos Use” on our website at www.star-k.org.
When shopping for a new appliance, it is worth considering the different features each one offers and whether they meet your needs regarding Shabbos and Yom Tov use. Here are some suggestions and considerations to help you make the best decision for your needs.

**Advice re: cooktops**

- Electric smoothtops may present a problem of kashering for Pesach. Check with your rav.
- Electric cooktops may pose a problem with adjusting the temperature on Yom Tov.
- Electronic ignition may pose a problem with initiating a flame on Yom Tov.
- Some cooktops (gas or electric) have knobs that light up when the burner is turned on, and on some of these cooktops an illuminated ring displays on the knob itself. Some knobs are backlit with a soft glow to indicate an ‘On’ setting, and some knobs offer progressive illumination that adjusts to indicate the burner setting. These types of knobs pose a problem.
- Additionally, be aware that some high-end cooktops offer a ‘simmer’ and ‘regular’ setting for each burner and that you cannot switch between these on Yom Tov. **Some simmer burners also have indicator lights that are triggered when you switch to that mode.** If you want to have burners that do both, you will need to leave on two burners, each one dedicated to a single setting.
- Avoid electronic controls. After a power failure, these units will probably stay off.
- Avoid induction cooktops. They work well but are not usable on Shabbos or Yom Tov.
- When remodeling a kitchen with a separate gas cooktop, it is advisable to install it with a separate ‘kill’ switch to let you cut power to the appliance at will. Before Shabbos or Yom Tov, this switch should be turned off to allow you to transfer a pre-existing flame to light the burner without involving the electrical ignition.
Advice Re: Ovens

12-Hour Cutoff Feature

- The oven should allow you to disable or override this feature for Shabbos or Yom Tov use.

Temperature Adjustment on Yom Tov

- If you want to change the temperature of the oven during Yom Tov, the display readout should not change and no tones should be activated.
- To adjust the temperature, you must either know when power (i.e., gas or electric) cycles to the oven or there must be a built-in delay (i.e., a grama).
- Please note that not all indicator lights display when power is actually cycling to the oven. In some cases, they might indicate only that the oven is on.

Opening the Oven Door

- Should not activate any tones or icons.
- Should not activate or deactivate any heating elements. (Listen for relays clicking or note if a power indicator light goes on immediately).
- If light in the oven cavity is activated by opening the door, you should be able to either loosen the bulb or leave on the light for the duration of Shabbos or Yom Tov by activating the ‘Light’ button on the display panel.

Timed Bake

- If Timed Bake is desired (e.g., for Friday night or the first night of Yom Tov), check to make sure that no icons, tones or displays are canceled when the door is opened and that a buzzer does not need to be manually turned off. (Just remember: Once the Timed Bake goes off, the oven cannot be used again for the duration of Yom Tov.)

Advice Re: Warming Drawers

- Warming drawers have the same issues as ovens (timed cut-off, temperature adjustment on Yom Tov, opening the door, Timed Bake) because they are thermostatically controlled. Many warming drawers cannot be set for temperatures below 120°F (yad soledes). Check with your rav for proper use of warming drawers on Shabbos.

General Recommendations for Ovens/Warming Drawers:

- Simpler is better.
- It is highly recommended that you download the Sabbath Mode information before purchasing any appliance and carefully review all the instructions. Make sure you understand the steps involved and determine if you are willing to follow them precisely before each Shabbos/Yom Tov.
Note that some models are more complex than others. Be sure that you are comfortable with the instructions that accompany the model you are purchasing. Also note that many manufacturers no longer provide manuals with their product; they expect the consumer to access all the information online. It is vital that you do your homework before buying any appliance.

- Before purchasing any cooking appliance, it is best to view the actual item in the store.
- Gas is recommended over electric.
- If a company advertises that its oven has a Sabbath Mode feature, make sure it includes more than the 12-hour cut-off override; otherwise, see potential problems above. Also, make sure there is a competent halachic authority behind the Sabbath Mode to endorse it. To verify that your product has a STAR-K certified Sabbath Mode, you can search for your model number in the appliance section of STAR-K’s website at www.star-k.org or call STAR-K office at 410-484-4110.
- Avoid “slew controls” – i.e., use of an up/down arrow – to set the temperature. Stick to knobs or number pads.
- Before using your new oven for the first time, be sure to wash the racks and interior of the oven thoroughly with warm water and soap to remove any oil residue.
- If you are using an app on your smartphone to control your appliances, it is recommended that you turn off your smartphone before Shabbos/Yom Tov to preclude any communication between the appliance and phone.
- Visit the STAR-K website at www.star-k.org for lists of oven products under STAR-K certification. See also list of STAR-K-certified appliance companies at the end of this section.

Advice Re: Dishwashers

- When remodeling a kitchen with a new dishwasher, it is advisable to have it installed with a separate ‘kill’ switch to let you cut power to the appliance at will. Before Shabbos or Yom Tov, this switch should be turned off to allow you to open and close the dishwasher without triggering any lights or icons.

Advice Re: Refrigerators

Opening the Refrigerator/Freezer Door:

- Should not cause circulation fans to go on/off. (Check to see if the fan runs with an open door. If it does not, press down door plunger switch
and listen to detect if the fan goes on. Some models have two door plunger switches - one for the light and another for the fan motor.)

- Should not activate any tones or digital readouts (e.g., door ajar icons, cabinet temperature and settings).
- Should not affect defrost cycle. (Defrost cycle should not be dependent upon the number of times you open the door and how long you keep it open.)
- Light in refrigerator cavity should be deactivated, either by unscrewing the bulb or taping down the light switch. Check to make sure there are no other lights (e.g., door lights) that are turned on when the door is opened. See CAUTION about disabling door switches below.

**CAUTION: DISABLING DOOR SWITCHES**

Taping or otherwise holding down the door plunger switch to avoid these problems will cause the refrigerator to operate less efficiently (the cavity temperature will be higher than expected). In hot, humid climates the compressor may run continuously, which may shorten its operating lifetime. Always remember to remove the tape or other hold-down device once Shabbos/Yom Tov ends.

Numerous models are now using magnetic door switches instead of the mechanical spring plunger switches. If you already own such a model, you may disable it by locating the switch with a strong magnet and then taping the magnet over it. The magnet must be flat enough to not interfere with the proper sealing of the door gasket when you close the fridge.

To locate the switch, check the outside top of the refrigerator. You may find either a plunger switch or a magnetic switch somewhere along the refrigerator’s inside frame, around the sides or at the top of the fridge.

---

**Freezer “Whoosh” Sound: The Science of Air Density – Not an Issue**

There are times when you may hear a “whoosh” sound when closing your freezer door. The reason for this sound has a simple scientific explanation. When the freezer door is opened, cold air escapes from the freezer and is replaced by warmer, lighter (i.e., less dense) air. When the door is closed, the warmer air trapped inside cools and becomes denser. The newly cooled air takes up less space than when it was warm and creates a vacuum inside the freezer. This vacuum then causes outside air to be sucked into the freezer through the door gasket to restore the equilibrium inside the freezer, creating the telltale “whooshing” sound.

This process does not present any halachic problems for Shabbos or Yom Tov.
General Recommendations for Refrigerators:

- Simpler is better.
- Test the unit at the store before purchasing.

Other Issues:

**Automatic Ice Makers** – Lift the hanger bar to an off position before Shabbos or Yom Tov to ensure that nothing is activated by removing ice.

**Ice and Cold-Water Dispensers** – Should not be used on Shabbos or Yom Tov because it directly turns on a valve and/or motor.

**Motion Detectors** – Problematic for Shabbos and Yom Tov because the refrigerator is illuminated when one approaches it.

**Smart Technology** – If you are using an app on your smartphone to control your refrigerator, it is recommended that you **turn off your smartphone before Shabbos/Yom Tov** to preclude any communication between the appliance and the phone.

**Assisted or Automatic Door Openers** - These can currently be found on the market and may involve electronic components that should not be used on Shabbos or Yom Tov. Test these features by unplugging the refrigerator to see if the opening-assist changes. Alternately, check to see if this feature can easily be deactivated.

**Temperature and Open Door Alarms** - May present Shabbos and Yom Tov issues. Check to see if they can be disabled.

**Avoid Temperature Displays** – These are located on the outside of the door. The display may change when the door is opened.
